Hi Tala,
I learned this morning that you have the lead for the separable 3rd party guidance document required under section 26.
I would like to get a briefing on the document/status. If this works for you, I will ask Gloria to set it up. Perhaps next week.

Thanks!
Nancy

Subject Steps to resolve C&T FR issues
Location (b) (6) [redacted]
Show Time As Tentative

I know that Peter and OGC can come to this. Others feel free to join.

1. Response to press Q's: if this deadline extension is a final rule that goes into effect immediately, why is the agency requesting comments? If the decision to extend the deadline has already been made, why are comments being solicited? Or, alternatively, is that a typo on the FR notice and this is actually not a final rule?

2. Date for finalizing the rule – additional issues

Information from Peter:

Pointing you to additional info: OFR in their updated Document Drafting Handbook (https://www.archives.gov/files/federal-register/write/handbook/ddh.pdf) at section 3.1 provides that

* Documents that affect other documents previously published in the rules category [nb: not the Proposed Rules category]. These documents:

o Correct a previously published rule

o Change the effective date

o Change the comment deadline of an interim rule or direct final rule

o Suspend a previously published rule

o Withdraw a rule not yet in effect

o Petition for reconsideration

If it is infeasible/impossible to manage an effective date change before 5/22, which may be the case no matter which part of the FR the document will publish, there are still a few potential avenues of pursuit for effectuating the change.

Subject: RE: Urgent -- Due by 2:30: LINDA: Pesticides Applicators Rule; BNA;

The explanation that EPA received from the Office of the Federal Register is that:

"This is not a proposed rule. It is the next chapter in the final rule issued Jan 4. You're not proposing regulations, but asking if the effective date of a final rule should be further delayed. Therefore directly tied to a final rule and thus in the rule category."

From OFR's vantage point, this has more to do with the section of the FR that the document is supposed to publish in (Notices, Proposed Rules, Rules) than whether we're asking for comments on something. We've received similar feedback in past, e.g., a denial of a rulemaking petition has to publish in the Proposed Rules section instead of the Notices section because it pertains to a request for a proposed rule.

With respect to the questions about the effective date decision itself, other corners are also asking for more info.

Hi, Nancy.

Yes, that's right; I am in the "front office" along with Kevin, the acting GC, Justin, the other political deputy, and Elise, the acting career deputy. I believe the meeting tomorrow at 10:00 a.m. is with Justin and me.

I agree that it would be helpful for us to discuss. Would you be available from 9-9:30 a.m. tomorrow?

Agenda/Topics to be covered

For this week's RE meeting:

(1) This will be an important discussion/decision meeting; would be more efficient to scale back attendance to include: OCSPP, OPPT-IO, OGC, RAD – Tala, Iris Camacho, Karen Eisenreich, Yvette Selby-Mohamadu

(2) SCOPEs: RAD will provide SCOPE document (in whatever shape it is in) for Carbon Tetrachloride to OD by NLT Tuesday noon; DAA had asked to "see" some of the documents;

Meeting Objective: RAD receive 'first impressions' input and/or specific guidance on nature and extent of content in these documents. Also, would like specific comments on the Introduction language, especially with regard to first 10 scopes and newly added commitment

to publish Problem Formulations.

(3) SCOPEs: 'Byproduct/Contaminant' issue – RAD will provide SCOPE document (in whatever shape it is in) for 1,4-Dioxane (which in previous public Problem Formulation and current SCOPE includes 1,4-Dioxane in consumer/commercial products as a byproduct of methoxylate manufacture) to OD by NLT Tuesday noon;

Meeting Objective: RAD receive definitive guidance on inclusion/exclusion of 'byproducts/contaminants' – as a general matter would be nice, but specifically for 1,4-Dioxane is a must.

(4) RE Guidance: RAD notes we have already received intra-agency review/comments from: OPP (Lowit); OP (Cooperstein; Axelrad); OCHP (Foos; Fallace); ORD-NCEA (Thayer, Vandenberg, Cogliano, Glenn, Kraft, Woodall, Hogan, Radke-Farabaugh); OW (Behl; Reiley), OLEM (Raffaele), OAR (Murphy, Vasu), OGC (Celeste; Berol)

Meeting Objective: RAD receive definitive guidance on nature and extent of content; status of "significance" determination; timing for inter-Agency review, if needed.

Good afternoon Janet,

Again this year, the OIG's Office of Program Evaluation is scheduling outreach meetings with each Program Office to discuss how our program evaluation and performance auditing work can best serve the Agency's mission.

I would appreciate your assistance in scheduling an outreach meeting with Ms. Wendy Cleland-Hamnett, her deputies and office directors in the next month, or their earliest convenience.

We will provide a short briefing on our mission, role, and capabilities and then solicit feedback on our products; and discuss evaluation suggestions or ideas that can support OCSPP's mission.

I can provide the availability of OPE's AIG, Carolyn Copper, and Deputy AIG, Christine El-Zoghbi.

Thank you for your assistance.

Subject PFAS Discussion Follow-up: Agenda added
Location 41107 RRB; (b) (6) [redacted]
Show Time As Tentative
Agenda

1. Introductions (Maureen Gwinn)

2. Walk through of attached documents (Maureen Gwinn)

3. Discussion of Mike Flynn's comments (Susan Burden)

a. Specific information on priority needs

b. Specific information on interactions with ECOS

4. Next steps

a. Updated draft and timeline (Maureen Gwinn)

b. Timing for Administrator briefing (Susan Burden)

5. Discussion (all)

Thank you again for the great discussion about plans for PFAS coordination across the Agency. For your review, please find attached a document that lays out what we discussed for a process and key milestones including an appendix containing PFAS background. Also attached for your review is a briefing paper for the Administrator discussing the issue, the key priority areas we discussed at our last meeting and recommended next steps.

Please review both documents for any inconsistencies with our discussion on April 26th. Mike Flynn would like us to have a document for his review early the week of May 22nd. I will ask Nathan Gentry to schedule a one hour meeting sometime mid to late next week for us to discuss any comments on this document, and any further information that may be needed before sharing this again with Mike. Unfortunately, I will be out of the country but given the requested timeline we will need to continue in my absence. I will have Tom Sinks and Maureen Gwinn take the lead on working with you all and Mike Flynn in closing out this document.

Thank you again in helping to move this forward,

Bob

Request: We understand that it would be most convenient to meet at the EPA HQ and are prepared to bring a group of our Board Members for a meeting. As confirmed by other industry colleagues, we believe that the most appropriate person to meet with would be Brittany, as she is an executive level political appointee that represents the policies of the new administration. The nature of the discussion is not meant to be technical, but rather focus on policies moving forward under the new EPA administrator. The discussion may also address EPA-related regulatory challenges:

1. The U.S. color pigment manufacturing industry, its downstream customers and its domestic economic impacts

2. Principal EPA-related regulatory challenges:

a. TSCA risk evaluations of Work Plan pigments, starting with Violet 29

b. Proper role of EPA regions in setting state water quality criteria — Region 10 override of WA DoE

Meeting is at OMB's request.

