So, Central Sands will have seen the County information by next Monday. I think we should be willing to give our interpretation of it.

Please contact Juneau County directly to obtain the County sampling information. I have talked to the County representative and informed him that you may be requesting the information. He indicated that he is willing to provide it to you. His name is:

Matt Komiskey

Also, do the agencies have the results and locations of the 104 private wells reportedly tested in June by Juneau County? Is this information that can be provided prior to our meeting?
