Initial evac was 0.5 miles.
At about 2:30 Wednesday, it was extended to 4 miles.
Then lifted at 10 am on Friday

No other suggestions.
Thanks Ahmed. Please finalize.

Hi everyone,

Please find attached the ASPECT draft report for the Nov 30th afternoon flight (#7). There were no chemical detections and no sheen seen in the Neches River. Please review and comment. I'll make final once I hear back.

The data has been uploaded to the ftp site.

Let me know if you have any questions.

Hi everyone,

Please find attached the ASPECT draft report for this morning's flight. Please review and comment. We'll make final when we hear from you.

ASPECT flew one more mission this afternoon. No detections were made. I'll let you know once the data is uploaded. A draft report will follow.

Let me know if you have any questions.

Regards,

Ahmed

Hi everyone,

We were able to get a flight in this morning over the site and near the perimeter as well. The data has been uploaded to the ftp site. Our report is being drafted and we'll pass it along once complete.

The afternoon weather conditions don't look as good, but there may be an opportunity to collect more data. I'll keep you posted if we make it up.

Let me know if you have any questions.

Regards,
Ahmed

Subject: No ASPECT flights or data for Friday Nov 29

Hi everyone,

The ceiling was too low to get any data collection in today. There were no ASPECT flights over the site.

I'll keep you posted if we collect any data tomorrow.
