# CHECKLIST FOR ASSESSING THE NATURE & ORIGIN OF CEAT PROJECT DOCUMENTS

## I. Indicate the following project information:

| | |
|---|---|
| Project Name: | American Chemical Service |
| Project Contact: | Steven Siegel |
| Title: | Assistant Regional Counsel |
| Telephone Number: | (312) 353-9129 |

## II. Indicate the response to the following questions and the individual (source) supplying the information (if different from above-indicated title and telephone):

1. Were the documents stored at, produced on, or seized from a hazardous waste site?

Response: No

Source: Steven Siegel - USEPA Region V

2. What types of documents are included?

Response: RCRA Manifests

Source: Steven Siegel - USEPA Region V

3. Are the project documents originals or photocopies?

Response: Photocopies

Source: Steven Siegel - USEPA Region V

RE: Transmittal of Draft Work Products for the American Chemical Services Site

Dear Mr. Siegel:

At the direction of the National Enforcement Investigations Center (NEIC), the Contract Evidence Audit Team (CEAT-TechLaw) is transmitting under custody seals the following American Chemical Services draft work products:

- One list of generators who did not receive the mailing, sorted alphabetically.
- One list of generators who did not receive the mailing, sorted by volume.

  NOTE: The list of generators who did not receive the mailing includes: generators with no addresses, no response was received from the mailing, and envelopes from the mailing were marked "Return to Sender."
- Spreadsheets and responses to volumetric challenges for the following companies:

| | |
|---|---|
| Ames Metal Products & Ames Distributing | William-Hayward Protective Coatings |
| Armour Dial | Cyprus Rod Chicago |
| Eagle Ottawa Leather | Federal Signal Corp. |
| Gilbraltar Chemical Works | KNS Companies |
| Teleflex | Tingstol Company |
| Tinker Chemical | U.S. Steel Supply |

If you have any questions regarding this work effort, please contact us at (303) 233-1248.

Sincerely,

Elaine Rippey

_____

All documents produced for external distribution must be reviewed at least once for each of the "required" criteria.

Each reviewer must place initials and date reviewed in the applicable row(s) and column(s).

Unused rows and columns should be filled in with "N/A."

*These reviews are typically performed during technical review.

* - This amount only appears for EPA information and is not included in the actual cost total. If this PRP were included in the total site settlement, this would be their share.

* ANV - These generators appear not viable and unable to participate in an American Chemical Services Site settlement. They have sent waste to the site but have not been assigned a percent ranking because their volumes are not included in the total site volume. If these parties are later found to be viable, they may request a settlement with EPA.

** BS - This party partitioned for bankruptcy and pursuant to its bankruptcy settlement with EPA it has resolved its liability at the ACS Site. The total past costs at the site have been reduced by the amount paid by this company.

* - This amount only appears for EPA information and is not included in the actual cost total. If this PRP were included in the total site settlement, this would be their share.

* ANV - These generators appear not viable and unable to participate in an American Chemical Services Site settlement. They have sent waste to the site but have not been assigned a percent ranking because their volumes are not included in the total site volume. If these parties are later found to be viable, they may request a settlement with EPA.

** BS - This party partitioned for bankruptcy and pursuant to its bankruptcy settlement with EPA it has resolved its liability at the ACS Site. The total past costs at the site have been reduced by the amount paid by this company.

Steve per your request, here is the calculation for Durabond for the timeframe 1976 - 1979 with only the 1975 A/R entry.

Durabond - from A/R trial balance 7/14/94

| | | |
|---|---|---|
| 12/31/75 | 440.00 | |
| | --- | |
| | $440.00 | total dollars A/R trial balance |
| ÷ | 0.2 | @ $.20 per gallon |
| | --- | |
| | 2200.00 | total gallons |
| x | 8 | @ 8 lbs. per gallon |
| | --- | |
| | 17600.00 | total lbs. which is |
| ÷ | 0.8 | 80% of gross |
| | --- | |
| | 22000.00 | gross lbs. |
| x | 0.04 | reduced 96% for timeframe |
| | --- | |
| | 880.00 | total reduced lbs. for 1976 - 1979 |
| | 37896048.94 | total reduced lbs. for ACS site |
| | --- | |
| | 0.000023 | Durabond portion of ACS site |
| | 0.002322 | Durabond percent ranking |
| | $142,540,673.44 | total site costs |
| | --- | |
| | $3,310.00 | Durabond final payment due |

COMMENTS:

Steve per your request, here is the calculation for Durabond for the timeframe 1976 - 1979 with only the 1975 A/R entry. The amendment 4 report doesn't list Durabond as a PRP because the Ad Hoc Committee determinded the entries were for purchases only.

Durabond - from A/R trial balance

| | | |
|---|---|---|
| 12/31/75 | 440.00 | |
| | $440.00 | total dollars A/R trial balance |
| ÷ | 0.2 | @ $.20 per gallon |
| | 2200.00 | total gallons |
| x | 8 | @ 8 lbs. per gallon |
| | 17600.00 | total lbs. which is |

COMMENTS: Lisa -

After reviewing Sundstrand's documents we agree with their claim of duplicate manifests & agree with their new volume of 4,278.80 lbs. (attached are worksheets) J.W. Mortell - the 6/4/71 transaction (disposal charge) was "industrial service" at a cost of $315.00 (copy of ledger pages attached). Based on CSI's information & calculations - all disposal charges with no volumes were calculated at 9¢ per gallon & 8 lbs per gallon. Thus - $315.00 ÷ .09 = 3,500 gallons

3,500 gallons × 8 lbs per gallon = 28,000 lbs.

Attached are all copies of worksheets & CSI's explanation. Please call if more information/explanations will help.

Elaine

From CSI's "Generation of the Database"
Page 2

## DATA NOT INCLUDED (NON-WASTE GENERATING)

At the initial conference in Griffith, George Murphy outlined a number of products and companies, each of which represented only manufacturing businesses which generated no landfilled waste. This was subsequently confirmed in a letter which was transmitted by Louis Rundio on July 9, 1986. A copy is attached. In addition, in the course of the several data review sessions, additional non-waste generating items surfaced - such as "drumming charges", "unloading charges", "equipment rental" and "handling charges". These were closely associated with manufacturing operations in the billing process, and generated no landfilled waste. All of these items were treated as "exceptions" and not included in the database.

## DATA INCLUDED AS BEING WASTE GENERATING

All volumes and weights for items with charges in the "industrial processing" or "industrial services" categories were included unless George Murphy, Jim Tarpo, or John Murphy had specifically excluded them as non-waste generating, with plausible explanation. [For example, Tarpo and the Murphys knew that some products were manufactured only and generated no waste. Further, certain solvent recovery operations were solely removal of water from an organic (such as ethylene glycol) where the separated water was sewered, and the product cut was all returned to the customer.]

Where entries showed "disposal" rather than a product name, there frequently were no weights or volumes. A calculation was made to derive pounds from the dollar charge. A value of $.09/gallon was used as an average disposal charge; and 8 pounds/gallon was as the default density.

When working with data from the "Accounts Receivable Trial Balance Ledger", in which there were neither material descriptions nor values, it was necessary to work backwards: i.e., to utilize dollar amounts and to calculate volumes based on an average charge per gallon for the types of services that customers utilized. These services were categorized by J. Tarpo as "recovery", "disposal", or "disposal and recovery". Charges per gallon for each of these services were, respectively, $.10, $.20, and $.15. (Tarpo stated what the charges had been per gallon for "recovery" and "disposal". With respect to those customers for whom both recovery and disposal operations were conducted, and for whom there was no way to determine the actual split between the two, Hofmaier and Tarpo agreed that a reasonable approach was the somewhat arbitrary split of 50/50 and an average cost of $.15.)

RE: Transmittal of Draft Work Products for the American Chemical Services Site

Dear Mr. Siegel:

At the direction of the National Enforcement Investigations Center (NEIC) the Contract Evidence Audit Team (CEAT-TechLaw) is transmitting under custody seals the following American Chemical Services draft work products:

- One diskette containing the American Chemical Services Site mailing list in WordPerfect format

- Spreadsheets and responses to volumetric challenges for the following companies:
  Metropolitan Hospital, AKA Grand Rapids Osteopathic Hospital
  Ford Motor Company
  Lear Siegler AKA SLI Avionic
  Soo Line Railroad

- Two reports (one sorted alphabetically, one sorted by ranking) listing the 446 generators with mail return reasons

The enclosed diskette has been scanned for known viruses using a commercial software, and none were found.

If you have any questions regarding this work effort, please contact us at (303) 233-1248.

Sincerely,

Elaine Rippey

8/18/94

Steve:

Attached are the spreadsheets for the following four companies: Ford Motor Company, Metropolitan Hospital, Soo Line Railroad and Lear Siegler. As per your request, I checked to see if they sent the correct backup, if so did the documentation cause a big disparity in the volumes, and reviewed the volume counts.

---

Ford Motor Company only provided backup for the Chicago plant for 8/25/83 - 2/3/86. The documentation provided was complete and matched what we have for that plant and timeframe. The volume review decreased their amount by 666.00 lbs. and $2,505.06.

---

Metropolitan Hospital did not provide backup. The volume review resulted in no changes.

---

Soo Line Railroad provided backup documentation. We have two manifests that were not included in their documentation (11/24/87 2000 gallons and 12/9/87 450 gallons). They included a transporter form that was not for the ACS site. The volume review increased their amount by 15.20 lbs. and $57.17.

---

Lear Siegler provided copies of manifests we did not have (11/11/85 626 gallons, 6/4/85 750 gallons, and 3/12/85 660 gallons). I included these amounts in the volume review which increased their amount by 162.88 lbs. and $612.65.

During a phone conversation on 8/17/94, Lisa and I reviewed some of the other companies. She wanted me to pass on to you information regarding three companies: Precoat Metals (Chicago) AKA Litho-Strip, Mid-State Chemical and Supply, and Central Resistor Corp.

---

Precoat Metals (Chicago) purchased Litho-Strip from Amsted on 2/5/87. Precoat will only take responsibility for volumes post 2/5/87 and have contacted the previous owner regarding responsibility for the pre 2/5/87 volumes. Lisa received a letter from Amsted accepting responsibility for that timeframe. Amsted was not listed as a generator on this site, so Lisa asked me to split the volumes between the two generators. Precoat Metals (Chicago) will have 2/5/87 - 1990 and Amsted (Litho-Strip) will have 1955 - 2/4/87.

---

Mid-State Chemical and Supply Company only had one volume amount in the database (7/27/70). This volume was in the CSI report. While reviewing the volume count I came across four entries in the A/R Trial Balance for Mid States Chemcial:

| | |
|---|---|
| 4/25/75 | $1,841.40 |
| 5/30/75 | 1,841.40 |
| 6/27/75 | 1,841.40 |
| 7/31/75 | 1,841.40 |

Lisa said to go ahead and include these amounts for the Mid-State Chemical and Supply Company volume as there is no other company in the database with a similar name. FYI - this increases their amount by 36,828.04 lbs. and $138,523.50.

---

Central Resistor Corp. only provided an affidavit as proof of one shipment (11/30/78) in the 1976-1980 timeframe. The A/R Trial Balance lists:

| | |
|---|---|
| 11/30/78 | $640.00 |
| 12/29/78 | 640.00 |
| 2/2/79 | 640.00 |
| 3/2/79 | 640.00 |
| 3/30/79 | 640.00 |

FYI - all of these transactions were included in the original counts completed by the Ad Hoc Committee and in the volumetric review completed by the CEAT. The volume for this timeframe did not change. The total volume did decrease due to the A/R Trial Balance used for the 6/29/73 entry rather than the CSI report. The volume decreased by 446.50 lbs. and $1,679.45.

If you have any questions, please call.

Elaine

Ms. Lisa Comer
9206 Saybrook Avenue
Silver Springs, Maryland 20901

RE: Transmittal of Draft Work Products for the American Chemical Services Site

Dear Ms. Comer:

At the direction of the National Enforcement Investigations Center (NEIC) the Contract Evidence Audit Team (CEAT-TechLaw) is transmitting under custody seals the following American Chemical Services draft work products:

- Spreadsheets and responses to volumetric challenges for the following companies:
  Adheron Coatings Corp.
  Dow Chemical USA
  Midwest Lacquer Mfg.
  Urban Chemical Co.

If you have any questions regarding this work effort, please contact us at (303) 233-1248.

Sincerely,

Elaine Rippey

Elaine Rippey
Project Manager

IF: 232-877

8/26/94

Lisa,

Attached are the spreadsheets for the following PRPs:

Urban Chemical Co.
Dow Chemical USA
Midwest Lacquer Mfg.
Adheron Coating Corp.

---

Urban Chemical Co. claims they only purchased solvents from ACS and documentation received from the FOIA request does not adequately show they shipped chemicals at ACS. The nine transactions on the CSI report were for industrial services. In addition there were two more transactions (7/12/65 & 1/9/67) for purchases and these were not included on the CSI report.

It is possible that Urban Chemical did not receive the second pages of the transaction log which lists the charges for industrial processing. From CSI's "Generation of the Database", "All volumes and weights for items with charges in the "industrial processing" or "industrial services" categories were included unless George Murphy, Jim Tarpo, or John Murphy had specifically excluded them as non-waste generating, with plausible explanation." Urban Chemical's letter refers to a July 9, 1986 letter listing companies that were manufacturers and generated no landfilled waste. The CEAT does not have this letter to verify Urban Chemical's claim of not generating waste.

