[1] Applies to those segments upstream of Offutt Lake (extraordinary primary contact recreation)

[2] Applies only to those segments downstream of Offutt Lake (designated for primary contact recreation)

[3] Estimated based on unit area flow from USGS Gage 12080010 Deshutes River at E Street Bridge at Tumwater, WA for water years 1991-2016.

[4] For rollback determination, data for all sites and dates aggregregated by waterbody (stormwater data exempted from analysis per Ecology recor

[5] To replace geometric mean WLA implementation targets in Appendix C of TMDL Document

[6] Load capacities and reductions reported in TMDL for each monitoring station remain effective for implementation purposes

[7] Based on best professional judgement by Ecology
