UPDATE 1
Colleagues – as noted, this call will continue the discussion on the Regional Places of Interest (first spreadsheet below).

Here is a link to the current working draft of the PFAS Data Explorer: National PFAS Data Explorer

If you click on the "Integrated map' tab you can see a map of the PFAS places currently in our system. Click on the other tabs (drinking water, federal sites) to see certain classes of PFAS places.

What we are trying to do with this regional data call is to make sure that we include places of known EPA PFAS activity which are NOT captured on other layers.

We are starting with the list of places that regions provided for another purpose last year (spreadsheet below). asking you to add and delete from that to make the list of places you want to be sure are included. We'll do a simple demo for those who want to follow along, go to Adobe at: Ex. 6 Personal Privacy (PP)

==========

Colleagues –**This is a second instance of the call also happening on Friday December 6, 2:30-3:30 eastern time.** Feel free to join one or the other, or both…

- Regional places of interest- email from Andy Gillespie to regional PFAS coordinators on 11/27/2019
- ~~PFAS data inventory – email from Jennifer Orme Zavaleta and Vaughn Noga to RAs/AAs on 12/3/2019~~

Hopefully it won't take an hour. If you would like to email specific questions in advance, go ahead and perhaps we can be better prepared to answer.

Thanks, Andy