Urban Chemical provided no additional documentation to prove they only purchased.

In addition, two A/R entries were discovered that were not included in the database count which increases their volume in this review.

---

Dow Chemical USA claims they made no payments to ACS in 1976. They did send their yearly A/P monthly voucher index for 1979, 1978, and 1977 which match the A/R trial balance information. They did not send the index for 1976 showing that ACS was not listed to prove no payments were made.

Their letter refers to an ACS A/R transaction of 4/25/76 for $265.50, this should be 4/25/75 and was included in the 1976-1979 timeframe.

The database used the CSI report for the 1955-1975 timeframe. All three transactions were on the A/R trial balance which CEAT used. In addition it appears the three transactions were included in the 1976-1979 timeframe in the database, thus these amounts being counted twice.

---

Midwest Lacquer Mfg. agrees with our review amount for the total volume shipped to ACS in 1980-1990. Midwest claims they purchased back more solvents than what they shipped to ACS. Also they claimed the solvent sent for reclamation contained 8-10% solids (which were removed), therefore they should only be responsible for 8-10% of the waste they shipped to ACS.

They provided copies of manifests which matched our documentation. They also provided copies of ACS invoices, bills of lading and copies of Midwest checks, which details Midwest purchasing reprocessed solvent from ACS and payments for the purchases. These documents are for the 1980-1990 timeframe.

In addition, they provided the same documentation for the 1976-1980 timeframe. It is possible that the A/R trial balance duplicated the amounts month to month (as we've discussed and decided to not change). Based on the documents provided by Midwest it is possible that the entries for this timeframe were purchases from ACS, not sales to ACS (without knowing exactly what information was included in the A/R trial balance).

| | | |
|---|---|---|
| 9/30/76 | $528.00 | * |
| 10/27/76 | 528.00 | |
| 5/27/77 | 412.50 | * |
| 6/30/77 | 412.50 | |
| 9/2/77 | 412.50 | |
| 9/30/77 | 495.00 | * |
| 10/28/77 | 495.00 | |

* Midwest Lacquer's documents match the dollar amounts and timeframe of these transactions.

For this review CEAT did not decrease any amounts claimed to be purchases.

---

Adheron Coatings Corp.

<u>1955 - 1975</u>

The Ad Hoc Steering Committee determined that two entries (both on CSI and A/R) were duplicates of the 5/31/74:

| | | |
|---|---|---|
| A/R | 5/31/74 | $1,379.31 |
| | 6/28/74 | 1,379.31 |
| | 8/2/74 | 1,379.31 |
| CSI | 5/31/74 | 76622 gross lbs. in |
| | 6/28/74 | 76633 gross lbs. in |
| | 8/2/74 | 76633 gross lbs. in |

For this review the CEAT used the A/R not the CSI report. Did not assume any duplicate entries on the A/R as per guidance. Included

all three entries from the A/R report.

Adheron claims the 12/16/70 & 10/31/72 entries on the CSI report were buybacks (purchases) and should be deleted. The CEAT did not delete these entries per previous guidance regarding purchases. In addition Adheron did not provide any documentation to prove any of these claims.

1976-1980

The CEAT review has increased the volume for this timeframe. It appears that the Ad Hoc Steering Committee determined that all possible duplicate entries in the A/R were deleted. This is why Adheron agrees with the previous volume count. The CEAT did not delete any of these entries per previous guidance regarding purchases.

1980-1990

Adheron claimed the 6/2/87 shipment was refused and returned, the CEAT agrees based on documentation and has deleted this entry from the volume count.

WAITING FOR GUIDANCE (manifest weight/lbs issue)

Precoat Metals (Chicago)
Amsted AKA Litho-Strip
Sun Chemical
BASF Inmont
Chicago Tribune
Jefferson Smurfit AKA Smurfit Laminations
Rotogravure Packaging
Container Corp. of America (sub. of Jefferson Smurfit)
Jefferson Smurfit AKA Alton Box Board & Packaging

If you have any questions, please call.

Thanks,

Elaine

RE: Transmittal of Draft Work Products for the American Chemical Services Site

Dear Ms. Comer:

At the direction of the National Enforcement Investigations Center (NEIC) the Contract Evidence Audit Team (CEAT-TechLaw) is transmitting under custody seals the following American Chemical Services draft work products:

- Spreadsheets and responses to volumetric challenges for the following companies:
  Precoat Metals (Chicago)
  Amsted AKA Litho-Strip
  Chicago Tribune
  Jefferson Smurfit AKA Smurfit Laminations
  Rotogravure Packaging
  Container Corp. of America (Subsidiary of Jefferson Smurfit)
  LA America

If you have any questions regarding this work effort, please contact us at (303) 233-1248.

Sincerely,

Kathy Kaiser
Project Manager

Enclosures

cc: Mary Rohrer, NEIC (w/o enclosures)
Mary Franquemont, CEAT (w/o enclosures)

IF: 232-877

8/22/94

Lisa,

Precoat Metals (Chicago)
Amsted AKA Litho-Strip
Chicago Tribune
Jefferson Smurfit AKA Smurfit Laminations
Rotogravure Packaging
Container Corp. of America (sub. of Jefferson Smurfit)
LA Chemcial

---

Precoat Metals (Chicago) purchased Litho-Strip from Amsted on 2/5/87. Precoat will only take responsibility for volumes post 2/5/87 and have contacted the previous owner regarding responsibility for the pre 2/5/87 volumes. Lisa received a letter from Amsted accepting responsibility for that timeframe. Amsted was not listed as a generator on this site, so Lisa asked me to split the volumes between the two generators. Precoat Metals (Chicago) will have 2/5/87 - 1990 and Amsted (Litho-Strip) will have 1955 - 2/4/87.

Precoat Metals (Chicago) provided a list of their manifests and the amounts for each manifest. They did not provide any documentation. Below is the list of discrepancies between our amounts and their amounts listed on attachment #1:

| | Precoat Volume | Ceat Volume |
|---|---|---|
| 9/28/88 | 2,215 | 2,225 (41 drms @ 55 g = 2255) |
| 1/6/89 | 2,310 | |
| 1/9/89 | 1,485 | 3,795 |
| 8/7/89 | 2,280 | 2,310 (1980 + 330 = 2310) |
| 1/10/90 | 2,295 | 2,250 (1595 + 660 = 2250) |
| 3/19/90 | 2,750 | 2,640 (1870 + 770 + 110 = 2750) (110 rejected = 2640) |
| 10/9/87 | 1,877 | 1,855 |
| 2/23/88 | 1,930 | 1,875 (noted on manifest 36 drms = 1930, 1 drm rejected = 1875) |
| 3/23/88 | 1,590 | 1,596 |

| | | |
|---|---|---|
| 1/6/89 | 1,800 | |
| 12/5/88 | | 900 (orig. 5300 gal rejected 4400 gal = 900) |

Precoat Metals (Chicago ) - the difference between using the gallons and lbs. on specific manifests (14 manifests) increases the volume by: $1,519.59, 40,400 total gallons, and 404 reduced lbs.

---

Chicago Tribune does not agree with the volume count from the database. The result of this review is 110 lbs. less that what Chicago Tribune has counted. They provided no additional documentation.

Chicago Tribune - All but 6 manifests list lbs. and weight. The difference between using the gallons and lbs. on specific manifests decreases the volume by: $169.64, 4,510.00 total lbs., 45.10 reduced lbs.

---

Jefferson Smurfit AKA Smurfit Laminations, the July 28, 1994 letter from William H. Hoagland states that A/R entries (1976-1980), were incorrectly attributed to Smurfit Laminations and should have been applied to Rotogravure. After review of the documentation the CEAT agrees and has deleted the following amounts from Smurfit Laminations and applied them to Rotogravure:

| | |
|---|---|
| 3/31/77 | $ 71.50 |
| 4/29/77 | 178.75 |
| 6/1/79 | 680.00 |
| 4/27/79 | 680.00 |

The manifests for this PRP did not list gallons and weight.

---

Rotogravure Packaging (see Jefferson Smurfit AKA Smurfit Laminations above), A/R entries (1976-1980) were incorrectly attributed to Smurfit Laminations and should have been applied to Rotogravure. After review of the documentation the CEAT agrees and has deleted the following amounts from Smurfit Laminations and applied them to Rotogravure:

| | |
|---|---|
| 3/31/77 | $ 71.50 |
| 4/29/77 | 178.75 |
| 6/1/79 | 680.00 |
| 4/27/79 | 680.00 |

The manifests for this PRP did not list gallons and weight.

---

Container Corp. of America (subsidiary of Jefferson Smurfit), claimed amounts allocated for 1973-1974 was doubled, does not agree with the CSI calculation formula, and believes the volume amount is too much. No documentation was provided to prove this claim.

This review used the A/R trial balance (not the CSI report) for transactions in 1973-1974. Container Corp. of America - the difference between using the gallons and lbs. on specific manifests (40 manifests) increases the volume by: $1,467.60, 39,018 total lbs., 390.18 reduced lbs.

---

LA Chemical provided copies of the two manifests which matches our files. They also provided copies of the A/R Trial Balance and their ACS invoices with hand written notes stating when the invoice was paid & how much the check was for. In several cases, their check amounts equal the current balance on the A/R. Biggest concern is what does the A/R current column mean? Is it the total of charges for that company for that month? Is is the current outstanding balance for only that month? Better documentation would be LA Chemicals A/P files, showing all payments made.

Get guidance from Lisa & Steve as to how to handle this PRP. For this review we did not accept their documetation as proof of purchase only activity. If any of this documentation is acceptable it would be possible to decrease the amount for the 1976-1980 timeframe.

Please call if you have any questions,

Kathy & Elaine

RE: Transmittal of Draft Work Products for the American Chemical Services Site

Dear Ms. Comer:

At the direction of the National Enforcement Investigations Center (NEIC) the Contract Evidence Audit Team (CEAT-TechLaw) is transmitting under custody seals the following American Chemical Services draft work products:

- Spreadsheets and responses to volumetric challenges for the following companies:
  Sun Chemical
  BASF Corp. AKA Inmont Corp.
  Monsanto Company
  Jefferson Smurfit AKA Alton Box Board AKA Alton Packaging
  Midwest Lacquer

If you have any questions regarding this work effort, please contact us at (303) 233-1248.

Sincerely,

Elaine Rippey

IF: 232-877

Lisa, 9/6/94

Attached are the spreadsheets for the following PRPs:

Sun Chemical
BASF Inmont
Jefferson Smurfit AKA Alton Box Board & Packaging
Monsanto Company
Midwest Lacquer

---

Sun Chemical Corporation did not provide any documentation to back their claims.

1980 - 1990

They disagree with two manifests' volume amounts:

| | Sun Chemical Count | CEAT Count |
|---|---|---|
| 11/14/85 | 3,500 g | 3,300 g |
| 12/9/82 | 3,300 g | 4,500 g |

Their attachment #3 lists two transactions we did not have and we did not include due to lack of documentation:

| | |
|---|---|
| 11/25/85 | 5,000 g |
| 7/1/82 | 4,800 g |

Their 9/31/81 transaction we matched to our 9/24/81 transaction. We have 29 more manifests than listed on attachment #3 (see attached list.)

Sun Chemical challenged using gallons vs. lbs. on only two manifests (we do list more manifests than they do.) When lbs. were listed on manifests we used that volume for this review rather than the gallons listed. The CEAT had eight manifests that fit this criteria.

1955 - 1975

They refer to only 14 entries on the CSI report, there is 15 entries.

From the CSI report, attached are the transaction log entries (first and second pages) showing disposal charges for:

| | | |
|---|---|---|
| 1/20/71 | 700 gallons | $420.00 |
| 3/5/71 | none listed | $240.00 |

The dollar amounts are listed on the second page of the transaction log. Both of these entries were included in this volume review.

---

BASF Inmont did not agree with the 8 lbs. per gallon and claims weight was overstated (should have been 7 lbs. per gallon). Did not make any adjustments for this.

Four manifests were counted in both the 1976-1980 timeframe and the 1980-1990 timeframe. CEAT agrees with this claim and only counted these manifests in the 1976-1980 timeframe:

| | |
|---|---|
| 8/27/80 | 4,900 g |
| 9/23/80 | 4,900 g |
| 10/2/80 | 4,900 g |
| 10/24/80 | 4,800 g |

Manifest # 01836 dated 9/18/85, lists the volume as 11,000 gallons and 20 drums. BASF claims their drum volume for the Milwaukee location at 55 gallons per drum, therefore this manifest volume should be 1,100 not 11,000. Based on other manifests for this location the CEAT agrees with this claim. In addition they claim the manifest was counted twice and the CEAT corrected this error.

BASF Inmont challenged using gallons vs. lbs. on 12 manifests. When lbs. were listed on manifests we used that volume for this review rather than the gallons listed. The CEAT had 12 manifests that fit this criteria. The manifest dated 2/9/87 from Chicago was not included in our count (as requested by BASF) because the manifest did not list weight. We did include the 12/9/82 manifest from Neenah which BASF did not mention.