OMB would like to set up a call to discuss pre-prioritization and EPA's plans for low-priority designations. We would like to get a handle on EPA's thought process regarding the pre-prioritization phase prior to concluding on the prioritization rule. For the low priority designations we would like to learn more about EPA's plans for these and the pros and cons for continuing to make low priority designations after the first twenty.

Subject: RE: Sec 3 Registration for Mosquitos

Nancy,

Many thanks for your time this week, and for the time that you put into coming up to speed on this very complex matter.

We are very pleased to hear that OPP has confirmed that we can submit a Section 3 application before the transfer of jurisdiction, and we have started ramping up the resources to complete our Section 3 application as soon as possible.

As we discussed the other day, this process has become quite complicated, with a number of different aspects of it with different agencies, and a number of possible regulatory outcomes. Before we focus all of our efforts on the Section 3 application, I'd like to confirm a couple of key points that are crucial to ensure that we are able to release OX513A males in the summer of 2017. First, that FDA will finalize the guidance to transfer jurisdiction to EPA as soon as possible. As I believe I mentioned on Thursday, OGC has taken the position that EPA cannot issue a Section 3 registration until jurisdiction has formally transferred from FDA (which, as a legal matter, I believe is correct). Therefore, that transfer should take place as soon as possible. FDA has essentially been waiting on Dr. Gottlieb to be confirmed before moving on this action. It is my understanding that once the FDA staff has his concurrence the transfer can be effected almost immediately. Second, that OPP is prepared not only to accept a Section 3 application, but will diligently proceed to evaluate it expeditiously and be in a position to render a decision in time to enable 2017 releases. As we discussed, there is a substantial body of data available that demonstrates the safety and efficacy of OX513A, and I fully believe that these data are sufficient for purposes of a registration. We have previously been told by BPPD that new toxicity data must be submitted to qualify for a registration. As I noted, I have been reviewing, defending, and issuing pesticide registrations since the 1990s, I do not believe that the new data are necessary for the registration – given the substantial existing database on the safety and efficacy of OX513A. We are developing these data, and we would be pleased to submit them post approval, i.e., we would be pleased to accept a conditional registration with the understanding that the data will be submitted within any reasonable time frame that EPA sets. The new data are not necessary, however, to meet the FIFRA standard and register OX513A now.

It is my understanding that this is where Thursday's meeting came out. Before we reach out to Rick and BPPD, however, to discuss the details of developing and submitting the Section 3, I wanted to confirm this understanding.

Please feel free to contact me at the number below, or on my cell phone at 240 483 7786 at any time that is convenient for you.

Again, many thanks for your attention to this matter.

Best,

Keith

Subject: Sec 3 Registration for Mosquitos

Tom, Roy, and Keith,
It was a pleasure to meet you all today (and yesterday). The work you are doing is fascinating to me, not to mention the large potential public health significance.

I've checked with Rick Keigwin, the Acting Director of our Pesticides office, and he has confirmed that you can indeed submit the registration request, and begin the process, before the authority is transferred from FDA to EPA. Rick is cc'd above if you have any specific questions about how to make this happen. I'm sure his staff can provide assistance.

Regards,
Nancy

Time All Day
Subject OCSPP IO Clean-up Day
Show Time As Free

Hi everyone,

We will be having an office clean-up day on Wednesday, June 14th to coincide with the Records Management Day. We will have trash barrels around our 3rd floor space for your use. If you have Records Management issues that need addressed please contact Denise Adams.

Although we do not have anyone assigned to assist in cleaning up the common-areas, your assistance would be greatly appreciated.

I also wanted to alert everyone to an upcoming inspection by the Office of Health and Safety. This is a yearly inspection, during which the inspector notes safety issues that exist in our office space. To assist you in ensuring that your respective space does not have any safety violations/risks, please take a look at the attached checklist provided by the Health and Safety Office.

If you have any questions regarding the IO clean-up day or the July 12th inspection, please let me know.

Thanks,

Bruce Berkley

Subject: Meeting Request - American Home Furnishings Alliance

Nancy,

I hope all is well.

Andy Counts, CEO of the American Home Furnishings Alliance, and Bill Perdue, VP for Regulatory Affairs, will be in Washington, DC on Thursday June 15, 2017. They were hoping to meet with you to discuss the 'Formaldehyde Emission Standards for Composite Wood Products' rulemaking. We worked with the agency over the last seven years through development and then recently with the delay in the effective date and the subsequent Direct Final Rule/Proposed Rule on the Compliance Date extension.

The AHFA represents furniture manufacturers and our main issue in the rulemaking has been the treatment of laminated products. We were hoping to go into more detail on the impact of the EPA rule and discuss next steps.

We can be flexible in the late morning or early afternoon but would 11am on June 15th work on your schedule?

Thank you very much,

Chris

Subject budget w/ Jason Gray
Location CFO's office 4th floor North 4406
Show Time As Busy

Hi everyone,

Ed Walsh has asked us to meet with Jason Gray on Thursday, June 20th from 2:30 – 3:30. Jason would like to discuss:

OCSPP
* Pesticide fees (new FY18 proposal)
* TSCA implementation & fee language

Since Jason is meeting with many other programs in the Agency, Ed is trying to consolidate the meetings among NPMs which is why we will have OPP and OPPT at the same meeting to discuss their respective topics. The meetings will take place in the CFO's office on the 4th floor of the Ariel Rios North. I'm not sure if Ed will send a meeting invite, so please use this to hold the time on your calendars.

That’s perfect, Nancy. Let’s do a call at 1:00pm. Betsy Natz from KCMA was also interested in joining so I suggest we do a conference call using our system. I know you all already have the docs we’ve submitted but I’ve attached them so you have them at hand during the call.

We’ll keep it quick.

I would appreciate a few minutes of your time to discuss our pending PMN.

In order to have some background on it, I have attached the slide deck presented to the agency in December.

There is a lot more background on this PMN that you should be aware.

Nancy,

This is to follow up on a meeting you had last week with a group from CropLife, and to connect on specific issues. I have sent an LinkedIn request to connect, noting that I am also an ACC Alum, having run the energy and climate team in the early 2000s. I currently run all of Bayer's advocacy for our CropScience business.

I am hoping we can get coffee next week to talk shop and follow up on the meeting you had with the group from CropLife last week. We were not able to be present but have a number of things cooking right now. Please let me know if you have availability.

Hi,

Just checking in on what you would like me to do for this briefing. I will call in for the actual meeting, but do you want me to prepare, review, or clear on anything before it gets to you?

Would normally do all of that but seems like this may be some targeted questions as opposed to a general briefing, etc. If there are specific issues you want me to be prepared for, please let me know.

Thanks,
Karissa

Nancy has a meeting immediately after ours, starting at 1:00, at her office at 12th and Constitution. Originally, she had in mind that we could meet over lunch. I made a reservation at the USDA Whitten People's buffet. If USDA participants could meet outside of USDA, I'd make a reservation somewhere more convenient.

