Abboud made edits and I took more info on CCR. So, now back to 9 pages. But still two pages shorter than the original.

I cut out more than 2 pages…some sections are longer as those are the sections he asks about more info for the most (Methane, 401, CA…and the new entry of CCR and ELG).

Hello Ryan,

This is still very long. Please let me know if you have any questions.
