Paul and Jen – Please consider joining a larger group of our Branch colleagues on 12/2 to update and inform us all on your interest in re-invigorating an SF-Bay Wetlands Regional Monitoring Program.

As Nancy re-emphasized at the all-hands yesterday, the Branch is focused on the Bay as a location that lends itself to demonstrating environmental improvement across programs. To advance that collective goal, Sam took the initiative to set up this recurring "forum" to share information about a variety of SF Bay topics and activities. The "agenda" does change, but it mostly a standing pick-list of topics, and regional wetland monitoring certainly would be a great addition. Thanks! Jason

You are invited to attend a "roundtable" meeting to share and discuss our SF Bay activities as part of our "R9 SF Bay Initiative." Please let me know if you have any suggested topics to add to the proposed agenda for the next meeting on 12/2/15:

---
* The primary meeting purpose is information sharing.
* Come prepared to share info on your SF Bay work activities, ask questions, listen and float ideas.
* Invite others who may be interested or ask me to add them to this invite.

Our "R9 SF Bay Initiative" is aimed at better integrating our programs to achieve SF Bay water quality and wetlands results, particularly through fostering broad utilization of green infrastructure. A twofold goal includes improving:
* what we work on, and
* how we work together.

A conference call line will be available if you want to participate but cannot attend in person.
Conference Call Line: Non-Responsive

Thanks!
