Jon,

Just realized I said a representative of ISP. It would GAF or LPH, whatever the current convention is for that entity. Sorry.

Gary

Good afternoon Jon.

I just got an update from the field, from Dave Bove to Paul Mutch (who stopped at LCP on Monday morning).

Turns out the water company did repair the water main break. The repair was made late in the day, and was observed by a representative of ISP who still happened to be there.

Nothing different in terms of conclusions, however. No disturbance to the RCRA cap, and they did a good job of restoration as it was not obvious that the work had been done.

If you need anything else, please let me know.

Gary