---

Jefferson Smurfit AKA Alton Box Board & Packaging, claims 9 manifests from the state of Illinois and 9 manifests from the Metropolitan Sanitary District of Greater Chicago were entered as 18 separate amounts and should have been entered as only 9 amounts. Both documents were required at that time. After review of the documentation the CEAT agrees with this claim. Below are the 9 manifests:

| | | |
|---|---|---|
| 2/17/83 | 680 gallons | 5846 lbs. |
| 4/15/83 | 756 gallons | 6575 lbs. |
| 5/7/83 | 643 gallons | 5520 lbs. |
| 5/26/83 | 644 gallons | 5536 lbs. |
| 7/14/83 | 724 gallons | 6228 lbs. |
| 8/2/83 | 404 gallons | 3025 lbs. |
| 9/1/83 | 423 gallons | 3623 lbs. |
| 10/12/83 | 421 gallons | 3636 lbs. |
| 11/7/83 | 828 gallons | 7206 lbs. |

Jefferson Smurfit made a claim on five manifests that did not list gallons and only listed weight. As per direction, we reviewed every manifest and used the weight listed. In addition the manifests from 9/84 - 4/90 listed the gross, tare and net weights. The gross weight is the chemical and drum weight; tare weight is the drum weight only (50 lbs. per drum); and the net weight is the

weight of only the chemical. Per direction we used the net weight.

---

Monsanto Company disagrees with the 8 lbs. per gallon weight conversion. They challenged why the weights listed on the manifests were not used. As per direction, we reviewed every manifest and used the weight listed.

The 9/17/81 manifest was not included in this review due to the material not being accepted by ACS, as noted on the document.

The CEAT located two A/R Trial Balance transactions not in the database and included them in this review:

| | |
|---|---|
| 11/30/72 | $630.00 |
| 3/28/75 | $420.00 |

---

Midwest Lacquer Mfg. agrees with our review amount for the total volume shipped to ACS in 1980-1990. Midwest claims they purchased back more solvents than what they shipped to ACS. Also they claim the solvent sent for reclamation contained 8-10% solids (which were removed), therefore they should only be responsible for 8-10% of the waste they shipped to ACS. They provided copies of manifests (which match our documentation), ACS invoices, bills of lading and Midwest checks, which detail Midwest purchasing reprocessed solvent from ACS and payments for the purchases.

In addition, they provided the same documentation for the 1976-1980 timeframe. It is possible that the A/R trial balance duplicated the amounts month to month (as we've discussed and decided to not change). Based on the documents provided by Midwest it is possible that the entries for this timeframe were purchases from ACS, not sales to ACS. Also based on the documents provided by Midwest it is not enough to prove these are duplicate amounts. We did not accept the claim of duplicate amounts for these entries:

| | | |
|---|---|---|
| 9/30/76 | $528.00 | * |
| 10/27/76 | 528.00 | |
| 5/27/77 | 412.50 | * |
| 6/30/77 | 412.50 | |
| 9/2/77 | 412.50 | |
| 9/30/77 | 495.00 | * |
| 10/28/77 | 495.00 | |

* Midwest Lacquer's documents match the dollar amounts and timeframe of these transactions.

For this review CEAT did not decrease any amounts claimed to be purchases.

If you have any questions, please call.

Elaine

RE: Transmittal of Draft Work Products for the American Chemical Services Site

Dear Ms. Comer:

At the direction of the National Enforcement Investigations Center (NEIC) the Contract Evidence Audit Team (CEAT-TechLaw) is transmitting under custody seals the following American Chemical Services draft work products:

- Spreadsheets and responses to volumetric challenges for the following companies:

  Diosynth, Inc.

  Iovite Chemicals, Inc.

  Service Coatings, Inc.

  Vermette Machine Co., Inc.

- Copies of the A/R Trial Balance entries for Monsanto Company

If you have any questions regarding this work effort, please contact us at (303) 233-1248.

Sincerely,

Elaine Rippey

Elaine Rippey
Project Manager

Lisa, 9/9/94

Attached are the spreadsheets for the following PRPs:

Diosynth, Inc.
Iovite Chemical, Inc.
Service Coatings, Inc.
~~Urban Chemical co.~~
Vermette Machine Co., Inc.

---

Diosynth, Inc. claims their materials would have no impact at ACS based on: materials contain high amounts of water; material was shipped in bulk not drums, therefore no leakage; and the materials were to be used as fuel by ACS thus no reclamation or incineration. They provided copies of evaluations of the materials they shipped to ACS to back these claims. No changes were made based on these claims and this review agrees with the database volume.

---

Ivoite Chemical, Inc., per your request, we have only included the 1980-1990 manifest volumes which remains the same as the database amount.

---

Service Coatings, Inc.

<u>1955-1975</u>

Service Coatings claims the disposal charge on 7/24/72 was credited on 8/2/72. Upon review of our documents and the documentation they provided we agree with this claim and have removed the transaction in this review.

The A/R Trial Balance lists 8/30/74 entry with a current balance of $2,960.00. Service Coatings claims this could only be a purchase, not a sale (due to the large volume in lbs). They provide year-end financial statements for 1973 and 1974. They do not provide any purchase records, invoices from ACS, etc. to prove this. We were unable to verify this claim and did not include it in this review.

We used the A/R Trial Balance instead of the CSI report for the 1972-1975 timeframe. There are several entries that have the same amounts repeated through several months (as we discussed - duplicate entries?). By using the A/R Trial Balance the volume increased for this timeframe.

---

Vermette Machine Co., Inc.

1980-1990

They provided copies of manifests which were more legible than the copies we had and we were able to include all of the volumes in this review. Their summary of the 1980-1990 timeframe lists each drum at a weight of 660 lbs. In reviewing each manifest we used the gallon amount, no weight was listed on the manifests, and have less volume than what they claim.

1976-1979

For this timeframe they provided copies of packing lists, purchase orders and a copy of the 5/13/93 McBride, Baker & Coles letter. The packing lists and purchase orders list nine months with transactions while the ACS A/R Trial Balance only lists 4 months with transactions. We are unable to correlate their documentation back to the A/R Trial Balance. The letter is from the RD/RA Organizational Group Allocation Committee for ACS. I don't know who they are or what their role and responsibility was concerning ACS. For this review we used the same calculations used by the Ad Hoc Steering Committee.

Vermette claims to be a purchaser of material and does not provide documentation for purchases. The documentation they provided was for all waste picked up (to be reclaimed) from Vermette and taken to ACS.

If you have any questions, please call.

Elaine

RE: Transmittal of Draft Work Products for the American Chemical Services Site

Dear Ms. Comer:

At the direction of the National Enforcement Investigations Center (NEIC) the Contract Evidence Audit Team (CEAT-TechLaw) is transmitting under custody seals the following American Chemical Services draft work products:

- Spreadsheets and responses to volumetric challenges for the following companies:
  Keil Chemical
  Aerosol Research
  Precoat Metals (St. Louis)
  Central Resistor Corp.
  Mid-State Chemical & Supply Company

If you have any questions regarding this work effort, please contact us at (303) 233-1248.

Sincerely,

Elaine Rippey

Lisa:

Attached are the spreadsheets for the following companies:

Keil Chemical
Aerosol Research
Precoat Metals (St. Louis)
Central Resistor Corp.
Mid-State Chemical and Supply Company

---

Keil Chemical only challenged the 1955 - 1975 timeframe and claimed that not all waste was hazardous. The original volume count was based on the CSI report for 1972 - 1975. Per guidance these volumes were recalculated based on the A/R Trial Balance. In addition the 5/31/94 A/R Trial Balance entry for Keil Chemical is illegible and was not included in this review.

This review resulted in a decrease of 1,882.33 lbs. and $9,399.82.

---

Aerosol Research disagrees with the "gross lbs. in" volume in the 1955-1975 timeframe. The CSI reports lists 119,370 lbs. which is more than the amounts in the Transaction Log.

CSI modified the information in the Transaction Log for purposes of calculating gross pounds-in to the ACS site, because the transaction log referenced the volume only of <u>reclaimed</u> solvent not total waste volume prior to reclamation. Therefore the transaction log does not reflect the gross lbs. in to the site. In this particular case the transaction log is approximately 90% of the gross lbs. in.

Aerosol Research did not provide any additional documentation that enables us to change to volumes.

This review resulted in a slight change increase (.19 lbs. and $.71), due to amounts designated as incinerated or reclaimed.

---

Precoat Metals (St. Louis) does not agree with our "poetic interpretation" of volumes on three manifests (6/17/87, 10/18/88, and 11/18/88) and claim them to be illegible. They provided no documentation to prove otherwise.

Their addition of the gallons (from manifests) is in error. They list our total to be 23,075 when in fact the total of the 7 manifests is 27,575. I have re-added the numbers several times and even tried incorporated the volume changes they requested and cannot arrive at the same total.

This review resulted in no change to the volume count or amount due.

---

Central Resistor Corp. only provided an affidavit as proof of one shipment (11/30/78) in the 1976-1980 timeframe. The A/R Trial Balance lists:

| | |
|---|---|
| 11/30/78 | $640.00 |
| 12/29/78 | 640.00 |
| 2/2/79 | 640.00 |
| 3/2/79 | 640.00 |
| 3/30/79 | 640.00 |

FYI - all of these transactions were included in the original counts completed by the Ad Hoc Committee and in the volumetric review completed by the CEAT. The volume for this timeframe did not change. The total volume did decrease due to the A/R Trial Balance used for the 6/29/73 entry rather than the CSI report. The volume decreased by 446.50 lbs. and $1,679.45. I have passed this information on to Steve.

---

Mid-State Chemical and Supply Company only had one volume amount in the database (7/27/70). This volume was in the CSI report. While reviewing the volume count I came across four entries in the A/R Trial Balance for Mid States Chemical:

| | |
|---|---|
| 4/25/75 | $1,841.40 |
| 5/30/75 | 1,841.40 |
| 6/27/75 | 1,841.40 |
| 7/31/75 | 1,841.40 |

Per your instructions I included these amounts for the Mid-State Chemical and Supply Company volume as there was no other company in the database with a similar name. FYI - this increases their amount by 36,828.04 lbs. and $138,523.50. I have passed this information on to Steve.

As per our conversation I have not included the following companies because they all have manifests that list lbs. and gallons:

Sun Chemical Corporation
Amsted AKA Litho-Strip and Precoat Metals (Chicago)
BASF Inmont
Jefferson Smurfit AKA Smurfit Laminations
Chicago Tribune

If you have any questions, please call.

Elaine

COMMENTS:

Lisa, 9/19/94

Attached is the spreadsheet for:

Bendix Corporation

---

Bendix Corporation has volumes during the 1972-1975 time frame. Their amounts were not included with Allied Signal. Bendix volume amounts come from the A/R Trial Balance (attached are copies.) This review resulted in an increase for Bendix. It appears that only one entry (11/30/72 - $180.40) was included in the Ad Hoc review. I found another entry - 1/31/73 $389.50.

If you have any questions, please call.

Elaine

Re: American Chemical Service Superfund Site
Griffith, Indiana

Dear Sir or Madam:

The United States Environmental Protection Agency ("EPA") is currently involved in cleaning up the American Chemical Service ("ACS") facility, which is a Superfund site located in Lake County, Griffith, Indiana. Superfund is a federal program administered by EPA pursuant to federal law that is designed to clean up hazardous substances ("waste") which pose a threat to human health or the environment. (The full name of the Superfund law is the Comprehensive Environmental Response, Compensation, and Liability Act, or "CERCLA.")

Under the Superfund law, EPA has the authority to take actions at a site, such as the ACS site, to protect public health, welfare, and the environment. Attached is the Declaration for the Record of Decision, a document which summarizes the cleanup decision made by EPA for this site. In addition, this law permits EPA to request that parties who are responsible for the waste at the site pay to clean up the site.

EPA is sending you this information because you are potentially responsible for contributing a small percentage of the total amount of waste sent to the site. EPA has based this determination on a review of business records obtained from the site, hazardous waste manifests, and information received from individuals like yourself requested by EPA.

Example of documentation mailed for diminimus settlement with invitation to 9:00 a.m. meeting
ER
9/9/94

Printed on Recycled Paper

## Potentially Responsible Parties

Parties who may be responsible for the waste at Superfund sites are referred to as "potentially responsible parties" or "PRPs." PRPs include individuals, businesses, governmental agencies, and other types of organizations. You may be a PRP if you are:

1) a current owner or operator of the site;
2) a former owner or operator of the site during the period of waste disposal;
3) a party that arranged for the treatment, disposal, or transportation of hazardous substances to the site; or
4) a party that transported hazardous substances to a site you selected.

## "De Minimis" Settlements

Because EPA believes you may have contributed a small amount of waste in comparison to the total amount of waste at the site, you are considered a "de minimis" PRP. Under Superfund, EPA may offer special settlements to de minimis PRPs; these de minimis settlements provide many benefits to PRPs. A de minimis settlement provides the following kinds of treatment for a PRP:

1. **Covenant Not to Sue** - This provision is a promise that EPA will not bring any future legal actions against you regarding the site and the specific matters addressed in the settlement.

2. **Contribution Protection** - This provision offers you protection from being sued by other PRPs at the site. Frequently, major waste contributors will sue small waste contributors to recover cleanup costs. A de minimis settlement provides protection from such suits that extends to all issues covered by the settlement.

