Subject: FW: PFAS Places of Interest - EPA-wide Combined List Data Model and FAQ
Attachments: PFASPlacesOfInterestDataFactSheetV1.docx; PFAS Places of Interest Data Model Version 1.xlsx

Good Afternoon Jerry,

I had mentioned the parallel data call that OECA was sending out for Places of Interest (POI) data. That data call went out today from OECA. ORD/OSIM will begin to receive POI data from across EPA and work with ERG to compile it into the master list.

Thanks,

Alex

Subject: PFAS Places of Interest - EPA-wide Combined List Data Model and FAQ

Thanks to all that provided comments on our previous versions of the PFAS Places of Interest Data Model. Alex Montilla and I have finalized the version that can be used for collection of data for the public data release. We are asking that each national data steward provide the attached FAQ and data model to their Regional data providers. The deadlines noted below are also in the FAQ. For national data stewards that will make the data requests, please build in some time when asking for the data so that you can compile it into one Excel sheet by 11/27. Please see the attachments for more details. Alex Montilla is the primary point of contact for questions. Thanks.

Mike
