Hi Brian, would you be available to participate by phone for about an hour some time the week of Aug 22nd?

This would be where I would have a facilitated DQO process with EPA OEA staff for Risk Assessment, Air Monitoring, Groundwater, myself and RCRA team staff, my contractor David Weeks, and you I hope. We could try and set up what we think our expectations will be for monitoring.

I would plan to repeat the DQO process with FMC, SBT, you, David, and myself. We can see how far off we are from the goals we established with our internal process, what areas we may have to elevate to get to a bottom line, and where we have more work to make any needed justification.