Subject: Timely Meeting Request re Ellis v Housenger

Good afternoon, Nancy,

Jay Vroom has asked me to reach out to you to schedule a meeting soonest (ideally before Tuesday, July 18) regarding Ellis v Housenger. On a conference call yesterday, the Government advised that the political meeting between the registrants/CLA and EPA should occur before the July 18 ADR submission if possible and certainly before the July 25 in-person meeting with Judge Corley.

The Court has ordered mediation before the next phase of litigation. There is a settlement meeting with the arbitrator set for July 25th that we are preparing for, to talk through why a settlement of this particular case is in the best interests of EPA and the registrants, and to obtain your support for pursuing a settlement with the plaintiffs.

We understand that you are the key EPA person/decision-maker, and that is why I am reaching out to you today. In keeping with the hopes of scheduling this meeting sooner rather than later, I can offer the following dates and times:

* Thursday, July 13
* Friday, July 14, between 10:00a and noon
* Monday, July 17

The Government suggested it may be helpful to include Rick Keigwin, Marietta Echeverria, Yu-Ting Guilaran, and someone from the Office of the General Counsel, and we'll leave that to your good offices.

If you are unable to identify a time that could work based on the above suggestions, please let me know and I'll come back with other dates before July 25.

This meeting would include Jay Vroom and our general counsel, Rachel Lattimore, as well as registrant representatives – we estimate 9-12 participants, including Jay and Rachel. In that case, it seems a minimum of 45 minutes would be best, if not an 60 or 90 minutes.

I look forward to hearing from you.

David Dorman (chair), North Carolina State University

Weihsueh Chiu, Texas A&M University

Karen Robinson, Johns Hopkins University

Project Scope:

An ad hoc committee under the auspices of the National Research Council (NRC) will develop a strategy for evaluating evidence of low-dose adverse human effects that act through an endocrine-mediated pathway. The study will include a scientific workshop to support the conduct of systematic reviews of human and animal toxicology data for two or more chemicals that affect the estrogen, androgen, or perhaps other endocrine systems. The workshop will seek to identify examples of relevant chemicals, populations/model systems, and end points of interest for further study using systematic-review methods. Systematic reviews for these chemicals/populations/end points for human and animal data streams will be performed under the direction of the committee. The committee will evaluate the results of the systematic reviews, demonstrate how human and animal data streams can be integrated, determine whether the evidence supports a likely causal association, and evaluate the nature and relevance of the dose-response relationship(s). The committee will consider how to use adverse outcome pathway (AOP) or other mechanistic data, including high-throughput data and pharmacokinetic information, to elucidate under what circumstances human and animal data may be concordant or discordant. The results of the committee's evaluation of low-dose toxicity can be used to inform EPA on the adequacy of its current regulatory toxicity-testing practices.

Location WJC-N 3rd Floor, The Green Room
Show Time As Busy

Hi everyone –

An important part of the FY 2019 budget development process is the Senior Leadership Council meeting. This meeting brings together all the senior leadership, HQ and the regions, to discuss agency priorities and resource needs in order to inform decisions for the FY 2019 Budget due to OMB in mid-September. Given there are many people new to this effort, Tuesday afternoon is dedicated to hearing from the program teams to establish a common understanding before launching into Wednesday's planning and resource discussions. Wednesday's sessions begin by setting the stage with presentations and discussions on key building blocks for the FY 2019 budget followed by small group and full group discussions to identify programmatic options for consideration in the FY 2019 OMB Submission. On Thursday, updates are proposed on the First Line Supervisor Advisory Group efforts and Executive Order implementation.

An agenda with more details will follow shortly and be included in the meeting invitation. You should receive and invitation for each day since the times vary. In addition, invitations to the +1s for Wednesday, 7/19, will be sent separately.

If you have any questions please do not hesitate to reach out to Mike Flynn or me.

Thank you, Robin

Subject Meeting with the Plastics Industry Association - (b) (6) [redacted]
Location 3500 WJCN
Show Time As Tentative

Thank you for the introduction and welcome. The Plastics Industry Association (PLASTICS) and members of its EHS+ Committee are very much looking forward to meeting with members of EPA's Office of Policy team. This is particularly timely given last Thursday's release of the Unified Agenda.

Implementation of the amended TSCA remains a key issue, and a key theme is EPA resources. Below is a list of other important issues for our members (neither all-inclusive nor prioritized) that will also be discussed with additional Agency offices. We'd like to focus on specific actions EPA could take that would be most helpful to our industry and that would not require changes to regulations, as well as discuss how we might address challenges that may require regulatory changes with notice and comment.

Chemical Substances

- Implementation of the amended TSCA

- TRI reporting

Air

- Ways to streamline permitting processes to help compliance assistance and reduce burdens for both regulated entities and permitting authorities

- Revisiting concepts of flexible air permitting, netting and debottlenecking, reporting frequency

- Leak detection and repair monitoring requirements for connectors

- "Once in, Always in" Policy for MACT standards

- Routine maintenance repair and replacement under NSR

- Commencing construction and beginning actual construction under NSR

- Project aggregation rulemaking (PSD and NSR)

- Air quality modeling analysis and monitoring requirements

Water

- Ways to streamline permitting processes to help compliance assistance and reduce burdens for both regulated entities and permitting authorities

- Pelletized and solid resins and wax under the SPCC component of EPA's oil spill prevention program

- Synthetic Organic Chemical Manufacturing Industry (SOCMI) wastewater proposal of 1994, amended in 2004

Waste

- Petition for review of the Hazardous Waste Generators Improvements Rule, and potential options

- CERCLA Superfund challenges to advancing rehabilitation

Subject Dicamba Discussion with Extension and State Lead Agencies via (b) [redacted] Agenda attached and appended (6) below- Now includes a new pfd from K. Bradley
Location DCRoomPYS7731E/Potomac-Yard-One
Show Time As Busy

Background

Since June 2017, the EPA has been receiving reports regarding a high number of crop damage incidents involving the active ingredient dicamba. The number of complaints is especially high in Arkansas, Illinois, Missouri, Mississippi, and Tennessee. Recently, a number of other states are reporting complaints including more northern states.

New formulations of dicamba were registered by the Agency for use on dicamba-tolerant cotton and soybeans late in 2016 (Monsanto's DGA in November and BASFs BAPMA in December). EPA appreciates the opportunity to discuss these cases of crop damage more fully and better understand the underlying science and leading factors contributing to the crop damage.

Dicamba: Discussion with State Extension Representatives

July 28, 2017

Agenda

I. Meeting Introductions OPP & USDA

II. Meeting Format (RD) Kenny/Baris

III. Mapping of incidents/damage overview (Bradley)

IV. Extension's Input on Dicamba Incidents (30-40 min) EPA is soliciting feedback from extension agents focusing on information that could help remedy the unacceptable dicamba incidents in the field. We would like to hear from each of the extension experts with their insights related especially to the following:

1. Based on information available to you, so far, what would you describe as the leading causes of crop damage incidents in your state?

2. What are you seeing out in the field that led you to that conclusion? Are you working on any additional data that is relevant to the issues? Are you able to share any of this information with the EPA?

