I told Adam and Anish depending on any issues tomorrow, we would state in the Friday update, the next would be Monday. And then Friday.

Craig, looks like we are good with the twice weekly plan after today. I'll be on standby to issue a final HQ Spot Report based on R6's report today.

I'm the WO until Friday morning, so reach out if you need. Thanks much.

Subject: TPC Reporting Rhythm from R6

Reggie,
After discussing with Craig Carroll, he is good with throttling back from daily management reports and going to a twice a week schedule (actual days TBD). He proposes that the Region can issue a management report this afternoon and then go to the twice weekly schedule thereafter. The HQ EOC would also issue a final Spot Report this evening and then proceed to forward the Region 6 management reports to the distribution list that we have been using with no accompanying Spot Reporting from the HQ EOC (unless events on the ground changes significantly).

Please let me know if you have any concerns with this approach. Thank you.
