Washington, D.C. 20510

Dear Chairmen Calvert and Murkowski and Ranking Members McCollum and Udall:

Enclosed is the U.S. Environmental Protection Agency's Status of Balances of Appropriations Report, as directed in the agency's FY 2016 Appropriations Act (Public Law 114-113) and reaffirmed in the agency's Further Continuing and Security Assistance Appropriations Act, 2017 (Public Law 114-254). The report covers the second quarter of FY 2017 and contains information on FY 2016 and prior appropriations balances, including all uncommitted, committed, and unobligated funds for each program and project.

Please note that funding balances are influenced by the time needed for project planning as well as completion, which can vary depending on the type of work involved. For example, long project periods will typically be required for grants involving construction or infrastructure work. Both the EPA and the states are committed to improving the timely obligation, award and expenditure of grant funds and have implemented a policy that facilitates timely obligation/award of grant funds, addresses the accumulation of unexpended appropriations in awarded grants, and helps accelerate grant outlays.

If you have further questions or would like to schedule a meeting to discuss the report, please contact Ed Walsh at (202) 564-4594.

Sincerely,

David A. Bloom
Acting Chief Financial Officer