3. Based on the leading causes, what approaches would you recommend to fix the problem?

Arkansas (Norsworthy, Barber, and Scott)

Georgia (Culpepper and Prostko)

Illinois (Hager)

Indiana (Johnson and Young)

Iowa (Hartzler and Owen)

Kansas (Peterson)

Kentucky (Barrett)

Mississippi (Bond)

Missouri (Bradley)

Ohio (Loux)

Tennessee (Steckel and Mueller)

V. Volatility Data/Discussion (Bradley) (20-30 min)

VI. Additional Discussion and Questions (time permitting)

VII. Closing Remarks/next steps

Subject: Meeting Request

Hello Gloria,

We are counsel to Duracell, the battery company. It wishes to meet with Wendy, Nancy, Jeff, and David Widawsky later this month to introduce a new battery technology and explain its benefits, and how it will be regulated under TSCA.

Could you please find an hour where the people above will be available? We thought perhaps Administrator Pruitt would welcome an opportunity to visit as well, so it would be fantastic if Mr. Pruitt's calendar were also considered.

Thanks much.

Subject Inorganic Byproducts Negotiated Rulemaking - Committee Meeting Day 1
Location WJCEAST 1153
Show Time As Busy

Agenda attached and first day is below.

EPA presentation is planned for 10:10 – 11:45.

Wednesday, August 16 (9:00 AM – 5:00 PM)

Welcome, Introductions and Agenda Review (9:00 – 9:30 AM)

Approve Operating Protocol and Meeting Summary (9:30–9:50 AM)

Overview of Substantive Workgroup Activities and Approaches Considered (9:50–10:10 AM)

Overview of Substantive Workgroup mandate and activities and high-level overview of approaches that will be presented.

Discussion on Approach A - Simplify Reporting (10:10-11:45 AM)

Susan Sharkey, U.S. Environmental Protection Agency (EPA), will provide an overview of this approach that simplifies reporting by

removing need to consider exemptions, enabling reporting in categories, and reporting reduced processing and use information for inorganic byproducts that are recycled, reused, or reprocessed. The group will discuss questions of clarification and share initial perspectives on strengths and considerations/concerns.

Lunch (11:45-1:00 PM)

Discussion on Approach B - Expand Commercial Use Exemptions (1:00-1:40 PM)

Kathleen Roberts, North American Metals Council (NAMC), will describe this approach that adds an exemption for inorganic byproducts that are recycled, reused, or reprocessed and reacted to form a different chemical or molecular form of the initial inorganic component chemical. The group will discuss questions of clarification and share initial perspectives on strengths and considerations/concerns.

Discussion on Approach C - Limit Processing & Use Reporting (1:40-2:20 PM)

Doug Green, Utility Solid Waste Activities Group (USWAG), will describe this approach that partially exempts inorganic byproducts that are recycled, reused, or reprocessed from reporting processing and use information under part 3 of CDR Form U, unless specifically listed for full reporting. The group will discuss questions of clarification and share initial perspectives on strengths and considerations/concerns.

Discussion on Approach D - Improve Data (2:20-3:00 PM)

Rick Reibstein, National Pollution Prevention Roundtable (NPPR), will describe this approach that improves data by eliminating the byproduct exemptions and requiring the reporting of processing and use information from processors instead of byproduct manufacturers, for inorganic byproducts that are recycled, reused, or reprocessed. The group will discuss questions of clarification and share initial perspectives on strengths and considerations/concerns.

Break (3:00-3:15 PM)

Discussion on Approach E – Limit Reporting for Site-Specific Recycling (3:15-4:15 PM)

Jim Cooper, American Fuel and Petrochemical Manufacturers (AFPM),

will describe this approach, which limits reporting for inorganic byproducts that are recycled, reused, or reprocessed either at the site of byproduct manufacture or at a different site but returned to the site of manufacture for further use or processing. The group will discuss questions of clarification and share initial perspectives on strengths and considerations/concerns.

Marian,

Due to conflicts and time constraints, I had to step down from the TEF board. I can suggest someone else for you to speak with.

Regarding OCSPP, I'm happy to find 30 minutes for us to chat.

Regards,

Nancy

UPDATE: OK everyone. The response that I have gotten so far suggests a different time. From responses I've already seen and the calendars that I observe, some of you will be able to make 3 pm; therefore, we will meet then. I hope you can make it!

Hi, Anna has suggested a meeting today. She has concerns about the AR Programmatic Relevance section & clarification Qs about the charge Qs. I am sending this invitation to check on how many people can attend. I'm sorry for the late time slot, but that seems to be the first available that Anna, Stan, and possibly several other people can attend. Please respond ASAP to accept or decline, so we can know if this meeting will have to be rescheduled.

Subject Internal OCSPP prep mtg for OIG Mtg re: Amended TSCA Rollout/Implementation and Challenges

Location DCRoomEast3156/DC-EPA-EAST-OCSPP

Show Time As Busy

8/24/17 update: Here is what Jeff Harris from the OIG replied when I asked him for more specifics…

"My goal is to identify TSCA/Lautenberg Act implementation challenges where an independent external review can be useful.

To best identify where and how any work we initiate may be useful, we need to better understand what OCSPP sees are its current and

future challenges.

I am sensitive to people's valuable time and seek to minimize that burden. So, I (and my team via phone) would like to meet with whomever is best the describe the challenges."

Very difficult to find a time when all principals are available. This time works for Wendy and Nancy… figured we could always follow-up with Jeff and Tanya when they return from vacation, but this is literally Wendy's last day at EPA.

8/14/17: Update – Mtg confirmed.

Please bring your ideas about implementation challenges and proposed areas of study for the OIG that would prove helpful to OCSPP.

Please feel free to invite others who can meaningfully contribute to the discussion.

Thanks,

Janet

7/20/17 Update: Rescheduling… please bear with me as I work to find a time when key players can be present. Janet

This is a pre-brief/prep session for the 8/1 scheduled mtg with the OIG regarding future studies of TSCA implementation. OIG's Office of Program Evaluation has asked for our help identifying implementation challenges where an independent external review would be helpful to us.

I am having great difficulty finding a date/time when all principals are free… please RSVP so I can ascertain if this time gets us a quorum.

Also please feel free to delegate or invite others to the mtg.

Thanks.

Janet

Hi everyone,

Our next meeting is Monday the 25th. Rusty unfortunately won't be able to join us and provide the ORD-NCCT update. My apologies for not being able to move the meeting, but there didn't seem to be any other options next week. So moving forward for the next two weeks the plan is:

Sept 25 4pm– Discuss reaction/edits to:
1. Background of the Pre-Prioritization document – attached
2. 1-pager outlining our approach to 'Working the 2014 Work Plan chemicals' – attached
a. This was discussed last week after the Work Plan presentation. It was clear that the Work Plan would entail two approaches 1) Working the 2014 Work Plan as mandated by the statute and 2) developing an additional work plan method above and beyond the 2014 Plan
3. Any additional thoughts from other 2-pagers that were updated

after the initial discussions: SCIL, Canada, high-throughput methods, Work Plan (#2 above), and sectors

Oct 2 10am – Rusty's update on ORD-NCCT progress

If each group would please forward the most recent versions of your 2 pagers. I would like to start getting these finalized and it would be helpful to send them out in 1 document.
I received the updated version from Lauren and the SCIL group which is also attached.
Also the most recent goal and guiding principles document is attached.

