Karen you mentioned this yesterday and I just saw it come in. Looks like they already sent it to the docket.

"We respectfully urge EPA to make public in the docket *all* compliance reports submitted pursuant to 40 C.F.R. Part 60 Subpart OOOOa, including reports due by October 31, 2018, along with any analysis of compliance data undertaken by EPA. We request that EPA extend the comment period for 60 days after these reports have been made public, to allow for meaningful analysis and comment on the NSPS Reconsideration Proposal."
