Hi Jason
It seems that B5 D, lib folks are working on a QAPP, but it would not hurt to send them the R9 guidance. Shall I send it on to them and to Sounjay as well? I'm including it here in case you want to send it to everyone. In any case, when it gets here, we'll review it in time for the 1/11 data collection effort.
Thanks,
Eugenia

Thanks for looking at this, Eugenia! We are hoping to get the field work done the week of Jan 11th, so it would be super to have QAPP review next week if possible (as you see below, in parallel with Sounjay, ideally). It appears we expect the QAPP from the contractor this Wednesday. Happy holidays! -Jason

Subject: OCE WA 0-2 TD11: B5 D lib [redacted] Primary Data Collection QAPP

Hi Rob,

As we discussed, B5 D lib [redacted] is preparing a primary data collection quality assurance project plan (QAPP) that will discuss the quality objectives for the primary data collection activities at the Redwood City Saltworks site and how ERG/Towill will ensure that all field activity participants understand these objectives.

B5 D li [redacted] expects to receive a draft of the QAPP from B5 D lib [redacted] for review later today, Friday, 12/18.

The QAPP needs to be reviewed by the B5 D li [redacted] WAM or Alt. WAM, B5 D li [redacted] Program Manager, and B5 D li [redacted] Project QA Manager. We expect to have these reviews completed by Wednesday, 12/23. At that time, we would send the QAPP to EPA for review. The QAPP also needs to be reviewed by the EPA technical lead (Rob Leidy), EPA WAM (Kelly Brantner), and EPA QA Manager (Sounjay Gairola). The three of you can do concurrent reviews of the QAPP and B5 D lib ti [redacted] can merge and address all of your comments in the updated, final QAPP.

It would be great if you could coordinate with Kelly Brantner to notify Sounjay that he should expect to see this QAPP for review around 12/23 and that we are planning to conduct these field activities the week of January 11th, so we would ask that we have an approved QAPP in place by COB Friday, 1/8/16, at the latest. For your information, I've included Sounjay's contact information below, but Kelly can contact Sounjay/coordinate his review.