If you have any edits on these prior to the upcoming meetings you can send them on to me or technical questions on to the specific groups.

Thanks so much,
Susanna

Purpose: To brief Nancy on the 610 Lead Review. Background: Section 610 of the Regulatory Flexibility Act (RFA) requires that federal agencies review each rule that has or will have a significant economic impact on a substantial number of small entities (SISNOSE) within ten years of publication of the final rule. EPA initiates a Section 610 review in order to determine if the provisions of a rule that are related to small entities should be continued without change, rescinded, or amended to minimize adverse economic impacts on small entities.

Draft note and next steps

Draft AUSA note to NRDC attorney

Dear Stephanie:

On behalf of EPA, I write to respond to NRDC's email proposal of September 19, 2017 regarding EPA's request for NRDC to narrow the scope of its FOIA Request No. 1. We very much appreciate your efforts to narrow and clarify the scope of that request.

The agency is willing to undertake the following steps with regards to Request No. 1:

(1) EPA will undertake a search of Dr. Nancy Beck's calendar entries

and “communications” (as defined in paragraph (2) of your e-mail below) for responsive documents relating to the following rulemakings:

* Procedures for Chemical Risk Evaluation Under the Amended Toxic Substances Control Act (EPA-HQ-OPPT-2016-0654)

* Development of the Scope of Asbestos Risk Evaluation under Amended TSCA

* Methylene Chloride and N-Methylpyrrolidone (NMP) Rulemaking under TSCA Section 6(a) (EPA-HQ-OPPT-2016-0231)

(2) Dr. Beck will be the sole custodian whose records will be searched. The agency believes that a search of her records will yield all communications sent by or to her relating to the above-referenced rulemakings. We do not believe it is reasonable to expand the search to everyone within EPA who may have mentioned Dr. Beck with respect to the above-referenced rulemakings, but did not include her as a recipient of that communication.

(3) EPA will not agree to “make a tailored initial search that will inform the parameters of subsequent searches if they prove necessary.” FOIA requires an “adequate search,” which is one “reasonably calculated to discover the requested documents” and which need not be “a perfect or ideal one.” Kuzma v. United States Department of Justice, 692 Fed. Appx. 30, 32-33 (2d Cir. May 31, 2017). The agency will undertake a good-faith search or searches of the documents requested and will be prepared to defend the reasonableness of its searches on summary judgment, should NRDC seek to challenge them. Moreover, EPA will provide “an explanation of the search [it] conducts to [respond to NRDC’s FOIA]” on summary judgment.

(4) NRDC’s attached Excel spreadsheet lists 39 separate FOIA requests submitted by third parties that it contends are “related” to its request. EPA is not obligated to, nor is willing to “provide any documents produced in response to any related requests to the extent that such documents are responsive to NRDC’s request and have not already been provided to NRDC.” If EPA has released any records responsive to those other requests, NRDC, like any member of the public, can access those records by searching FOIAonline, available at https://foiaonline.regulations.gov/foia/action/pub lic/home <https://foiaonline.regulations.gov/foia/action/pu blic/home> .

(5) At this point in time, EPA cannot agree to “identify and produce” the records sought by October 19, 2017. Subject to your agreement to the parameters outlined in (1) – (2) above, EPA will endeavor to provide NRDC with an estimated timeframe for processing of Request

No. 1 within [7 days?].

(6) EPA is not obligated to, and will not agree to produce a Vaughn index at the same time all non-exempt portions of the documents responsive to narrowed Request No. 1 are released to NRDC. If the agency deems any records to be exempt in full or in part, EPA will comply with FOIA's mandate that "[t]he amount of information deleted, and the exemption under which the deletion is made, shall be indicated on the released portion of the record" at the time of production. 5 U.S.C. 552(b). To the extent NRDC seeks to challenge any of EPA's withholdings after all non-exempt portions of responsive records have been released, EPA will submit a Vaughn filing together with any summary judgment motion to uphold the exemptions claimed.

EPA is prepared to estimate the timeframe for responding to Request No. 1, as modified by the parameters set forth in (1)-(2), as soon as NRDC has confirmed its acceptance. To avoid further delay in these proceedings and in the interest of getting NRDC the records it seeks sooner than later, we would appreciate a response to our response as soon as reasonably possible. I'm available to discuss at your convenience, if needed.

We wanted to have an opportunity to walk through the presentations for the APCRA meeting in Helsinki prior to sending to EChA for their October 5th deadline. I tried to fit the schedule of as many of you as possible. We will not do a full dry run, but plan to walk to through the presentations to see if there are any questions or feedback. Please try to send your slides prior to the 4th for us to review before discussing.

Feel free to add any members of your team to this invitation.

For RTP and Region 1 – I'm happy to add a VTC connection if that works best.

Danny – I've added you as optional, but please feel free to join us and share your slides if you'd like any feedback.

Thanks!

Time 12:00 PM – 1:00 PM
Subject IO Halloween Lunch and Costume Contest
Location DCRoomEast3371C/DC-EPA-EAST-OCSPP-IO-OPMO
Show Time As Tentative

Bring a dish or treat to share, your own drink, and please come in costume!

There will be prizes awarded in the following categories:

1) Scariest costume

2) Most creative costume

3) Goofiest costume

4) Costume best suited to the individual wearing it

Winners will be selected by vote of the attendees in the room at 12:30 pm.

Since this was my nutty idea, at this point I'm organizing this little event myself – but I would truly welcome help!

I could use Halloween décor, donated inexpensive prizes for the contest, and volunteers to help set up, decorate, and clean up the lunch.

Email me if you would like to help!

Thanks!

Janet

Hi Jennifer,

It was a bit heinous, but all in all worth it. Was your trip back more uneventful? I hope so.

Assuming I don't have jury duty, the 26th or 27th will work well. I'm cc'ing Venus who can assist with scheduling. Do you think we need 30 minutes or more to start?

Nancy

Subject: Re: Requesting meeting with EPA Team Regarding Black Fly Registration

Hi Ryan and Aaron,

I understand you have been an incredible help to our constituent (Sterling International) as they deal with concerns over their competitor's (Black Fly) compliance with EPA's chemical registration process. Thank you so much!

Despite your help, we just heard EPA will no longer require Black Fly to register their products and comply with the same standards. As you may recall, our constituent's company, Sterling, paid over $2 million complying with these standards. And to make matters worse, after they registered their formula Black Fly was able to copy it.

The Congresswoman's goal is fairness. She has been working on this issue for nearly a decade, dealing with much pushback and delay during the former administration. We appreciate your attention to this matter and would like the chance to learn more about why Black Fly and Sterling International seem to be treated differently.

