UTS Table

This table identifies the constituents list in 40 CFR 268.48 for which universal treatment standards have been set. Use this table in conjunction with the N.E.S. LDR form to identify Underlying Hazardous Constituents (UHC's) to be monitored for: D001, D002, D012-D043, F001-F005 and F039 waste streams.

Please check the appropriate box(es) for the UHC(s) present in the waste:
