Jim,

We would certainly welcome a side bar discussion. Unfortunately, I can not do anytime after 1:00 pm tomorrow afternoon. I could do tomorrow morning or first thing Friday morning before the group call. As you know, the proposal has not yet been shared with the larger group.

Frank

> Frank, thank you for the counter proposal. We have some concerns with the substance of your client's proposal, and yet, per your message, I was wondering whether you and/or representatives from the Town would like to have a side-bar discussion regarding the substance of your proposal or just speak with the entire group on Friday. If you prefer the former, Pam and I could speak tomorrow at 4PM in advance of Friday's 11AM call. Please advise.

Jim and Pam,

Attached please find a copy of the Town of Salina's latest proposal regarding the disposal of Lower Ley Creek dredged sediments at the former Town of Salina landfill site. Although we know that Lauren is on maternity leave, we nevertheless addressed the letter to her attention based on her previous involvement with the landfill and the Town of Salina.

At this point we are forwarding this correspondence to EPA's attention. However, we fully understand that this proposal will be shared with the larger PRP group. Therefore, upon your review, please feel free to forward the correspondence on to the various parties that have been participating our regular conference calls.

If you have any questions, please feel free to contact me.
