Hi Scott, our file room coordinator is trying to combine the files on the disc into one .pdf. While we can open each individual file, a request for a password pops up when trying to combine them. The problem appears to be the acutest data in Appendix H Part II.

Any idea what that's all about?

Thanks, jon

Subject: LCP RI Report - Electronic Distribution on DVD-ROM

Jon and Anne,

An electronic copy on DVD-ROM of the RI Report for the LCP Chemicals Inc. Superfund Site will be sent to each of you via Federal Express for delivery on Wednesday afternoon. Please note that this version contains the full laboratory deliverables packages in Appendix H. These were too large to be transmitted in the electronic deliverable that I sent yesterday.

Please contact John Hoffman at Ashland or me if you have any questions or comments.