The amount a de minimis settlor may pay as part of the settlement varies from site to site. In general, the payment amount is the sum of a basic payment and a premium payment. The basic payment is calculated using the estimated cost to clean up the site and the amount of the de minimis party's waste (as a percentage of the total waste at the site). The premium payment varies according to a variety of factors specific to both the site and the settlement.

In total, contribution protection, the covenant not to sue, and other de minimis settlement terms can provide you with a high level of certainty that your legal obligation at a site is discharged and that you are protected from future legal actions related to the matters addressed in the settlement. To date, nearly 5000 individuals, small businesses, and others have

entered into de minimis settlements with EPA to resolve their Superfund liability at over 65 sites across the country.

## OFFER OF DE MINIMIS SETTLEMENT

Section 122(g) of CERCLA, 42 U.S.C. § 9622(g), allows EPA, in its discretion, to enter into de minimis settlements that are practicable, in the public interest, and involve only a minor portion of the response costs at a facility. Under this section, EPA may settle with de minimis PRPs who contributed hazardous substances to a facility where the amount and toxicity of the hazardous substances contributed by each party is minimal in comparison to other hazardous substances at the facility.

EPA is offering a de minimis settlement to you via the Administrative Order on Consent attached to this letter. As a de minimis party, you may resolve your liability to the United States upon execution (signing and returning the signature page to EPA) of the order and payment of the appropriate amount indicated in Appendix 4 of the Administrative Order on Consent.

EPA has determined that the amounts in Appendix 4 to be paid by settling de minimis parties represent their proportionate share, based on the volume of wastes contributed to the site, the total cost of remediation at the site, plus a premium to address the risk of underestimating response costs and of not recovering 100 percent of EPA's outstanding costs from parties not eligible for or not joining the de minimis settlement.

It is your obligation to demonstrate that you qualify as a de minimis party. Therefore, if you sign the Administrative Order on Consent, you are certifying to the United States that you qualify as a de minimis PRP. EPA retains the right to re-open the issue of your liability in the event information is discovered which indicates that you or your organization actually contributed waste that is significantly more toxic, or of significantly greater volume, than you certify to EPA in this Order.

## PRP RESPONSE AND EPA CONTACT

You should notify EPA by July 22, 1994, if you are willing to participate in the settlement for this site. If you decide to participate, you must sign the signature page (page 22) of the enclosed Administrative Order on Consent and return it to EPA no later than close of business (5:00 p.m. C.T.) on July 22, 1994. DO NOT SEND ANY MONEY AT THIS TIME. Your executed signature page

should be sent to the following address:

Steven Siegel (CS-3T)
Assistant Regional Counsel
U.S. EPA
77 West Jackson Blvd.
Chicago, Illinois 60604.

If you wish to participate in this settlement, but contest the volume of waste attributed to you by EPA, you must notify EPA. EPA will consider adjusting its database in cases where written documentation is provided demonstrating that the volume of waste you contributed to the site, as described in Appendix 4, is clearly erroneous. A volumetric challenge, including complete written documentation supporting the challenge, must be received by EPA no later than July 15, 1994. If you decide to challenge the volumetric contribution and still participate in this settlement, your executed signature page must be returned to EPA at the above address no later than the close of business 10 days after receiving notice by EPA of the results of your volumetric challenge.

If you wish to participate in this settlement, but claim you are unable to make the payment amount required in appendix 4 of the enclosed administrative order on consent, you may submit an ability to pay claim to EPA. In your claim, you must identify your name and ranking number in appendix 4. In addition, you must include, at a minimum: (1) your most recent three years of tax returns; (2) your most recent three years of financial statements (if available); (3) the applicable portions of the enclosed Individual Financial Data Request Form must be completed; and (4) you must include a statement of the maximum amount you are financially able to pay to resolve your liability. All ability to pay claims must be submitted to EPA no later than July 15, 1994. If you decide to participate in this settlement, your executed signature page must be returned to EPA no later than the close of business 10 days after receiving notice by EPA of the results of your ability to pay claim.

## Information about the Site

EPA encourages you to become familiar with the site. To assist you in this effort, EPA has scheduled a meeting to discuss the Site and this de minimis settlement proposal. The meeting will be held on June 28, 1994 at 9:00 a.m. at the State of Illinois/Suburban North Regional Office, 9511 West Harrison Street, Des Plaines, Illinois. Directions to the meeting place are attached to this letter. Representatives of EPA will attempt to answer all questions regarding this settlement at the meeting. In addition, for parties who conducted business at the site

between 1980 and 1990, EPA will provide copies of these transactions at the meeting at no charge to you.

Because of the large number of parties involved at this site, we encourage you to ask your questions at this meeting rather than contacting EPA by telephone. However, if you are unable to attend the meeting, you may call toll free 1-800-890-4219 and an EPA representative will return your call.

Sincerely,

for Jo Lynn Traub
Acting Associate Director
Waste Management Division

# DECLARATION FOR THE RECORD OF DECISION

## SITE NAME AND LOCATION

American Chemical Services
Griffith, Indiana

## STATEMENT OF BASIS AND PURPOSE

This decision document represents the selected remedial action for the American Chemical Services (ACS) site located in Griffith, Indiana. This action was chosen in accordance with the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA), as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA), and to the extent practicable, with the National Oil and Hazardous Substances Contingency Plan (NCP). This decision is based on the Administrative Record for this site.

The State of Indiana concurs with the selected remedy.

## ASSESSMENT OF THE SITE

Actual or threatened releases of hazardous substances from the site, if not addressed by implementing the response action selected in this Record of Decision (ROD), may present an imminent and substantial endangerment to public health, welfare, or the environment.

## DESCRIPTION OF THE REMEDY

The major components of the selected remedy include:

- Ground water pumping and treatment system to dewater the site and to contain the contaminant plume with subsequent discharge of the treated ground water to surface water and wetlands;

- Excavation of approximately 400 drums in the On-site Containment Area for offsite incineration;

- Excavation of buried waste materials and treatment by low-temperature thermal treatment (LTTT);

- On-site treatment or off-site disposal of treatment condensate;

- Vapor emission control during excavation and possible immobilization of inorganic contaminants after LTTT;

- Off-site disposal of miscellaneous debris;

- In-situ vapor extraction pilot study of buried waste in On-site Area;

- In-situ vapor extraction of contaminated soils;
- Continued evaluation and monitoring of wetlands and, if necessary, remediation;
- Long term ground water monitoring;
- Fencing the site and possible implementation of deed and access restrictions and deed notices; and
- Private well sampling with possible well closures or ground water use advisories.

**STATUTORY DETERMINATIONS**

The selected remedy is protective of human health and the environment, complies with Federal and State requirements that are legally applicable or relevant and appropriate to the remedial action, and is cost-effective. This remedy utilizes permanent solutions and alternative treatment technologies to the maximum extent practicable and satisfies the statutory preference for remedies which employ treatment that reduces toxicity, mobility, or volume as a principal element.

Because this remedy may result in hazardous substances remaining on-site above health-based levels, a review will be conducted at least every five years after commencement of the remedial action to ensure that the remedy continues to provide adequate protection of human health and the environment.

Regional Administrator, Region V

THE ATTACHED INDIVIDUAL FINANCIAL DATA REQUEST FORM MUST ONLY BE COMPLETED BY PARTIES WHO CLAIM AN INABILITY TO PAY THE SETTLEMENT AMOUNT LISTED IN APPENDIX 4 OF THE ADMINISTRATIVE ORDER ON CONSENT.

PARTIES CLAIMING AN INABILITY TO PAY THE SETTLEMENT AMOUNT MUST ALSO FOLLOW THE INSTRUCTIONS FOR FILING AN INABILITY TO PAY CLAIM ON PAGE 4 OF THE ATTACHED LETTER.

## Individual Financial Data Request Form

This form requests information regarding your personal financial status. The data will be used to evaluate your ability to pay for environmental clean-up or penalties. If there is not enough space for your answers, please use additional sheets of paper. Note that we may request further documentation of any of your responses. We welcome any other information you wish to provide supporting your case, particularly if you feel your situation is not adequately described through the information requested here.

### Certification

I declare that this statement of assets, liabilities, and other information is true, correct, and complete to the best of my knowledge and belief.

## PART IV. ADDITIONAL INFORMATION

Please respond to the following questions. For any question that you answer "Yes," please provide additional information on separate pages or at the bottom of this page.

| QUESTION | YES | NO |
|---|---|---|
| 1. Do you have any reason to believe that your financial situation will change during the next year? | | |
| 2. Are you currently selling or purchasing any real estate? | | |
| 3. Are you involved or affiliated with any other sole proprietorships, partertships or corporations? | | |
| 4. Is anyone (or any entity) holding real or personal property on your behalf (e.g., a trust)? | | |
| 5. Are you a party in any pending lawsuit? | | |
| 6. Have any of your belongings been repossessed in the last three years? | | |
| 7. Are you a Trustee, Executor, or Administrator? | | |
| 8. Are you a participant or beneficiary of an estate or profit sharing plan? | | |
| 9. Have you declared bankruptcy in the last seven years? | | |
| 10. Do you receive any type of federal aid or public assistance? | | |

# AMERICAN CHEMICAL SERVICES SITE
# *DE MINIMIS* SETTLEMENT TRUST FUND AGREEMENT

THIS AGREEMENT is made between and among the "Respondents," as defined in Article II hereof, and American National Bank and Trust Company of Chicago, as Trustee, 33 North LaSalle Street, Chicago, Cook County, Illinois 60690 ("Trustee"). The Trustee shall hold and dispose of the property to be conveyed to the trust and any other property added to the trust ("Trust Property") as follows:

## Article I.
## RECITALS

WHEREAS, the Respondents have executed an Administrative Order on Consent ("Administrative Order") issued by the United States Environmental Protection Agency ("U.S. EPA") to resolve each Respondent's potential liability for response costs at the American Chemical Services (ACS) Superfund Site, located in Griffith, Indiana, the potential liability of each Respondent being as defined in the Administrative Order as *de minimis*; and

WHEREAS, by executing the Administrative Order to settle *de minimis* potential liability at the ACS Site, each Respondent is required to make a payment to a Settlement Trust Fund pursuant to paragraphs 25 and either 26 or 27 of the Administrative Order; and

WHEREAS, this Agreement provides for the creation of a Settlement Trust Fund by Respondents established exclusively to receive and administer funds to be paid by Respondents under the terms of the Administrative Order, and to make payments to U.S. EPA and the Indiana Department of Environmental Management ("IDEM") pursuant to paragraphs 26 and 27 of the Administrative Order; and

WHEREAS, the Respondents desire that all funds delivered to the Trustee for deposit in this Settlement Trust Fund, and all investments and reinvestment thereof and all substitutions therefor shall be held for the uses and purposes and upon the terms and conditions hereinafter set forth:

NOW, THEREFORE, in consideration of the promises and mutual covenants herein contained, the parties hereto agree as follows:

## Article II.
## DEFINITIONS

1. All terms defined in the Administrative Order shall have the same meanings in this Agreement. As used in this Agreement:

A. "Site," shall mean the American Chemical Services Site located in Griffith, Indiana, and shall have the meaning assigned to the term "Site" in the Administrative Order.

B. "Administrative Order" shall mean the Administrative Order on Consent issued by U.S. EPA under the authority of both the U.S. EPA and IDEM as set forth in paragraph 1 of the Administrative Order and concurred with by the U.S. Department of Justice, pursuant to section 122(g)(4) of the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA"), 42 U.S.C. § 9622(g)(4), and signed by each Respondent. The Administrative Order resolves each Respondent's potential liability for response costs at the Site, the potential liability of each Respondent being as defined in the Administrative Order as *de minimis*.

C. "Contact Persons" are the three members of the Liaison Trust Committee who are responsible for providing written directions to the Trustee for the distribution of Trust Property as described herein.

D. "Liaison Trust Committee" shall mean the committee acting on behalf of the Respondents, having the authority to direct, supervise and authorize the Trustee's activities pursuant to Article VIII. herein.

E. "*Pro Rata*" shall mean the percentage share assigned to each Respondent by U.S. EPA on Appendix 4 to the Administrative Order including any adjustments made to Appendix 4 by U.S. EPA.

F. "Respondents" shall mean those parties who have timely executed the Administrative Order, as set forth in paragraph 4.E. thereof, and are thereby obligated to make payments to the Settlement Trust Fund pursuant to paragraph 25 and either 26 or 27 thereof.

G. "Settlement Trust Fund" shall mean the trust established under this Agreement to satisfy the requirements for the creation and maintenance of such a trust under the terms of the Administrative Order.

H. "Trustee" shall mean American National Bank and Trust Company of Chicago or any successor who is acting as Trustee.

I. "Trust Expenses" shall mean all expenses of administering the Settlement Trust Fund including, but not limited to the Trustee's fees and expenses, legal fees and expenses, consulting fees, accounting fees and taxes, and the Liaison Trust Committee's expenses relating to entering the Administrative Order and creating and administering the Settlement Trust Fund and this Agreement, as approved by the Liaison Trust Committee.

