13) If material is packed in dry ice, you must state so in the description i.e. packed in dry ice (____ Lbs of dry ice per package.)

14) When shipping by air you also need a Restricted Article statement in quadruplicate. The shipper retains 1 copy and 3 copies go with the shipment. (Samples attached)

15) Material Safety Data Sheets are attached.

16) The Toxic Substance Act is to go into effect in November, 1977. At that time all shipments will show the product composition.

17) You as a shipper must follow all regulations pertaining to Hazardous Materials. (Code of Federal Regulations Title 49, C.A.B.82 6D Domestic Air and IATA International Air and if shipping by ocean IMCO).

18) C.A.B. 82 6D will be revised effective 6/25/77 what changes will be made, I do not know at this time, I do feel certain they will go to a red and white bordered RA form that can be used for both Domestic and International air shipments. IATA will also have some changes in their 20th edition due out in September, 1977.

We hope this information will help you. If you have any questions, feel free to call me at (301) 939 1910 X 300.

Very truly yours,