Could we set up a meeting with the Congresswoman and the following:

* Representative from EPA biopesticides office

* Representative from EPA enforcement and compliance office

* EPA General Counsel

* An EPA political appointee

Is there someone on your team who can help us set this up? We'd like to get something on the books as soon as possible.

Thank you very much,

Ian

Ian Field

Chief of Staff

Congresswoman Cathy McMorris Rodgers (WA-5)

Subject: Follow-up from call

Hey Sven,

Just to follow up on your call today... Because of the holiday, I still haven't had a chance to visit with my boss about the phone call early last week, but I just wanted to run by you all what I've got to make sure my brain and notes didn't leave anything out:

EPA response thus far:

* Worker Protection Standard & Certification of Pesticide Applicators Rules

o Will begin a rule making process, beginning with an Advanced Notice of Proposed Rule Making, to solicit comments and feedback on three aspects of the rule, including; minimum age; designated representative; and application exclusion zones.

o Will not delay the entire WPS during this process, but may delay the three targeted areas depending on how they proceed.

o Certification of Pesticide Applicators Rule continues to be delayed.

* Unclear how that will be addressed.

* Chlorpyrifos objection

o EPA plans to investigate chlorpyrifos in depth and is concerned that responding to the objections (which could take as much as 2 months) would impact that work.

o EPA will not prioritize response to the objections.

Good morning,

We'd like to schedule a briefing on the IRIS template protocol and walk you through the role of this document in the context of the IRIS Handbook and the IRIS Assessment Plans (see image below). We will try to share the template protocol document before the briefing, but given Thanksgiving holiday it may be at the briefing. In either case, we will give you a chance to electronically review and provide feedback. The document is ~60 pages, including front matter and appendices.

Subject NEW CHEMICALS PUBLIC MEETING
Location Ronald Reagan Building - HORIZON Ballroom

Show Time As Busy

EPA is holding two meetings in December to discuss ongoing implementation activities under the Frank R. Lautenberg Chemical Safety Act, which amended Toxic Substances Control Act (TSCA). This follows up on Administrator Scott Pruitt's pledge for greater transparency and continued stakeholder engagement as the Agency implements provisions of the amended TSCA.

December 6, 2017 Public Meeting on New Chemicals: The first meeting is to update and engage with the public on the Agency's progress in implementing changes to the New Chemicals Review Program as a result of the 2016 amendments to TSCA, including discussion of EPA's New Chemicals Decision-Making Framework. EPA will describe its review process for new chemicals under the amended statute, and interested parties will have the opportunity to provide input on their experiences with the New Chemicals Review Program since the statute was amended and to ask questions. In addition, EPA will accept questions from the public in advance of the meeting, and will respond to these questions at the meeting as time allows. To register to attend, submit questions, and learn more: https://www.epa.gov/assessing-and-managing-chemicals-under-tsca/meetings-and-webinars-amended-toxic-substances-control <http://links.govdelivery.com:80/track?type=click&enid=ZWFzPTEmbXNpZD0mYXVpZD0mbWFpbGluZ2lkPTIwMTcxMTAzLjgwMzc3MzcxJm1lc3NhZ2VpZD1NREItUFJELUJVTC0yMDE3MTEwMy44MDM3NzM3MSZkYXRhYmFzZWlkPTEwMDEmc2VyaWFsPTE3MTQ0OTg5JmVtYWlsaWQ9Y2xhcmsuc2hhcm9uQGVwYS5nb3YmdXNlcmlkPWNsYXJrLnNoYXJvbkBlcGEuZ292JnRhcmdldGlkPSZmbD0mbXZpZD0mZXh0cmE9JiYm&&&100&&&https://www.epa.gov/assessing-and-managing-chemicals-under-tsca/meetings-and-webinars-amended-toxic-substances-control> .

The meeting will be held December 6, 2017, 9:00 a.m. to 5:00 p.m. at the Ronald Reagan Building and International Trade Center, Horizon Ballroom, 1300 Pennsylvania Avenue, N.W., Washington, DC 20004.

December 11 Public Meeting on Approaches for Identifying Potential Candidates for Prioritization for Risk Evaluation: The second meeting will focus on possible approaches for identifying potential candidate chemicals for EPA's prioritization process under TSCA. As amended, TSCA required that EPA establish processes for prioritizing and evaluating risks from existing chemicals. EPA will describe and take comment on a number of possible approaches that could guide the Agency in the identification of potential candidate chemicals for prioritization. In addition, EPA will accept questions from the public in advance of the meeting, and will respond to these questions at the meeting as time allows. Subject HBCD POPs Non-Party Certification Request
Location 3156 EPA East
Show Time As Tentative

All,

Per Charlotte's request, this is a check in regarding the newest non-Party certification request under the Stockholm Convention and to consider whether there are any relevant linkages to, or information from, our ongoing domestic HBCD discussion to take into account. I have included the operative part of the POPs Convention text below, as well as the listing text for HBCD in Annex A of the Convention, and will bring the company-specific information to the meeting. In this particular case, China would be the exporting Party and the United States is the State not Party to this Convention.

POPs Convention, Article 3

2. Each Party shall take measures to ensure:

(a) …

(b) That a chemical listed in Annex A for which any production or use

specific exemption is in effect ... is exported only:

(i) For the purpose of environmentally sound disposal as set forth in paragraph 1 (d) of Article 6;

(ii) To a Party which is permitted to use that chemical under Annex A or Annex B; or

(iii) To a State not Party to this Convention which has provided an annual certification to the exporting Party. Such certification shall specify the intended use of the chemical and include a statement that, with respect to that chemical, the importing State is committed to:

a. Protect human health and the environment by taking the necessary measures to minimize or prevent releases;

b. Comply with the provisions of paragraph 1 of Article 6; and

c. Comply, where appropriate, with the provisions of paragraph 2 of Part II of Annex B.

Annex A Entry for HBCD (May, 2013)

The Conference of the Parties,

Decides to amend part I of Annex A to the Stockholm Convention on Persistent Organic Pollutants to list therein hexabromocyclododecane, with specific exemptions for production as allowed for the parties listed in the Register of Specific Exemptions and for use in expanded polystyrene and extruded polystyrene in buildings by inserting the following row:

Hexabromocyclododecane

Production

As allowed for the parties listed in the Register in accordance with the provisions of Part VII of this Annex

Use

Expanded polystyrene and extruded polystyrene in buildings in

accordance with the provisions of Part VII of this Annex

Further decides to insert a new part VII in Annex A as follows:

Each Party that has registered for the exemption pursuant to Article 4 for the production and use of hexabromocyclododecane for expanded polystyrene and extruded polystyrene in buildings shall take necessary measures to ensure that expanded polystyrene and extruded polystyrene containing hexabromocyclododecane can be easily identified by labelling or other means throughout its life cycle.

