Jon,
Can you take a look at this data quickly?
I'll forward the photo email separately.

This data is associated to a situation yesterday that came up.

Sheen was observed by TCEQ conducting air monitoring in a raw water intake canal for City of Port Neches. UC was notified, and TPC responded. The city public works manager contacted me and indicated this was not product, but more of a soot. TPC contractor, CTEH, collected a water sample and these are the results.

VR,
Adam

Hi Hope,

Per our discussion, the results for X007, near the ballpark to the Northwest of the TPC Group site, are attached.

Thank you,
