Subject: HYSPLIT plume forecast 830 AM 12/01/19

Here is the link to the latest HYSPLIT plume forecast, issued at 830 AM Sunday 12/01/2019.

http://www.hysplit-pub.noaa.gov/hysplitpublic-bin/hyresults.pl?jobidno=23117

North to northwest winds will result in the plume heading south to south-southeast into early evening. The plume will remain largely confined to an area between Hwy 69 and FM 366 (and points south southeast of these roadways) through the day.
