Subject: Chief Joseph Dam visit next Tuesday

Dan –
Fyi. Next Tuesday, Jenny Wu, Martin Merz and I will meet with staff at the USACE Chief Joseph Dam and tour the facility. Martin entered it in hot topics last week.

This is NOT one of our existing pending permits. They are working on their application. Currently they don't have a defined date for the application submittal. Martin Merz will be the permit writer.

The meeting will focus on application requirements. They face similar challenges as the other Corp dams – such as difficulties in accessing monitoring locations.

Our POC is Marshall Grip with USACE.

Susan Poulsom
