Ok, I won't be needing to go back to the site for a while.

On another matter, here's a quick update on the ROD. As you know, the Edison Wetland folks asked for a comment period extension, which was granted, it now ends on October 21st. So, obviously, there won't be a ROD this FY.

Aside from the comments at the public meeting (and some NJDEP comments), I have, so far, not received verbal or written comments from anyone. Once the comment period ends, I'll send the draft ROD around internally for review. I'm hoping to get it signed this calendar year –

Jon

Hi Jon,

Please coordinate with Scott for a site navigator. Either he or Paul Thorn will most likely assist you.

John

I don't thinks so. I think he just wants to take a few pictures and ask me some questions. However, I'd like someone to come along who can safely navigate the site. That would definitely not be me.

Jon,

Do they want someone from IES or Ashland there when they do this?

John

Ok, while talking about trips to the Site, a Star Ledger Reporter wants to do a drive through. Is anyone left who can do that? I will be accompanying him. No rush on this…

Jon,
I will be in the area on Tuesday the 24th and will take a look and then John or I will let you know if we have any concerns.
Thanks,
Carrie

John, Carrie Praxair is done with the interim pipeline. I checked it out today, and it looks fine as far as access/egress for is concerned. I thought you might want to take a look before I sign off on anything.

Oh, I asked them to leave the hay bales that they placed near the SBC. If you want them removed, I'll let them know.

jon