## Article III.
## TRUST PURPOSE

1. This Settlement Trust Fund is established and shall be maintained exclusively for the following purposes:

A. Receiving payments from Respondents pursuant to paragraphs 26 and 27 of the Administrative Order so that participation in the *de minimis* settlement embodied in the Administrative Order may be perfected by each Respondent by making the necessary payments set out in Attachment 4 to the Administrative Order;

B. Making payments to U.S. EPA and IDEM from the Settlement Trust Fund pursuant to paragraphs 26 and 27 of the Administrative Order; and

C. Providing funds for payment of Trust Expenses, including, but not limited to legal fees and expenses incurred in creating and administering the Settlement Trust Fund.

## Article IV.
## CONTRIBUTIONS TO TRUST FUND

1. **Settlement Payments.** Each Respondent shall transfer to the Trustee the amount required to be paid by such Respondent as set forth in Attachment 4 to the Administrative Order and under the terms and conditions applying to such payments as contained in the Administrative Order.

2. **Payments Satisfy Claims.** Contributions to the Settlement Trust Fund provided for in this Agreement and any payments made to the United States and the State of Indiana shall be construed as payments made in settlement of claims which could be made against the Respondents for their alleged involvement with the Site. Such contributions are not payments of fines, penalties or monetary sanctions or payments in settlement of an actual or potential fine, penalty or monetary sanction, nor are the contributions payments of amounts forfeited as collateral posted in connection with a proceeding which could result in imposition of such a fine, penalty or monetary sanction. By making payments to the Settlement Trust

Fund established herein, Respondents do not admit, accept or intend to acknowledge any liability or fault with respect to any matter arising out of or relating to the Site. Likewise, the Agreement does not constitute a commitment or agreement, either express or implied, by any or all of the Respondents to undertake any obligations except those contained in the Administrative Order.

3. **Assessments.** The Liaison Trust Committee may issue one or more *pro rata* assessments for payment of Indemnifiable Matters that may be tendered to the Committee by the Trustee pursuant to Article VII., or for indemnity claims of Contact Persons or the Liaison Trust Committee under Article VIII. below.

## Article V.
## DISTRIBUTIONS FROM TRUST FUND

1. **Accounting For Principal and Income Separately.** Principal and income are to be accounted for separately during the entire term of the Settlement Trust Fund.

2. **Written Approval Required.** All disbursements under this Article V. must be approved in writing by the Contact Persons for the Liaison Trust Committee consistent with the provisions of Article VIII.2. of this Agreement. The Contact Persons and the Liaison Trust Committee shall only approve payments for services and expenses that are consistent with the Administrative Order and this Agreement.

3. **Disbursements Paid From Income.** The Trustee shall pay from trust income all bills, invoices and expenses of the Trustee, followed by all other Trust Expenses duly approved by the Contact Persons. The Trustee shall, to the extent sufficient income funds are on deposit under this Agreement, pay such approved Trust Expenses within fifteen (15) days from the receipt of such written approval. Trustee shall notify the Contact Persons promptly in writing if insufficient income is available to pay Trust Expenses and, thereafter, the Liaison Trust Committee will take all necessary and appropriate action to see that necessary funds are provided to the Trustee to satisfy all Trust Expenses, and such action may include issuing an assessment to the Respondents pursuant to Article VIII.4. herein.

4. **Principal Paid to U.S. EPA and IDEM.** Upon written instruction from the Contact Persons for the Liaison Trust Committee, the Trustee shall pay, solely from principal funds in the Settlement Trust Fund, the sum of $46,190.86 to IDEM, and the balance of the principal funds to U.S. EPA, consistent with paragraphs 26 and 27 of the Administrative Order.

5. **Payments of Excess Income.** Upon written notification from the Contact Persons for the Liaison Trust Committee, the Trustee shall pay to U.S. EPA solely from income, so much of the income of the Settlement Trust Fund that the Liaison Trust Committee determines will not be required to pay existing or anticipated Trust Expenses. Any income not so paid shall be segregated into a separate income accumulation account.

6. **No Recovery From the Settlement Trust Fund.** Each Respondent acknowledges that although it has contributed funds to the Settlement Trust Fund as provided on Attachment 4 to the Administrative Order, it will not have a right to recover income or any form of distribution from the Settlement Trust Fund.

7. **Termination.** After distribution of all principal of the Settlement Trust Fund pursuant to Article V.4. above, and payment of all outstanding Trust Expenses pursuant to Article V.3. above, and after a final accounting from the Trustee pursuant to Article VI.2. herein, any remaining accrued income in the trust shall be distributed to U.S. EPA upon receipt of written direction signed by two Contact Persons only after a majority vote of the Liaison Trust Committee, to the Trustee. Thereafter, Trustee shall take all necessary and appropriate action to terminate the trust.

## Article VI.
## TRUSTEE OBLIGATIONS AND POWERS

1. **Powers and Obligations of the Trustee.** The Trustee shall ensure that the payments from the Settlement Trust Fund are strictly for the implementation of the Administrative Order or this Agreement. In the event of any conflict between the terms of this Agreement and the Administrative Order, the terms of the Administrative Order shall prevail. This Agreement shall not be construed to confer upon the Trustee any authority to carry on any business activity for profit or to divide the gains therefrom among the Respondents. Other than the responsibilities of the Trustee expressly set forth herein, the Trustee shall have no obligations in connection with this Agreement or the Settlement Trust Fund, and no implied duties or obligations shall be read into this Agreement against the Trustee.

2. **Accounting.** The Trustee shall keep an accounting of all trust property, including principal,income, expenses and distributions which shall be available for examination by the Respondents and such accounting shall maintain principal and income separately pursuant to Article V.1. herein. The Trustee may impose reasonable regulations for the inspection of such information. The accounting shall state the date and amount of funds received from and to be credited to each Respondent and all charges against the

Settlement Trust Fund for fees, expenses and other disbursements. The Trustee shall furnish to the Contact Persons such accounting on a monthly basis unless directed to do otherwise by the Committee. After payments of principal are made pursuant to Article V.4. herein, the Trustee will provide the Contact Persons with an accounting to guide the distribution of funds for trust termination pursuant to Article V.7. herein, and at termination, the Trustee shall deliver a final accounting to the Contact Persons.

3. **Investment.** In the administration of the Settlement Trust Fund, the Trustee shall have all powers and authority necessary to invest and reinvest the principal and income in an interest-bearing money market fund consisting primarily of U.S. Treasury obligations issued by the U.S. Government, its agencies or instrumentalities, fully guaranteed as to principal and interest by the United States. The Trustee shall have the power to protect and conserve the trust property, and the Trustee shall have the power to make, execute, acknowledge and deliver any contracts or agreements the Trustee deems necessary to effectuate the purpose of the Administrative Order and this Agreement upon approval by the Liaison Trust Committee.

4. **Trustee Compensation.** The amount of the Trustee's compensation shall be governed by Appendix 1 attached hereto. No individual Respondent has any obligation to pay Trust Expenses or Trustee compensation by virtue of having made its contribution to the Settlement Trust Fund pursuant to the terms of the Administrative Order. The Trustee's compensation will be paid consistent with the provisions of Article V.3. herein.

5. **Trust Expenses and Taxes.** The Trustee shall have the power to pay any and all charges and expenses incurred by the Trustee to discharge its obligations under this Agreement, including without limitation, the payment of taxes imposed on the Settlement Trust Fund, and approved Trust Expenses. The Trustee shall prepare and file any tax returns for the trust, and any other tax related documents required under federal, state and local laws. Each Respondent shall be responsible for taxes, if any, imposed upon the Respondent as a result of the creation, existence, or operation of this trust, including but not limited to all taxes, penalties and interest thereon.

6. **Bond Liability.** The Trustee shall not: (1) be required to furnish any bond or surety; (2) be required to expend or risk its own funds or otherwise incur any financial liability unless it first shall have been indemnified to its satisfaction against the cost, expense or liability which may be incurred thereby; or (3) be held responsible for any loss sustained to the trust funds through any error or judgment made in good faith. The Trustee shall have

no responsibility for the genuineness or validity of any document or other item deposited with it, and it shall be fully protected in acting in accordance with any written instructions given to it hereunder and believed by the Trustee to be properly given.

7. **Removal.** The Trustee may be removed and replaced with or without cause by written notice signed by two Contact Persons only after a majority vote of the Liaison Trust Committee, and delivered to the Trustee, in which a successor Trustee is designated, or the Trustee may resign upon thirty (30) days notice, in which event the Liaison Trust Committee shall designate a successor Trustee; provided, however, that the removal or resignation of the Trustee shall not become effective until the successor Trustee has accepted its office. If a successor Trustee shall not have accepted its appointment within thirty (30) days of a removal or resignation of the current Trustee, the Trustee may apply to a court of competent jurisdiction to appoint a successor Trustee to act until such time, if any, as a successor shall have so accepted its appointment. The costs, fees and expenses related to such application to any court shall be paid as provided in Article V.3. herein.

## Article VII.
## INDEMNIFICATION

1. **Indemnity.** The Respondents hereby agree to indemnify and hold harmless the Trustee, its directors, officers, employees and agents, against any and all losses, claims, damages, liabilities and expenses, including reasonable costs of investigation, attorneys' fees and disbursements, which may be imposed upon or incurred by the Trustee in the performance of its duties hereunder, unless the Trustee's performance of its duties constitutes negligence, gross negligence or willful misconduct (any matter for which indemnification is required is hereinafter referred to as an "Indemnifiable Matter"). The preceding sentence shall apply, without limitation, to any litigation arising from this Agreement or involving the subject matter hereof or the Trust Property.

2. **Indemnity Claims.** In the event a claim is made against the Trustee, its directors, officers, employees or agents which, in the opinion of the Trustee, is an Indemnifiable Matter, the Trustee shall promptly notify the Contact Persons in writing. The Liaison Trust Committee shall in turn promptly advise the Trustee whether it agrees that an Indemnifiable Matter is involved and, if so, whether and/or to what extent such claim should be paid to the third party. If the Liaison Trust Committee is of the opinion that an Indemnifiable Matter is not involved, it shall promptly so notify the Trustee. To the extent the Committee agrees that an Indemnifiable Matter is involved, but that the claim by the third party should not be paid, it may designate counsel to represent the

Trustee in defending against the claim, and, if the Committee should fail to do so or if such counsel is not acceptable to the Trustee, the Trustee shall designate counsel, which counsel must then be approved by the Liaison Trust Committee, which approval shall not be unreasonably withheld. In either event the Respondents shall bear all reasonable costs of the defense of the Indemnifiable Matter, including but not limited to attorneys' fees, expenses and court costs, in addition to any judgment rendered against the Trustee, its directors, officers, employees or agents. To the extent the Committee agrees that the claim is an Indemnifiable Matter and should be paid, it shall promptly so notify the Trustee and the Respondents, and the Respondents shall tender to the Trustee the amount to be paid in accordance with Article VIII.4.

## Article VIII.
## LIAISON TRUST COMMITTEE

1. **Liaison Trust Committee.** The Liaison Trust Committee is a voluntary association of certain Respondents and the Committee shall meet via teleconference or in person with sufficient regularity to address any and all issues relative to the maintenance and administration of the Settlement Trust Fund. Nothing in this Agreement shall be construed to create an attorney-client relationship between Respondents and any member of the Liaison Trust Committee. A current list of Liaison Trust Committee members shall be maintained by Ben L. Pfefferle, III, Esq., or his successor, and shall be made available to the Trustee at any time upon request. The Liaison Trust Committee shall have at least five (5) members at all times. A list of members of the Liaison Trust Committee as of the date of execution by the Trustee is attached as Appendix 2.

2. **Contact Persons.** The three individuals listed herein as Liaison Trust Committee members that must receive written notice under Article XIV. of this Agreement are each Contact Persons and are empowered to give written directions to the Trustee to make distributions as set forth herein. The Trustee shall be notified in writing pursuant to Article XIV. of any changes to the designated Contact Persons.

A. **Approval of Trust Expense Distributions.** All disbursements for Trust Expenses pursuant to Article V. must be approved in writing by any two Contact Persons, except that no Contact Person may review or approve the invoices or bills of him(her)self, his or her firm, or any Respondent whom he or she represents.

B. **Approval of Principal Distributions.** For distribution of principal pursuant to Article V.4. herein or for any other purpose consistent with this Agreement, the written approval of two Contact Persons given only after a majority vote of the Liaison Trust Committee, must be provided to the Trustee.

3. **Indemnification of Contact Persons and Liaison Trust Committee Members.** Each Respondent agrees, by execution of this Agreement, to defend, indemnify and hold harmless each Contact Person and member of the Liaison Trust Committee from any loss, damage, cost or liability of any kind whatsoever, including but not limited to reasonable attorneys fees, and costs for his or her defense, resulting from directions given by him or her to the Trustee if such directions were authorized by the Liaison Trust Committee, or otherwise involving Liaison Trust Committee members as a result of their service under this Agreement, or any action affecting the Trust Property. The Respondents further agree that the indemnity will be satisfied first from the Settlement Trust Fund income, and then thereafter from the Respondents following an assessment issued by the Liaison Trust Committee.

4. **Indemnity Assessments.** If the Liaison Trust Committee determines that an Indemnifiable Matter should be paid pursuant to Article VII. herein, or that a Contact Person or Persons, or a Member or Members of the Liaison Trust Committee have valid claims for indemnity pursuant to Article VIII.3. herein, then the Liaison Trust Committee shall have the authority to issue a *pro rata* assessment to the Respondents in the amount necessary to satisfy the Indemnifiable Matter or indemnity claim, except that the income of the Settlement Trust Fund must first be used to satisfy the Indemnifiable Matter to the greatest extent possible before any assessment can be made.

