Subject: RE: Expedited FAR Request - Technical package

Hi Natalie, I reached out directly and shared your concerns. Folks are sympathetic but think it is highly unlikely that an extension will be granted.

Subject: FW: Expedited FAR Request - Technical package

Hi John,

I had a due date of yesterday to submit R5's position on whether we agree or disagree with a proposed 10-day FAR review period for the final version of the revised NSPS OOOOa (Oil and Gas production).

EPA's Action Development Process specifies a review period of not less than 15 days, and the package is around 700 pages. We expect to concur with comments to the final rule, so we will need a reasonable amount of time to review and brief management on comments for final signoff. I don't get the sense that the timing issue is very controversial (we're just asking for 5 extra days of review, when there is no actual deadline for the final rule), and word from the workgroup chair is that OAR is expecting to go with a 15-day FAR period (even though they have typically been requesting 10 days simply as a matter of practice for many rules), but that OAQPS needs to simply hear this position from the Regional workgroup members to put it forth.

I would like to submit our form as attached. Please let me know.

Thanks,

Natalie

Subject: Expedited FAR Request - Technical package

Hi everyone,

Thank you to those workgroup members that have responded to the expedited 10-day FAR request for the technical package. OP is asking that I obtain responses (even if declining the request) from all workgroup members so I can close the loop.

Please respond by noon tomorrow (Wednesday).

Thanks!
Karen
