Tip or Complaint: I have a 2015 RAM EcoDiesel truck that has a continuous engine code and it relates to the Diesel Particulate Filter. Rice Chrysler refuses to cover it as they say it is a normal maintenance item. How am I supposed to do maintenance on a DPF unit that is sealed? I have asked them to fix it and they say it is my responsibility to pay for it. the Truck is still under the extended warranty. It runs rich and smells like raw diesel or Kerosene all the time. What EPA law would cover this issue/service problem?
