Subject: NOTES from April 2011 DOH EPA Monthly Call
Date: 04/28/2011 05:34 PM

Hi Stuart,
Here are the notes from last week's call. Please share with Gary and others, as appropriate. Please let us know if your recollection differs from ours.

thanks,
Hudson

NEXT Call: May 19, 2011- 11 am Pacific/ 8 am Hawaii ???

DOH-EPA Monthly Call Notes April 21, 2011
Participants: DOH: Stuart Yamada, EPA: Nancy Woo, Tina Yin, Hudson Slay

1. May Grant Negotiations
a. Agenda and Schedule
b. Confirm list of DOH attending SF mtgs in person:
c. Start and end times, daily, Friday
d. Logistics - will Gary need private office space and computer/ internet?
Notes: Close-out on Friday as scheduled; Stuart (and possibly Gary Gill) should make every effort to attend NPDES and Lahaina discussions

2. Honolulu Seawater AC
Notes: EPA heads-up to DOH concerning multitude of permitting/water quality issues associated with this proposed project
Nancy to call Alec about this
Written comments on Draft EIS due on/before May 2, 2011 (see http://www.poh.usace.army.mil/PA/PublicNotices/SPN_POH200401141.pdf for public notice)

3. Waimanalo Gulch Stormwater
Notes: EPA drafting Section 308 information request letter
Non-Responsive / Deliberative [redacted]

4. NPDES
a. Will CCH MS4 be complete before May negotiations?
b. Update on Fact Sheet meeting
Notes: DOH/S. Yamada should have detailed schedule for proposed permit issuance (including CCH MS4 permit)
EPA-CWB Eng Section discussion about fact sheet content/quality held in late March
Trade-offs (e.g., improving a portion of factsheet instead of whole to allow faster permit issuance) will not really work---need improved permit issuance and higher quality permits
In-kind contractor support--cost ~$17K/draft permit; potential contractor---PG Environmental has Hawaii experience with facility inspections

5. Status of LCMS purchase
Notes: Purchasing process underway and should be completed by Sept. 30th
Update after Dan Chang returns Non-Responsive / [redacted]

6.Lahaina UIC

Notes: Issue of 1 year extension to Maui County to develop a monitoring plan consistent with Section 401 WQ certification requirements without coordinating with EPA (401 monitoring timeframe needs to be consistent with or at least coordinated with all other monitoring efforts)
Informal response from DOH to Maui County re: consideration of an NPDES permit needs to be revisited with consideration given to written clarification from DOH to Maui County

7. Feedback from Gary Gill's mtg with PRC.
Notes: GG asked many questions and challenged the PRC Program
Asked what they would do if had unlimited resources
Inquired about possible reorganization
Unclear if there are any specific next steps between PRC and GG

8. EPA budget updates - where available.
a. Large cuts to SRF - what will this mean?
b. 319 and 106 almost exactly the same as FY10
Notes: SRF cuts in FY2011 budget anticipated by DOH
