Subject: Scoping meeting for Lane Plating

So we have our budget for 2019 and I need to allocate the money. I would prefer to wait till we get the results from phase one sampling, but we need to plan for additional sampling now. I would like to have a scoping meeting to work on this. TCEQ is only available on April 15-17. Are you available on these days? Please let me know, and please start thinking about your priorities for additional sampling at Lane Plating. Thanks.
