Subject: 44 RNO, 45RNO-16-R9 R9 Draft Framework and Draft Resolution Agreement

Per our discussion this morning, attached is the revised Region 9 framework for future discussion with the recipient and a copy of the draft resolution agreement for your review in preparation of our March 27, 2018 meeting.

Following out discussion with the Region on March 1, 2018, we requested that they provided specifics that could be added to the draft resolution (re: we suggested that they identify appropriate training for awareness and compliance options, verification of program implementation by the recipient options, and any potential for coordination with DOH since they had a better understanding of the roles of DOH versus HDOA).

As a follow-up, in the framework, the Region has suggested the integration of elements from the Good Neighbor Plan and information from CA DPR. Subsequently, I have added comments highlighting the elements from both of these resources that were incorporated into the original draft resolution that was submitted to the Region for review. They may not have recognized these elements since the draft included more meat on the bones.

The Region 9 framework can serve as a very broad overview for the discussions with the recipient. Missing, is our understanding of what is currently on-going which ECRCO normally includes in the background information of the resolution. Likewise, we have not included any (limited) information from the Region about their interactions with the recipient and DOH.

Please let me know if you have any questions about the attached.
