Hey Gary, I believe the attorneys have finally spoke. Frank and Robin had a discussion, and apparently both agree the existing language is sufficient to go ahead. I believe Robin will be contacting John soon, if she hasn't already.

Good afternoon Jon.

Just checking in on the language that would modify the order for the treatability study.

Ashland has been proceeding on developing the project team per the outline that was provided to you, and it is starting to come together. So, thought we would check in with you on the legal side to see how that is coming together.

When you have a chance, please let us know.

Thanks, Gary

Oh, I didn't know you were waiting on this or I would have went to whoever was covering for him. He's back in the office today, so hopefully we'll have an answer for you tomorrow.

Jon,

I think Ashland wants to be sure of how this is going to be done and see the terms in the order before getting too far into this.

Do you have an idea of when Frank might get to this, and get something back for Robin to look at?

Thanks, Gary

Gary, he hasn't got back to me yet. He was on vacation, but should be back now.

I think you can assume you will be able to do the TS under the existing order, if not we'll work with Ashland to modify it appropriately. Is this holding you up?

Good afternoon Jon.

Just following up from our conference call on August 13, in which Frank mentioned he needed to look at the order more closely to determine how the pre-design treatability study would fit in.

Any update?

Thanks, and have a good weekend, Gary