Subject PRE-PRIORIZATION PUBLIC MEETING w/Agenda
Location RRB- HORIZON ROOM
Show Time As Busy

EPA is holding two meetings in December to discuss ongoing implementation activities under the Frank R. Lautenberg Chemical Safety Act, which amended Toxic Substances Control Act (TSCA). This follows up on Administrator Scott Pruitt's pledge for greater transparency and continued stakeholder engagement as the Agency implements provisions of the amended TSCA.

December 6, 2017 Public Meeting on New Chemicals: The first meeting is to update and engage with the public on the Agency's progress in implementing changes to the New Chemicals Review Program as a result of the 2016 amendments to TSCA, including discussion of EPA's New Chemicals Decision-Making Framework. EPA will describe its review process for new chemicals under the amended statute, and interested parties will have the opportunity to provide input on their experiences with the New Chemicals Review Program since the statute was amended and to ask questions. In addition, EPA will accept questions from the public in advance of the meeting, and will respond to these questions at the meeting as time allows. To register to attend, submit questions, and learn more: https://www.epa.gov/assessing-and-managing-chemicals-under-tsca/meetings-and-webinars-amended-toxic-substances-control <http://links.govdelivery.com:80/track?type=click&enid=ZWFzPTEmbXNpZD0mYXVpZD0mbWFpbGluZ2lkPTIwMTcxMTAzLjgwMzc3MzcxJm1lc3NhZ2VpZD1NREItUFJELUJVTC0yMDE3MTEwMy44MDM3NzM3MSZkYXRhYmFzZWlkPTEwMDEmc2VyaWFsPTE3MTQ0OTg5JmVtYWlsaWQ9Y2xhcmsuc2hhcm9uQGVwYS5nb3YmdXNlcmlkPWNsYXJrLnNoYXJvbkBlcGEuZ292JnRhcmdldGlkPSZmbD0mbXZpZD0mZXh0cmE9JiYm&&&100&&&https://www.epa.gov/assessing-and-managing-chemicals-under-tsca/meetings-and-webinars-amended-toxic-substances-control> .

The meeting will be held December 6, 2017, 9:00 a.m. to 5:00 p.m. at the Ronald Reagan Building and International Trade Center, Horizon Ballroom, 1300 Pennsylvania Avenue, N.W., Washington, DC 20004.

December 11 Public Meeting on Approaches for Identifying Potential Candidates for Prioritization for Risk Evaluation: The second meeting will focus on possible approaches for identifying potential candidate chemicals for EPA's prioritization process under TSCA. As amended, TSCA required that EPA establish processes for prioritizing and evaluating risks from existing chemicals. EPA will describe and take comment on a number of possible approaches that could guide the Agency in the identification of potential candidate chemicals for prioritization. In addition, EPA will accept questions from the public in advance of the meeting, and will respond to these questions at the meeting as time allows. PFAS Coordinating Committee Members,

Due to the recent request by Mike Flynn to recommend near-term actions by January 19th, we would like the Coordinating Committee members (or your designated representative) to join a call to discuss next steps. Please review the attached meeting agenda and draft Action Agenda.

The emailed request from Mike Flynn is as follows:

"Taking action to address the growing concerns with PFAS chemicals in the environment is fundamental to our commitment to protect public health and support communities. Therefore, I am requesting that by January 19, the PFAS committee recommend near-term actions that EPA can take to define the scope and extent of PFAS in the environment, better understand the potential health effects and exposure to these chemicals, and identify tools that state and local governments can use to assess and address PFAS in their communities. The committee should ensure that recommended actions reflect the most recent and best available science and any information data gaps. In addition, communication and coordination with the states, partners and the American public will be essential as we work together to address PFAS in our country."

Also, please access this link to the press release <https://www.epa.gov/newsreleases/epa-launches-cross-agency-effort-address-pfas> posted on 12/5.

Thanks,

Tom & Peter

Congratulations to us all. We are on the schedule for Tuesday afternoon, 12/12, from 1:30-3pm.

Just as a reminder:. The final order of presentations is open – it will be ten minutes each except for Terry who is our MC. Should leave 40 min for discussion. Again, the focus should be on the optimal principles and how best to achieve them rather than a critique of specific legislation. Our abstract is below

Recent activities by both Congress and by EPA Administrator Pruitt provide an opportunity to evaluate approaches for organizing risk-related scientific advisory processes for regulatory agencies. The EPA Science Advisory Board Reform Act has been passed by the US House of Representatives and is awaiting action in the US Senate, which may or may or may not be forthcoming. These have generated media interest and controversy and some have characterized these actions as unnecessarily politicizing science and decreasing the likelihood of the involvement of knowledgeable academic scientists in EPA review processes. Others have pointed out that there is a need to broaden scientific representation in diverse fields, and to improve procedures for balancing perspectives and perceived biases on EPA scientific advisory panels. The Roundtable participants will be asked to focus on the underlying principles that should guide the science advisory processes for the optimal provision of scientific advice on risk-related

issues to a regulatory agency.

Hope you are all having a good summer

Bernie

Happy Holidays!! It is time to mark your calendars at 2:00 PM Wednesday the 13th for the OCSPP-IO Holiday Party.

We hope you will extend this invitation to your friends and colleagues outside of the IO and OCSPP. We work with people all year and this is an our opportunity to meet with them without an agenda and show our appreciation!

To keep it simple this will be a Pot-Luck party! We are asking everyone to bring their favorite dish (or two) to share with our colleagues and guests. I'll post a sign-up sheet with food categories outside of 3119H (Oscar's Office). We will also request an alcohol warrant from facilities so you can bring your favorite beverages. (We hope you do!)

The party will be in East 3371C with spillover into 3371 A and B.

We are looking for volunteers to assist with decorations and to organize a White Elephant/Yankee swap gift exchange. Please contact Steve Vineski.

Thanks and we look forward to partying with you the 13th!

Show Time As Busy

We are working on a story that looks at a number of former industry lobbyists, consultants and advocates working inside the federal government on portfolios that overlapped with their previous jobs and client lists. We are set to provide the context that these folks bring subject-matter expertise and that Democratic administrations also recruited appointees from environmental advocacy groups and think tanks who were equally invested in matters of policy.

The story is likely to include passing references to a few EPA employees (Susan Bodine, Erik Baptist) and a section on Nancy Beck. I very much want to ensure we are being fair in all three cases, and I'd be grateful for any comments and context you can offer. Of course, if Ms. Bodine, Ms. Beck and/or Mr. Baptist would be available for interviews, that would be most welcomed.

Potential topics:

- Nancy Beck was installed as the deputy assistant administrator of the EPA's chemical safety office, despite having previously lobbied against stringent requirements on behalf of the American Chemistry Council.

- She took her post April 30

- There's a contention she has "made things easier for industry," largely predicated on the final TSCA framework rule for risk evaluation rolled out in June and the agency decision to narrow the conditions of use.

- That dovetailed with the issues of the American Chemistry Council, which filed public comments in March, while Beck was still at the ACC, seeking a narrower range of conditions of use.

- Beck has permission to tackle chemical safety issues and even interact with former colleagues as an "administratively determined" employee exempt from the Trump ethics pledge.

