Good morning Carrie and John. A member of an environmental group asked that EPA extend the comment period. So it's getting extended 30 days. We will need to put another notice in the paper, could you do that again (we'll write the notice etc)? If not, we can procure it and charge you later.

We won't make this fiscal year, which is bad as there's nothing like a deadline to get something signed. I will push to get this signed at least this calendar year.

jon