## Article IX.
## TIME OF TERMINATION OF TRUST

This Trust shall terminate upon the later of the Trustee's receipt of written notice of termination from the Liaison Trust Committee or distribution of all Settlement Trust Fund Property pursuant to Article V. hereof. In no event, however, shall this Trust continue for a period in excess of two (2) years from the date of execution of this Agreement, consistent with the short-term nature of the trust purposes stated herein. This Agreement may be modified to extend the life of the Settlement Trust Fund pursuant to Article XI. below.

## Article X.
## SEVERABILITY

If any section of this agreement or portion thereof shall be adjudged illegal, invalid, or unenforceable, such illegality, invalidity, or unenforceability shall not affect the legality, validity, or enforceability of this Agreement, as a whole, or of any other section or portion thereof not so adjudged.

## Article XI.
## MODIFICATION

This Agreement may be amended, altered, or modified upon majority vote of the Liaison Trust Committee and by written notification executed by the Contact Persons and the Trustee, except that all such amendments, alterations or modifications shall not be inconsistent with the terms of the Administrative Order. The Liaison Trust Committee may substitute Contact Persons at any time and such substitution shall be effective upon receipt of written notification of the substitution by the Trustee.

## Article XII.
## APPLICABLE LAW

This Agreement shall be governed by and interpreted under the internal laws of the State of Illinois, without regard to principles of Conflicts of Laws.

## Article XIII.
## COVENANT

The provisions hereof shall be binding upon the Respondents and the Trustee, their successors and assigns in interest, and all persons, subsidiaries, and corporations acting for or on behalf of the parties named herein.

## Article XIV.
## NOTICE

Any correspondence or notices required hereunder shall be given in writing by facsimile, telex, telegraph, by hand delivery or by certified or registered mail, return receipt requested, which shall be delivered or mailed to the parties at the addresses below:

Trustee:

Timothy P. Martin
American National Bank and
Trust Company of Chicago
Corporate Trust Division
33 North LaSalle Street
Chicago, Illinois 60690

**Article XV.**
**EFFECTIVE DATE**

This Agreement shall become effective when the Trustee signs it and, as to each Respondent, when the Respondent signs the Administrative Order.

**Article XVI.**
**COUNTERPARTS OF AGREEMENT**

This Agreement has been executed for the convenience of the parties hereto in counterparts signed by the Trustee, and by the Respondents by their execution of the Administrative Order, any one of which, for all purposes, shall be deemed to have the status of an executed original.

IN WITNESS WHEREOF, the undersigned Trustee hereby executes and agrees to the terms of the American Chemical Services Site *De Minimis* Settlement Trust Fund Agreement. The undersigned Trustee has caused this instrument to be executed by persons duly authorized to sign on its behalf.

AMERICAN NATIONAL BANK AND TRUST
COMPANY OF CHICAGO, as Trustee

(seal)

Address: 33 North LaSalle Street
Chicago, Illinois 60690

Date: May 27, 1994

**APPENDIX 1**
**Trustee Compensation Schedule**

Annual Fee:

Base Annual Charge

$2,000.00 per million or fraction thereof on the first $1,000,000 of deposits (minimum)

$400.00 per million or fraction thereof on the next $9,000,000 of deposits

$100.00 per million or fraction thereof on the excess over $10,000,000

The annual fee is billed in advance and payable prior to that years service.

Tax Reporting: $500.00

Any out-of-pocket expenses, or extraordinary fees or expenses such as attorneys fees or messenger costs, are additional and are not included in the above schedule.

S. EPA Docket No.<br><br>ADMINISTRATIVE ORDER ON CONSENT |

ADMINISTRATIVE ORDER ON CONSENT

## I. JURISDICTION

1. This Administrative Order on Consent ("Consent Order") is issued pursuant to the authority vested in the President of the United States by Section 122(g)(4) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended by the Superfund Amendments and Reauthorization Act of 1986 ("CERCLA"), Pub. L. No. 99-499, 42 U.S.C. § 9622(g)(4), to reach settlements in actions under Section 106(a) or 107(a) of CERCLA, 42 U.S.C. § 9606(a) or § 9607(a). The authority vested in the President has been delegated to the Administrator of the United States Environmental Protection Agency ("EPA") by Executive Order 12580, 52 Fed. Reg. 2923 (Jan. 29, 1987), and further delegated to the Regional Administrators of the EPA by EPA Delegation No. 14-14-E (issued Sept. 13, 1987, amended by memorandum June 17, 1988). This Consent Order is also issued pursuant to the authority vested in the Indiana Department of Environmental Management ("IDEM") by the Indiana Environmental Management Act, Ind. Code § 13-7-1-1 et seq.

2. Each Respondent agrees to undertake all actions required by the terms and conditions of this Consent Order. This Consent Order was executed by the EPA, IDEM, and the Respondents in good faith to avoid the expense and delay of litigation over the matters addressed by this Consent Order. Each Respondent further consents to and will not contest the jurisdiction of EPA

or IDEM to issue this Consent Order or to implement or enforce its terms.

3. The EPA, IDEM, and the Respondents agree and intend that the participation of the Respondents in this Order shall not be considered an admission of liability and shall not be admissible as evidence against the Respondents in any judicial or administrative proceeding other than a proceeding by the United States to enforce this Order or a judgment relating to it. Further, the Respondents do not admit and do retain the right to controvert in any subsequent proceedings, other than proceedings to implement or enforce this Consent Order, the validity of the Statement of Facts or Determinations contained in this Consent Order.

## II. DEFINITIONS

4. Unless otherwise expressly provided herein, terms used in this Consent Order that are defined in CERCLA or in regulations promulgated under CERCLA shall have the meaning assigned to them in the statute or regulations. Whenever the terms listed below are used in this Order, including the attached appendices, the following definitions shall apply:

A. "Consent Order" or "Order" shall mean this "Administrative Order on Consent" and all appendices attached hereto. In the event of conflict between the text of this Order and any appendix, the text of this Order shall control.

B. "IDEM" shall mean the Indiana Department of Environmental Management and any successor departments or agencies.

C. "Parties" shall mean the EPA, IDEM, and the Respondents.

D. "Record of Decision" or "ROD" shall mean the EPA Record of Decision for the remedial action to be implemented at the American Chemical Services Site, signed on September 30, 1992, by the Regional Administrator of EPA, Region 5, including any changes and all attachments thereto.

E. "Respondent" or "Respondents" shall mean those persons, corporations, and other entities listed in Appendix 1 who have timely executed this Order and made the payments required under this Order in compliance with the terms set forth in either paragraph 26 or 27 of this Order.

F. "Response Costs" shall mean all costs incurred and to be incurred by any person at the American Chemical Services Site for all response actions taken and to be taken, upon EPA's direction, by any person at the Site.

G. "State" shall mean the State of Indiana.

H. "Site" shall mean the American Chemical Services site in Griffith, Indiana, where hazardous substances were released or have come to be located, as shown generally on the map attached as Appendix 2. The Site, which is described in the ROD, encompasses approximately 36 acres and includes: 1) the American Chemical Services ("ACS") facility located at 420 S. Colfax Avenue, Griffith, Lake County, Indiana; 2) the former Kapica Drum, Inc./Pazmey Corporation property, located adjacent to the

ACS facility; and 3) the inactive portion of the Town of Griffith Landfill located adjacent to the ACS facility.

I. "United States" shall mean the United States of America, its agencies, departments, and instrumentalities.

## III. STATEMENT OF PURPOSE

5. By entering into this Consent Order, the mutual objectives of the Parties are:

a) to reach a final settlement among the EPA, IDEM, and the Respondents that allows the Respondents to make a cash payment including a premium to settle their alleged liabilities for all response costs incurred or that may be incurred at or in connection with the Site, in exchange for contribution protection and a covenant not to sue as to civil liabilities in connection with the Site, thereby avoiding difficult, prolonged, and complicated litigation in connection with the Site;

b) to simplify the remaining enforcement activities concerning the Site;

c) to obtain settlement with the Respondents for at least their fair share of response costs incurred by the United States of America and the State; and

d) to reduce, pursuant to CERCLA Section 122(g)(5), the alleged potential liabilities of the remaining potentially responsible parties in connection with the Site, but without waiving EPA's and IDEM's assertion of joint and several liability against such parties, including those who either are ineligible to or do not participate in this settlement.

## IV. PARTIES BOUND

6. This Consent Order shall apply to and be binding upon the EPA, IDEM, and each Respondent, and their successors. Each signatory to this Consent Order represents that he or she is fully authorized to enter into the terms and conditions of this Consent Order and to legally bind the party represented by him or her. Any change in ownership or corporate status of a Respondent, including, but not limited to, any transfer of assets or real or personal property, shall in no way alter such Respondent's payment responsibilities under this Order.

## V. STATEMENT OF FACTS

7. The Site, as defined in the ROD and in Section II, paragraph H, above, is located at and near 420 South Colfax Avenue, Griffith, Lake County, Indiana.

8. The United States Fish and Wildlife Service has identified two wetlands areas in the ACS watershed, a 29-acre area north of the C&O railroad grade, and another 5-acre area south of the railroad grade. These wetlands areas are within the Site as defined herein.

9. Hazardous substances within the definition of Section 101(14) of CERCLA, 42 U.S.C. § 9601(14), have been or are threatened to be released into the environment at or from the Site. Various volatile organic compounds, polychlorinated biphenels (PCBs) and heavy metals are present in soils at the Site; and benzene, ethyl benzene, toluene, and xylene, are present in the upper groundwater aquifer at the Site.

10. Pursuant to Section 105 of CERCLA, 42 U.S.C. § 9605, EPA placed the Site on the National Priorities List (NPL), set forth at 40 C.F.R. Part 300, Appendix B, by publication in the Federal Register in September 1984.

11. In 1988, under an Administrative Order on Consent, certain parties performed a Remedial Investigation/Feasibility Study ("RI/FS") for the Site pursuant to 40 C.F.R. § 300.430. The RI/FS was completed and reported in 1992.

12. In response to a release or a threat of a release of a hazardous substance or substances at or from the Site, response costs of $3,029,953.56 have been incurred; see Appendix 3, incorporated herein by reference.

13. Information contained in the administrative record for this settlement indicates that each Respondent listed on Appendix 1 to this Consent Order, incorporated herein by reference, arranged for disposal or treatment, or arranged with a transporter for disposal or treatment of a hazardous substance owned or possessed by such Respondent at the Site.

14. In accordance with Section 122(g)(1)(A) of CERCLA, 42 U.S.C. § 9622(g)(1)(A), information contained in the administrative record for this settlement indicates that the amount of hazardous substances contributed to the Site by each Respondent is minimal and does not exceed 0.8% of the hazardous substances at the Site. The toxic or other hazardous effects of the substances contributed by each Respondent to the Site do not contribute disproportionately to the cumulative toxic or other

hazardous effects of the waste at the Site. Based on information contained in the administrative record for this settlement, Appendix 4 lists the volume of the waste contributed to the Site by each Respondent and the settlement amount applicable to each Respondent, and is incorporated herein by reference. In its discretion, EPA may adjust the amount and manner of payment specified in Appendix 4 for a Respondent, in light of relevant information brought to EPA's attention by such Respondent.

15. In developing and evaluating the settlement embodied in this Consent Order, EPA has considered the potential costs of remediating contamination at or in connection with the Site, past response costs incurred at or in connection with the Site, possible cost overruns in completing the remedial action, the time-value of money, possible future costs if the remedial action selected in the ROD is not protective of public health or the environment, and any potential orphan shares associated with the Site.

16. Payment required to be made by each Respondent pursuant to this Consent Order is a minor portion of the total response costs at the Site.

## VI. DETERMINATIONS BY EPA

Based upon the Statement of Facts set forth above and on the administrative record for this settlement, EPA and IDEM have determined that:

17. The ACS Site is a "facility" as that term is defined in Section 101(9) of CERCLA, 42 U.S.C. § 9601(9).

18. Each Respondent is a "person" as that term is defined in Section 101(21) of CERCLA, 42 U.S.C. § 9601(21).

19. Each Respondent is a "potentially responsible party" within the meaning of Section 122(g)(1) of CERCLA, 42 U.S.C. § 9622(g)(1).

20. There has been an actual or threatened "release" of a hazardous substance from the Site, as that term is defined in Section 101(22) of CERCLA, 42 U.S.C. § 9601(22).

21. Prompt settlement with the Respondents is practicable and in the public interest within the meaning of Section 122(g)(1) of CERCLA, 42 U.S.C. § 9622(g)(1).

22. This Consent Order involves only a minor portion of the response costs at the Site with respect to each Respondent pursuant to Section 122(g)(1) of CERCLA, 42 U.S.C. § 9622(g)(1).

23. The amount of hazardous substances contributed to the Site by each Respondent and the toxic or other hazardous effects of the hazardous substances contributed to the Site by each Respondent are minimal in comparison to other hazardous substances at the Site pursuant to Section 122(g)(1)(A) of CERCLA, 42 U.S.C. § 9622(g)(1)(A).