- Beck has freedom to participate in matters that involve the ACC, including rulemaking, as long as she steers clear of specific matters involving the group, per the June 9 recusal statement she sent to Wendy Cleland-Hamnett.

Subject Strategic Measures Review Meetings
Location EPA East, Room 3130; (b) (6) [redacted]
Show Time As Tentative

These meetings will be our business review meetings to monitor our measures and bowling charts throughout the year. Per Henry Darwin's direction, "as a reminder, the business review meeting is a monthly opportunity to evaluate your office's performance against its Breakthrough Measures from the strategic plan, Operational and Sustainment measures from the mission-measure workshops, and the Agency-Wide and Regional Office measures still under development. All of these measures will be tracked through the use of your office's bowling chart and will provide us with a comprehensive view of your office's performance while allowing us to take action to solve small problems before they become large problems (tracked using the countermeasure report). Video recorded training and slides on the business review process are available at the EPA Lean Management System (ELMS) Intranet site <http://intranet.epa.gov/lean/lms/resources.html> ."

Please review the items below for details on follow-up actions. We are extending the due date for updates on case studies to December 8th, which will still allow time to compile all updates and share with the group for review prior to our next teleconference.

Subject: APCRA Follow-up and Action Items

Dear all,

Thank you all for a very productive meeting in Helsinki. Our discussions ranged from building bridges between case studies, increasing acceptance of the use of NAMs by risk assessors and

managers, and use of NAMs for exposure analysis. Presentations included updates on specific case studies, with discussion of how these will move forward. We are working to compile and share notes from the workshop, but in the meantime we wanted to send out some follow-up action items that came out of our discussions.

1. Teleconferences: We will continue to hold teleconferences every 6-8 weeks to discuss progress on case studies and other action items, and build toward strengthening collaborations on current and future case studies. Please confirm that we have the correct members from your organization on our email contact list.
2. Case study leads: Please share updates for your case study by November 27th. Send updates to Maureen Gwinn (gwinn.maureen@epa.gov <mailto:gwinn.maureen@epa.gov>) for compilation.
3. Need for Communication strategy: Tina Bahadori will lead a workgroup on discussions of what is needed for a communication strategy to increase acceptance for the use of NAMs in risk assessment and regulation. Workgroup members currently include Tina, Mike Rasenberg, Rusty Thomas and Maureen Gwinn. Update to be given at next teleconference, likely sometime in January. Separate invitation will follow within the next week or so.

Slides and other workshop materials are being updated and maintained at https://drive.google.com/drive/folders/0B76wuzJAdK5aTWRTVUNOOElET00. Please do not share materials outside of your organization without permission. We will share notes on key points from the workshop in the near future.

Thank you everyone for your continued activities in support of this work, and one last thank you to Bob Kavlock for bringing this group together.

On the heals of our very successful Regional Administrator Forum, it occurred to me that the new group of Assistant Administrators have not gotten to meet our Regional Administrators. There has been great interest in getting this esteemed group of colleagues together, and there is no time like the present!

I am happy to invite you to a private dinner including the nine (9) Regional Administrators, the Assistant Administrators from Air, Water, OGC, OECA and their plus one invite (DAA or counsel at their discretion). Additionally, Nancy Beck will represent OCSPP, Richard Yamada will represent ORD and Kell Kelly will represent OLEM along

with several other select senior staff.

The dinner will be held on Monday, January 29 at 7:30p, at Robert's Restaurant that is located within the Omni Hotel where the SES Meeting is being held.

This will be a great opportunity to get to know your colleagues and build relationships in an informal setting. We held a similar RA dinner in Dallas and it has proven invaluable for creating a strong working team to accomplish the Administrator's priorities.

Subject OECA AA Ceremonial Swearing-in
Location U.S. EPA Rachel Carson Green Room (1200 Pennslyvania Avenue NW)
Show Time As Busy

Directions for Guests: EPA's address is 1200 Pennsylvania Avenue, NW. Please enter through the William Jefferson Clinton South building. If you are coming by taxi/vehicle, you want to be dropped off on 12th Street NW, between Pennsylvania and Constitution Avenue. The entrance is almost exactly halfway between the two avenues next to the Federal Triangle Metro sign and with the Trump Hotel across

the street. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your right. This is the South Lobby entrance to the William Jefferson Clinton building. If you are coming by Metro, exit at the Federal Triangle Metro station, go up the escalators and the South Lobby entrance will be on your left as you exit at the top of the escalators.

Once inside the building, security will prompt you to scan all items such as bags, coats etc.. Please let the guards know that you were instructed to call Shanita Loving at 564-4728 or Ethel Bailey 564-5149 to escort you to Susan Bodine swearing in ceremony. Security will have the visitors passes for everyone.

Allow for 10-15 minutes to get through the process.

EPA Employees: Please bring your ID to show to security at the entrance to the Green Room.

Subject OCSPP Spring 2018 Regulatory Agenda Update

Location DCRoomEast3371C/DC-EPA-EAST-OCSPP-IO-OPMO (b) (6) [redacted]

Show Time As Busy

Purpose

This is an update for the DAAs on OCSPP's Spring 2018 Regulatory Agenda. Per OP, all of our updates must be reviewed and approved through the AA-level by COB on February 13th. Program Office staff have been asked to complete their updates and distribute to the lead OP and OGC reviewers in advance of this meeting (by February 6th). Office Directors are expected to discuss regulatory priorities for the remainder of FY2018, anticipated priorities for FY2019, and Executive Order 13771 implementation activities. Following the discussion, the OCSPP Regulatory Coordination Staff will ensure any new decisions for actions to be included in the Spring 2018 Regulatory Agenda are properly reflected in OCSPP's submission to the Office of Policy.

Points of Contact for Meeting Materials

RCS will produce and distribute materials for this meeting after February 6th

Subject Rice 101 Presentation
Location PYS-4370/80
Show Time As Tentative

Members USA Rice will give OPP a “Rice 101” presentation on Tuesday, February 13, 1-2:30pm in Room 4370/80. They will discuss rice growing practices in general, as well as rice herbicide and insecticide needs, and the importance of the products currently registered for rice. They plan to cover as much as possible in 90 minutes (without going into specific chemicals), so will cover each of the pesticide categories in the list attached, with a focus on why they need that class of pesticides.

Their target audience is program-level staff who are doing analyses and would benefit from better understanding some of the complexities of growing rice. That said, we would like to have a large turnout and everyone is invited.

Please contact Shannon Jewell with any questions, at

jewell.shannon@epa.gov <mailto:jewell.shannon@epa.gov> or (703) 347-0109.

Location DCRoomEast3371C/DC-EPA-EAST-OCSPP-IO-OPMO (b) (6) [redacted]
Show Time As Busy

Purpose:
Bill To understand what was gleamed from the supporting studies to the RRP rule to see if there was anything that may inform how much more work/effort/cost would be needed to get to a lower dust standard (eg an extra wipe, starting over completely etc). In doing the

economic analysis for this rule, we need to look at impacts on other rules—this includes what it would mean for RRP practices and costs if that rule were to then change to correspond to changes in the dust lead level.
