Hi Kristin – Is the attached "BDCP" document the paper included in the briefing book for Tomas? If so, it's OK to use, but I'd suggest using the "Hot Topics" file attached here which slightly revises the reference to this briefing paper.

All,

A tremendous thank you for all of your assistance in putting together this briefing document and preparing for the briefing on Monday. This project is critically important, technically complex and politically sensitive. Notwithstanding all of that, it has been a real pleasure working with you all on this project. I very much value your hard work, insights, responsiveness and teamwork. Many thanks!!!
