Millions and millions of law suits will be filed , probably Negligence charges will be filed oh someone . Epa is going to have a hay day . Emsha is going to come down also . They will look at all training and safety policy papers They will inspect all Equiptment . Also who who we is in charge. Are listed as the plant manager in charge of operations and safety better have the qualifications and experience

Millions and millions of law suits will be filed , probably Negligence charges will be filed oh someone . Epa is going to have a hay day . Emsha is going to come down also . They will look at all training and safety policy papers They will inspect all Equiptment . Also who who we is in charge. Are listed as the plant manager in charge of operations and safety better have the qualifications and experience the back up their position things are not gonna be good insurance will be Over after this . Total bankruptcy . That pipe line is clearly marked. And feeds god knows what . It will fall on management . They sill say employees are not properly trained and. No one qualified. On site to run operations . I'm sick at my stomach . This is weed ODST than demolition services. Accident that was not our fault . I love you I'm blessed to still have in my life alive
