Subject: HYSPLIT smoke plume forecast TPC Fire 10 PM Tuesday 12.03.19

Here is the link to the latest HYSPLIT plume forecast, issued at 10 PM Tuesday 12.03.19

https://www.hysplit-pub.noaa.gov/hysplitpublic-bin/hyresults.pl?jobidno=23151

Winds near the surface are light southerly to calm. Expect a weak surface trough to push into the area after midnight with winds shifting to the west and northwest but continued light. Patchy fog lowering visibility to 2 miles at times will also be possible after midnight.