## VII. ORDER

24. Based upon the administrative record for this settlement and the Statement of Facts and Determinations set forth above, and in consideration of the promises and covenants set forth herein, it is hereby AGREED AND ORDERED:

### Payment by Respondents

25. Respondent-established Account. By executing this Consent Order, Respondents will simultaneously be entering into a trust fund agreement ("Trust") to receive their settlement payment. The trustee or manager of the Trust agreement shall pay the aggregate of those payments ("sum") to EPA, along with an accounting that identifies Trust expenses and the amount contributed by each Respondent to the sum paid to EPA. In the event of any conflict between the terms of the Trust and this Order, the terms of this Order shall prevail.

Interest realized by the Trust may be used to defray the costs of establishing and administering the Trust, including paying the trustee. Interest received in excess of the costs of establishing and administering the Trust shall be paid to EPA prior to the termination of the Trust in the manner set forth in paragraph 26 below.

26. Timely payment. Within thirty (30) days of the effective date of this Consent Order, each Respondent shall pay to and have caused the Trust to have received from the Respondent the full amount for that Respondent set forth in Appendix 4 to this Order.

Within sixty (60) days after the effective date of this Order, the Trustee shall pay and have caused IDEM to receive the first $46,190.86 received by the Trust, and EPA to receive a sum equal to all remaining payments received under this paragraph by the Trust, as described in paragraph 25. The Trustee shall also send to EPA an accounting for the sum submitted that specifies: (i) each Respondent who made payment under this paragraph to the Trust, (ii) the amount paid by each Respondent, (iii) the date of payment, (iv) the payment specified for each Respondent in Appendix 4, and (v) the reference number listed in Appendix 4. Payment of the sum by the Trustee shall be effected by certified or cashier's check made payable to the "EPA Hazardous Substance Superfund, CERCLA Number J7, DOJ Case Number 90-11-3-1094A," and sent to:

U. S. Environmental Protection Agency Region 5
Attn: Superfund Accounting
P.O. Box 70753
Chicago, Illinois 60673.

A copy of this check shall also be simultaneously sent by the Trustee to:

Steve Siegel
ACS De Minimis Payment
U. S. Environmental Protection Agency Region 5
Mail Code CS-3T
77 West Jackson Boulevard
Chicago, Illinois 60604.

27. Late Payment. If a Respondent fails to make timely payment under paragraph 26 of this Order, such Respondent may elect to participate in this Order by paying and causing the Trust to have received within seventy-five (75) days after the

effective date of this Order one-hundred-five percent (105%) of the amount set forth in Appendix 4 for the Respondent.

Within eighty-five (85) days after the effective date of this Order, the Trustee shall pay to the EPA a sum equal to all payments received under this paragraph by the Trust. The Trustee shall also send to EPA an accounting for the sum submitted that specifies: (i) each Respondent who made payment under this paragraph to the Trust, (ii) the amount paid by each Respondent, (iii) the date of payment, (iv) the amount specified for each Respondent in Appendix 4, and (v) the rank number listed in Appendix 4. Payment of the sum by the Trust shall be effected by certified or cashier's check made payable to the "EPA Hazardous Substance Superfund, CERCLA Number J7, DOJ Case Number 90-11-3-1094A," and sent to:

U. S. Environmental Protection Agency Region 5
Attn: Superfund Accounting
P.O. Box 70753
Chicago, Illinois 60673.

A copy of this check shall also be simultaneously sent by the Trustee to:

Steve Siegel
ACS De Minimis Payment
U. S. Environmental Protection Agency Region 5
Mail Code CS-3T
77 West Jackson Boulevard
Chicago, Illinois 60604.

28. Participation. Subject to reversal only by EPA in its unreviewable discretion, if any Respondent fails to make full payment to the Trust under the requirements of paragraph 26 or 27 of this Order, such Respondent is thereby disqualified

from any participation in this Order. EPA, in its unreviewable discretion, may amend this Order to include Respondents who qualify as de minimis parties. Such amendment may be made based on, among other things, volumetric errors in Appendix 4, ability to pay determinations made by EPA, or lack of notice of the opportunity to participate in this settlement. The manner of payment by these additional parties shall be determined by EPA.

29. EPA intends to establish a CERCLA special account for the ACS site into which money received by this settlement in amounts in excess of past costs will be placed. EPA, in its unreviewable discretion and to the extent permitted by law, shall determine the use of funds in this account.

Civil Penalties

30. In addition to any other remedies or sanctions available to EPA, any Respondent who fails or refuses to comply with any term or condition of this Consent Order, except for paragraphs 25 through 28, shall be subject to a civil penalty of up to $25,000 per day for such failure or refusal pursuant to Section 122(l) of CERCLA, 42 U.S.C. § 9622(l).

Certification of Settling Respondents

31. Each Respondent certifies individually that, to the best of its knowledge and belief, it has conducted a thorough, comprehensive, good faith search for documents and has fully and accurately disclosed to EPA all information currently in its possession, or in the possession of its officers, directors, employees, contractors or agents, which relates in any way to the

ownership, operation, generation, treatment, transportation, storage or disposal of hazardous substances at or in connection with the Site. Each Respondent further certifies, individually, that it has not altered, mutilated, discarded, destroyed or otherwise disposed of any records, documents, or other information relating to its potential liability regarding the Site since notification of potential liability or the filing of a suit against Respondent regarding the Site and that it has fully complied with any and all EPA requests for information pursuant to Sections 104(e) and 122(e) of CERCLA, 42 U.S.C. §§ 9604(e) and 9622(e), and Section 3007 of the Resource Conservation and Recovery Act, as amended, 42 U.S.C. § 6927. Each Respondent further certifies that it has never owned or operated any portion of the Site for any purpose. Provision of false, fictitious, or fraudulent statements or representations to the United States may subject a Respondent to criminal penalties under 18 U.S.C. §1001.

Covenants Not to Sue by EPA and IDEM

32. Upon a Respondent's payment of the amount required in compliance with paragraph 26 or 27 of this Order and upon EPA's receipt of that amount as part of the sum to be paid EPA by the Trustee pursuant to paragraphs 25 through 27 of this Order, and except as specifically provided in paragraphs 33 through 35 of this Consent Order, EPA covenants not to sue or take any other judicial, civil, or administrative action against that Respondent for matters addressed in this Consent Order. Matters addressed shall include any and all civil liability for reimbursement of

response costs pursuant to Sections 106(a) and 107(a) of CERCLA, 42 U.S.C. §§ 9606(a), 9607(a), and Section 7003 of the Resource Conservation and Recovery Act, as amended 42 U.S.C. § 6973, relating to the Site for matters addressed by this Consent Order.

Upon a Respondent's payment of the amount required in compliance with paragraph 26 of this Order and upon IDEM's receipt of the amount specified in paragraph 26 of this Order, and except as specifically provided in paragraphs 32 through 34 of this Consent Order, IDEM covenants not to sue or to take any other judicial, civil, or administrative action against that Respondent pursuant to Section 107(a) of CERCLA, 42 U.S.C. § 9607(a), and applicable state statutory or common law, relating to the Site for matters addressed by this Consent Order.

These covenants not to sue shall take effect with respect to each Respondent upon receipt by EPA and IDEM of the payment required by paragraphs 25 through 27 of this Consent Order. With respect to each Respondent, these covenants not to sue are conditioned upon the complete and satisfactory performance by that Respondent of its obligation under this Consent Order. These covenants not to sue extend only to the Respondents and do not extend to any other person.

Reservation of Rights

33. The covenants not to sue set forth in Section VII, paragraph 32, of this Consent Order, do not pertain to any matters other than those expressly specified in paragraph 32. The United States, including EPA, and the State, including IDEM,

reserve, and this Consent Order is without prejudice to, all rights against the Respondents with respect to all other matters, including but not limited to the following:

(a) claims based on a failure to comply with any obligation established pursuant to this Consent Order;

(b) criminal liability; or

(c) liability for damages for injury to, destruction of, or loss of natural resources, or costs of response related thereto.

33. Notwithstanding any other provision in this Consent Order, the United States, including EPA, and the State, including IDEM, reserve, and this Consent Order is without prejudice to, the right to institute judicial proceedings or to issue an administrative order seeking to compel the Respondents, (1) to perform response actions relating to the Site, or (2) to reimburse the United States, including EPA, and the State, including IDEM, for additional costs of response, if information not contained in the administrative record for this settlement is discovered which indicates that any Respondent contributed hazardous substances to the Site in such greater amount or of such greater toxic or other hazardous effects that the Respondent no longer qualifies as a de minimis party at the Site because the Respondent contributed greater than 0.8% of the hazardous substances at the Site or contributed hazardous substances which are more toxic or are of greater hazardous effect than other hazardous substances at the Site.

34. Nothing in this Consent Order is intended as a release or covenant not to sue for any claim or cause of action, administrative or judicial, civil or criminal, past or future, in law or in equity, which the United States, including EPA, or the State, including IDEM, may have against any person, firm, corporation or other entity not a signatory to this Order.

Covenants by Respondents

35. Each Respondent covenants not to sue and agrees not to assert any claims or causes of action against the United States, the State, or their contractors or employees with respect to the Site or this Consent Order, including, but not limited to, any direct or indirect claim for reimbursement from the Hazardous Substance Superfund (established pursuant to the Internal Revenue Code, 26 U.S.C. § 9507) through Sections 106(b)(2), 111, 112, or 113 of CERCLA, 42 U.S.C. §§ 9606(b)(2), 9611, 9612, or 9613, or any other provision of law, or any claims arising out of response activities at the Site. Nothing in this Consent Order shall be deemed to constitute preauthorization of a claim within the meaning of Section 111 of CERCLA, 42 U.S.C. § 9611, or 40 C.F.R. 300.700(d).

Effect of Settlement; Contribution Protection

37. Nothing in this Consent Order shall be construed to create any rights in, or grant any cause of action to, any person not a party to this Consent Order. The preceding sentence shall not be construed to waive or nullify any rights that any person not a signatory to this Consent Order may have under applicable

law. The United States, including EPA, the State, including IDEM, and the Respondents each reserves any and all rights (including, but not limited to, any right to contribution), defenses, claims, demands, and causes of action which each party may have with respect to any matter, transaction, or occurrence relating in any way to the Site against any person not a party hereto.

38. EPA, IDEM, and the Respondents agree that the actions undertaken by the Respondents in accordance with this Consent Order do not constitute an admission of any liability by any Respondent. The Respondents do not admit, and retain the right to controvert in any subsequent proceedings other than proceedings to implement or enforce this Consent Order, the validity of the Statement of Facts or Determinations contained in this Consent Order.

39. With regard to claims for contribution against each Respondent for matters addressed by this Consent Order, the Parties hereto agree that each Respondent is entitled, as of the effective date of this Consent Order, to such protection from contribution actions or claims as is provided by Sections 113(f)(2) and 122(g)(5) of CERCLA, 42 U.S.C. §§ 9613(f)(2) and 9622(g)(5). Such protection with respect to each Respondent is conditioned upon that Respondent's having paid the amount required to the Trust Account in compliance with the terms of paragraph 26 or 27 of this Order and upon EPA's having received

that amount as part of the sum to be paid by the Trust Account pursuant to paragraphs 25 through 27 of this Order.

Public Comment

40. This Administrative Order on Consent shall be subject to at least a 30-day public comment period pursuant to Section 122(i) of CERCLA, 42 U.S.C. § 9622(i). The EPA may withdraw or modify its consent to this Consent Order if comments received disclose facts or considerations that indicate that this Consent Order is inappropriate, improper, or inadequate.

Attorney General Approval

41. The Attorney General or her designee has issued prior written approval of the settlement embodied in this Consent Order in accordance with Section 122(g)(4) of CERCLA, 42 U.S.C. § 9622(g)(4).

## Effective Date

42. The effective date of this Consent Order shall be the date upon which EPA issues written notice to the Respondents that the public comment period pursuant to paragraph 40 has closed and that comments received, if any, do not persuade EPA to modify or withdraw from this Consent Order.

IT IS SO AGREED AND ORDERED:

| TOTAL EPA UNRECOVERED COSTS FOR AMERICAN CHEMICAL SERVICE,IN | $ | 692,822.76 |

**Please Note:** National Contract Laboratory program costs may be significantly understated. These costs do not include any lab costs that may have been billed to EPA prior to FY 1986, if such costs were incurred, and no estimate of the CLP Sample Management Cost (ranges from 6.1 % to 17.0 % of Analytical costs) is provided. A complete accounting of Contract Laboratory Costs normally is provided by VIAR within the documentation process.

This summary does not include Department of Justice costs. Those costs will be documented separately by the Department of Justice.

