HI Alex,
I don't have any objections to the waiver, and defer to EPA as the administrator for OOOOa at this point. I am forwarding this to our stack test work lead, Jeremy Murtaugh, for any feedback he may have for you.
Have a safe trip Alex!

I'm including the waiver below that Scott can send to Martin if everyone is cool. I'm sending this in hopes it goes out (a) before we shutdown forever and/or (b) I'm going to Costa Rica in less than 24 hours and will never think of this again.

Thanks and good luck suckers!!

Mr. Willinger,

Based on the information emailed on December 26, 2018, the EPA accepts your adjustment to the 30-day notification required by NSPS OOOOa and 40 CFR 60.8(d) for the control device located at the Motu 28-21-16-1CH Well Site located on in Weld County, Colorado.

If you have any questions, please contact Alexis North at 303-312-7005 or north.alexis@epa.gov.

Sincerely,

Scott H. Patefield, Director

RE: Longs Peak Resources - 40 CFR Part 60, Subpart OOOOa Performance Test

AST Project No. 2019-0128

Alliance Source Testing, LLC (AST) is pleased to submit the attached source test plan on behalf of Longs Peak Resources, LLC for compliance at Motu 28-21-16-1CH well site located in Weld County, Colorado. We are proposing a test date of January 15, 2019 and are requesting a wavier of the 30-day notification required by §60.8. Any flexibility is appreciated.

Testing will include determining the concentrations and mass rates of total volatile organic (TOC) and volatile organic compounds (VOC) from the inlet and outlet of an enclosed combustor to determine the destruction rate efficiency (DRE) of the enclosed combustor. Additionally, the opacity of visible emission (VE) will be determined from the enclosed combustor. Performance testing will be conducted in accordance with methods and procedures outlined in 40 CFR Part 60, Subpart OOOOa (§60.5413a). Test results will be compared with performance standards outlined in 40 CFR Part 60, Subpart OOOOa (§60.5412a(d)(1)(iv)).

Feel free to call or email with any comments or questions regarding these test plans. I wasn't sure on who the correct EPA contact would be on this project.

CCed: Longs Peak Resources – Angie Galvan, Hakim Benhammou, David Williams

EPA Region 8 – Scott Patefield, Alexis North

Thanks,

Marty Willinger
