Re: Bayonne Barrel & Drum Superfund Site
Newark, New Jersey
• Request for Information

Dear Mr. Cosentino:

This letter and attachment are in response to EPA's CERCLA Section 104(e) Request for Information dated September 28, 1995 on the above site.

After an exhaustive search of documents, files and accounting information Schlumberger has been unable to locate any information connecting the company to the Bayonne Barrel & Drum Site. In addition, we have contacted a number of former employees that would have knowledge of the facility's waste handling activities. None of the former employees remember Schlumberger ever having any contact or a relationship with such a site.

Therefore, in light of the results of our search, we would appreciate it if the Agency would send to my attention all the information which associates Schlumberger with the Site. After reviewing and confirming such information, Schlumberger will respond to the Agency in a manner that pledges the Company's continued cooperation in the Agency's investigation of the Site.

Finally, all future correspondence on this matter, including all general mailings to PRPs, should be directed to Rebecca Millard at EMR Photoelectric, Post Office Box 44, Princeton, New Jersey 08542-0044. If you have any questions on this letter or attachment please do not hesitate to call.

Sincerely,

R. Bruce McCann
Vice President and General Manager
Houston Product Center
