I'm not sure what Rick did exactly—this looks exactly like an earlier version of the slide deck we used for Matt. Perhaps he sent the wrong version?
Never the less, I updated it to reflect new language that we used in matts briefing and a few other tweaks and also some comments on what could be removed.
Much of this will be background for the Administrator.

None of the legal arguments/options are in here.

Thanks Rick. I appreciate the deep dive efforts on a short timeframe. Necessary.

To keep this streamlined, Rick we will give you one OCSPP IO set of edits. If OGC could do the same?

I suggest we also hold a conference call on this. I will be free at 415 if we want to do that.

There had been some discussion yesterday about including additional technical material, but from the outline we had discussed, it wasn't clear to me where (and to what degree) we would include that information. Any thoughts you have would be appreciated.
