Subject: FOIA Request LCP Site. EPA-R2-2014-009615
Date: Monday, October 20, 2014 9:47:00 AM

Mr. Gibbons, I am EPA's Remedial Project Manager for the LCP Chemicals Inc. Superfund Site (Site) in Linden, NJ. I apologize for the delay in responding to this request, I just received it this morning.

You requested all reports, correspondence, evidence summaries, data (etc) for the Site. If I were to compile, copy and send that all information to you, it would far surpass the $200 fee limit you set.

Please not that some useful information is available at the link below. There you can find the remedial investigation (and appendices), the human health risk assessment, the feasibility study and EPA's Record of Decision. Those documents contain or summarize the data collected over the years. If these documents do not provide the information you are looking for, please contact me so I can locate and copy exactly what you need.

http://www.epa.gov/region2/superfund/npl/lcpchemicals/additionaldocs.html

Thank you.
