Subject:	Amended Closing Report: 76-TUL-16 (4-year-old child admitted after ingesting chlorpyrifos from an unlabeled bottle)
Date:	Wednesday, March 08, 2017 1:36:34 PM
Attachments:	Amended - 76-TUL-16 Closing Report.pdf

On October 27, 2016, a 4-year-old-child was taken and admitted to Sierra View Medical Center (Porterville, CA) for symptoms experienced after having ingested Lorsban 4E (A.I. chlorpyrifos) from an unlabeled bottle. The symptoms experienced by the 4-year-old-child included a stomach ache, vomiting, shaking, drooling, and difficulty standing. On October 28, 2016, the 4-year-old-child was transferred and admitted to Children's Hospital - Central California (Madera, CA) where he received treatment and was released on October 29, 2016.

The Closing Report was amended to include information about how the Lorsban 4E was acquired and how the 4-year-old-child came in contact with the Lorsban 4E.
