Subject: RE: Bass River, Beverly dredging project

Sorry for the typo, yes Phil reported 2 dredges moored outside of the harbor near bass river.

In a quick google, I found this project was awarded at state grant http://www.beverlyma.gov/beverly-awarded-1400000-grant-to-dredge-the-bass-river/

Olga also had this attached document related to the remediation of the Beverly former manufactured gas plant which is associated with the project
