Colleagues, attached are the slides I was invited to present to the regional air program managers last week, I though this would be a good set of slides to start with today.
I'll bring my laptop so if there are other thing you would like to see, hopefully I can show them.
If time permits, I can also give a very quick demo of our draft web based GIS tool, the PFAS Data Explorer – could be useful for exploring air sources or presence of PFAS.

Draft public site:

Ex. 6 Personal Privacy (PP)

Internal version (includes potential industrial sources):
