Subject: HYSPLIT plume forecast 200 PM 12/01/19

Here is the link to the latest HYSPLIT plume forecast, issued at 200 PM Sunday 12/01/2019.

http://www.hysplit-pub.noaa.gov/hysplitpublic-bin/hyresults.pl?jobidno=23119

Moderate northwesterly winds will continue through the evening becoming somewhat weaker overnight. The plume will remain largely confined to an area between Hwy 69 and FM 366 (and points south southeast of these roadways) through the evening and overnight.
