The Honorable Ben Shelly
President of the Navajo Nation
P. O. Box 7440
Window Rock, Arizona 86515

Dear President Shelly:

Thank you for engaging in government-to-government consultation to discuss potential impacts to the Navajo Nation from the U.S. Environmental Protection Agency's rulemaking on the Navajo Generating Station. During our meetings and in your comment letter to EPA, the Nation shared perspectives on the Federal trust responsibility and raised many important issues and concerns.

On July 28, 2014, EPA Administrator Gina McCarthy signed the final rulemaking for the Navajo Generating Station. All comments and EPA's responses are included in the docket for this final rulemaking. The enclosure to this letter includes responses to written comments we received from the Nation by letter dated January 6, 2014.

Our final rulemaking to promulgate regulatory requirements consistent with the Agreement developed by the Technical Work Group on NGS provides NGS with a flexible timeline for achieving emission reductions required under the Clean Air Act in a manner that recognizes the importance of NGS to the Navajo Nation and many other Tribes located in Arizona.

Thank you for your active participation in the rulemaking process. If you have additional concerns, please contact me at (415) 947-8702 or have your staff contact Deborah Jordan, Director of the Air Division at (415) 947-8715 or Colleen McKaughan, Associate Director of the Air Division, at (520) 498-0118.

Sincerely,

Jared Blumenfeld

Enclosure

cc: Stephen B. Etsitty, Executive Director, Navajo Nation Environmental Protection Agency
Michele Morris, Director of Policy and Management, Navajo Nation Office of the President and Vice President