PLUS estimated costs of response from end of reporting period noted above through final review and disposition of proposed de minimis settlement

5,000.0

FINAL TOTAL 10,246.6

APPENDIX 4

PAYMENT FORMULA AND DATABASE

Site cost calculations considered all costs of response at the Site incurred and to be incurred by any person. Past costs are $3,029,953, which include both U.S. EPA's past costs already incurred through January 31, 1994, projected costs of United States through the settlement date, past costs of the state of Indiana, and estimated costs by PRPs for RI/FS work. Estimated future costs for the Site are $69,775,360. A premium of 100% (represented by a multiplier of 2.0) is included against the estimated future costs at the Site. This premium takes into account the possibility of cost overruns, possible future costs if the remedial action selected in the ROD is not protective of public health or the environment, and the fact that not all parties who sent hazardous wastes to the site remain viable to contribute to this settlement (these parties are sometimes referred to as the "orphan share.") Site costs (including premium) may be represented as follows:

Site costs = (future costs x 2.0) + past costs

$142,540,673 = ($69,775,360 x 2.0) + $3,029,953

The settlement payment amount for each de minimis party (PRP), as listed herein, is calculated by multiplying the percentage of hazardous wastes sent by that party to the site by the total site costs listed above. In addition, certain PRPs have previously participated in the cleanup of the site as signatories to an administrative order on consent (AOC) to conduct the remedial investigation and feasibility study (RI/FS) for the site, U.S. EPA docket No. V-W-88-C-113. PRPs may deduct amounts equal to 71.6% of the amount they paid to participate in the AOC. This is the estimated share of RI/FS costs incurred by the PRPs which may be considered superfund response costs. In order to claim this reduction from the payment amount listed in this Appendix 4, a copy of the canceled check(s) documenting the payment(s) and a signed certification of the payment amount(s) must be included with both the submittal of the signature page and payment required to participate in this settlement. The formula for payment in this de minimis settlement is thus represented as follows:

Payment amount
for each PRP = ($142,540,673 x percentage of hazardous wastes sent to the site by that PRP) - 71.6% of the documented payment required by AOC No. V-W-88-C-113.

In the event that the de minimis calculation results in a figure less than $500.00, the de minimis settlor's financial contribution shall be $500.00.

This de minimis settlement is available to those PRPs whose volumetric contribution to the site does not exceed .8% of the total volume of hazardous wastes sent to the site.

In calculating each PRP's percentage share, EPA considered the changing disposal practices at the site and reduced each PRPs gross volume of waste sent to the site based on the time period the waste was sent to the site. The gross volume of waste sent to the site by each PRP between 1955 - 1975 was reduced by 80% for all waste reclaimed by American Chemical Service (ACS) and 90% for all waste incinerated during this time period. During this time period, the percentage reductions were calculated as follows:

| | | | % Reclaimed | %Incinerated |
|---|---|---|---|---|
| 1955 | - | 5/31/66 | 100% | 0% |
| 6/1/66 | - | 12/31/67 | 50% | 50% |
| 1/1/68 | - | 12/31/68 | 35% | 65% |
| 1/1/69 | - | 12/31/69 | 25% | 75% |
| 1/1/70 | - | 12/31/70 | 10% | 90% |
| 1/1/71 | - | 12/31/71 | 5% | 95% |
| 1/1/72 | - | 12/31/75 | 0% | 100% |

The 80% and 90% reductions and the average percentage of reclaimation and incineration during the above time periods were initially recommended to EPA by Clean Sites, Inc., a neutral party who evaluated site information in creating a database in 1987. During this time period, ACS directly landfilled hazardous wastes at the site.

The gross volume of waste sent to the site by each PRP between 1976 and November 10, 1980, was reduced 96% to account for changes in disposal practices during this time period. During this time period, ACS apparently stopped directly landfilling wastes at the site, but adjacent drum cleaning operations continued to dispose of hazardous waste at the site. The gross volume of waste sent to the site between November 11, 1980, and 1990 was reduced by 99% to account for changes in disposal practices during this time period. During this time period, spills of hazardous wastes continued to occur at the site, but fewer spills are believed to have occurred during this time period than during the prior time periods. These reductions in the gross volume of waste sent to the site are for de minimis settlement purposes only and are not to be construed as a limitation on the liability of any PRP at the site.

* ANV - These generators appear not viable and unable to participate in an American Chemical Services Site settlement. They have sent waste to the site but have not been assigned a percent ranking because their volumes are not included in the total site volume. If these parties are later found to be viable, they may request a settlement with EPA.

** BS - This party partitioned for bankruptcy and pursuant to its bankruptcy settlement with EPA it has resolved its liability at the ACS Site. The total past costs at the site have been reduced by the amount paid by this company.

Re: American Chemical Service Superfund Site
Griffith, Indiana

Dear Sir or Madam:

The United States Environmental Protection Agency ("EPA") is currently involved in cleaning up the American Chemical Service ("ACS") facility, which is a Superfund site located in Lake County, Griffith, Indiana. Superfund is a federal program administered by EPA pursuant to federal law that is designed to clean up hazardous substances ("waste") which pose a threat to human health or the environment. (The full name of the Superfund law is the Comprehensive Environmental Response, Compensation, and Liability Act, or "CERCLA.")

Under the Superfund law, EPA has the authority to take actions at a site, such as the ACS site, to protect public health, welfare, and the environment. Attached is the Declaration for the Record of Decision, a document which summarizes the cleanup decision made by EPA for this site. In addition, this law permits EPA to request that parties who are responsible for the waste at the site pay to clean up the site.

EPA is sending you this information because you are potentially responsible for contributing a small percentage of the total amount of waste sent to the site. EPA has based this determination on a review of business records obtained from the site, hazardous waste manifests, and information received from individuals like yourself requested by EPA.

Example of documentation mailed for di minimus settlement with invitation to 1:00 p.m. meeting

ER
9/9/94

Printed on Recycled Paper

## Potentially Responsible Parties

Parties who may be responsible for the waste at Superfund sites are referred to as "potentially responsible parties" or "PRPs." PRPs include individuals, businesses, governmental agencies, and other types of organizations. You may be a PRP if you are:

1) a current owner or operator of the site;
2) a former owner or operator of the site during the period of waste disposal;
3) a party that arranged for the treatment, disposal, or transportation of hazardous substances to the site; or
4) a party that transported hazardous substances to a site you selected.

## "De Minimis" Settlements

Because EPA believes you may have contributed a small amount of waste in comparison to the total amount of waste at the site, you are considered a "de minimis" PRP. Under Superfund, EPA may offer special settlements to de minimis PRPs; these de minimis settlements provide many benefits to PRPs. A de minimis settlement provides the following kinds of treatment for a PRP:

1. **Covenant Not to Sue** - This provision is a promise that EPA will not bring any future legal actions against you regarding the site and the specific matters addressed in the settlement.

2. **Contribution Protection** - This provision offers you protection from being sued by other PRPs at the site. Frequently, major waste contributors will sue small waste contributors to recover cleanup costs. A de minimis settlement provides protection from such suits that extends to all issues covered by the settlement.

The amount a de minimis settlor may pay as part of the settlement varies from site to site. In general, the payment amount is the sum of a basic payment and a premium payment. The basic payment is calculated using the estimated cost to clean up the site and the amount of the de minimis party's waste (as a percentage of the total waste at the site). The premium payment varies according to a variety of factors specific to both the site and the settlement.

In total, contribution protection, the covenant not to sue, and other de minimis settlement terms can provide you with a high level of certainty that your legal obligation at a site is discharged and that you are protected from future legal actions related to the matters addressed in the settlement. To date, nearly 5000 individuals, small businesses, and others have

entered into de minimis settlements with EPA to resolve their Superfund liability at over 65 sites across the country.

## OFFER OF DE MINIMIS SETTLEMENT

Section 122(g) of CERCLA, 42 U.S.C. § 9622(g), allows EPA, in its discretion, to enter into de minimis settlements that are practicable, in the public interest, and involve only a minor portion of the response costs at a facility. Under this section, EPA may settle with de minimis PRPs who contributed hazardous substances to a facility where the amount and toxicity of the hazardous substances contributed by each party is minimal in comparison to other hazardous substances at the facility.

EPA is offering a de minimis settlement to you via the Administrative Order on Consent attached to this letter. As a de minimis party, you may resolve your liability to the United States upon execution (signing and returning the signature page to EPA) of the order and payment of the appropriate amount indicated in Appendix 4 of the Administrative Order on Consent.

EPA has determined that the amounts in Appendix 4 to be paid by settling de minimis parties represent their proportionate share, based on the volume of wastes contributed to the site, the total cost of remediation at the site, plus a premium to address the risk of underestimating response costs and of not recovering 100 percent of EPA's outstanding costs from parties not eligible for or not joining the de minimis settlement.

It is your obligation to demonstrate that you qualify as a de minimis party. Therefore, if you sign the Administrative Order on Consent, you are certifying to the United States that you qualify as a de minimis PRP. EPA retains the right to re-open the issue of your liability in the event information is discovered which indicates that you or your organization actually contributed waste that is significantly more toxic, or of significantly greater volume, than you certify to EPA in this Order.

## PRP RESPONSE AND EPA CONTACT

You should notify EPA by July 22, 1994, if you are willing to participate in the settlement for this site. If you decide to participate, you must sign the signature page (page 22) of the enclosed Administrative Order on Consent and return it to EPA no later than close of business (5:00 p.m. C.T.) on July 22, 1994. DO NOT SEND ANY MONEY AT THIS TIME. Your executed signature page

should be sent to the following address:

Steven Siegel (CS-3T)
Assistant Regional Counsel
U.S. EPA
77 West Jackson Blvd.
Chicago, Illinois 60604.

If you wish to participate in this settlement, but contest the volume of waste attributed to you by EPA, you must notify EPA. EPA will consider adjusting its database in cases where written documentation is provided demonstrating that the volume of waste you contributed to the site, as described in Appendix 4, is clearly erroneous. A volumetric challenge, including complete written documentation supporting the challenge, must be received by EPA no later than July 15, 1994. If you decide to challenge the volumetric contribution and still participate in this settlement, your executed signature page must be returned to EPA at the above address no later than the close of business 10 days after receiving notice by EPA of the results of your volumetric challenge.

If you wish to participate in this settlement, but claim you are unable to make the payment amount required in appendix 4 of the enclosed administrative order on consent, you may submit an ability to pay claim to EPA. In your claim, you must identify your name and ranking number in appendix 4. In addition, you must include, at a minimum: (1) your most recent three years of tax returns; (2) your most recent three years of financial statements (if available); (3) the applicable portions of the enclosed Individual Financial Data Request Form must be completed; and (4) you must include a statement of the maximum amount you are financially able to pay to resolve your liability. All ability to pay claims must be submitted to EPA no later than July 15, 1994. If you decide to participate in this settlement, your executed signature page must be returned to EPA no later than the close of business 10 days after receiving notice by EPA of the results of your ability to pay claim.

## Information about the Site

EPA encourages you to become familiar with the site. To assist you in this effort, EPA has scheduled a meeting to discuss the Site and this de minimis settlement proposal. The meeting will be held on June 28, 1994 at 1:00 p.m. at the State of Illinois/Suburban North Regional Office, 9511 West Harrison Street, Des Plaines, Illinois. Directions to the meeting place are attached to this letter. Representatives of EPA will attempt to answer all questions regarding this settlement at the meeting. In addition, for parties who conducted business at the site

between 1980 and 1990, EPA will provide copies of these transactions at the meeting at no charge to you.

Because of the large number of parties involved at this site, we encourage you to ask your questions at this meeting rather than contacting EPA by telephone. However, if you are unable to attend the meeting, you may call toll free 1-800-890-4219 and an EPA representative will return your call.

Sincerely,

for Jo Lynn Traub
Acting Associate Director
Waste Management Division

# DECLARATION FOR THE RECORD OF DECISION

## SITE NAME AND LOCATION

American Chemical Services
Griffith, Indiana

## STATEMENT OF BASIS AND PURPOSE

This decision document represents the selected remedial action for the American Chemical Services (ACS) site located in Griffith, Indiana. This action was chosen in accordance with the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA), as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA), and to the extent practicable, with the National Oil and Hazardous Substances Contingency Plan (NCP). This decision is based on the Administrative Record for this site.

The State of Indiana concurs with the selected remedy.

## ASSESSMENT OF THE SITE

Actual or threatened releases of hazardous substances from the site, if not addressed by implementing the response action selected in this Record of Decision (ROD), may present an imminent and substantial endangerment to public health, welfare, or the environment.

## DESCRIPTION OF THE REMEDY

The major components of the selected remedy include:

- Ground water pumping and treatment system to dewater the site and to contain the contaminant plume with subsequent discharge of the treated ground water to surface water and wetlands;

- Excavation of approximately 400 drums in the On-site Containment Area for offsite incineration;

- Excavation of buried waste materials and treatment by low-temperature thermal treatment (LTTT);

- On-site treatment or off-site disposal of treatment condensate;

- Vapor emission control during excavation and possible immobilization of inorganic contaminants after LTTT;

- Off-site disposal of miscellaneous debris;

- In-situ vapor extraction pilot study of buried waste in On-site Area;

- In-situ vapor extraction of contaminated soils;
- Continued evaluation and monitoring of wetlands and, if necessary, remediation;
- Long term ground water monitoring;
- Fencing the site and possible implementation of deed and access restrictions and deed notices; and
- Private well sampling with possible well closures or ground water use advisories.

**STATUTORY DETERMINATIONS**

The selected remedy is protective of human health and the environment, complies with Federal and State requirements that are legally applicable or relevant and appropriate to the remedial action, and is cost-effective. This remedy utilizes permanent solutions and alternative treatment technologies to the maximum extent practicable and satisfies the statutory preference for remedies which employ treatment that reduces toxicity, mobility, or volume as a principal element.

Because this remedy may result in hazardous substances remaining on-site above health-based levels, a review will be conducted at least every five years after commencement of the remedial action to ensure that the remedy continues to provide adequate protection of human health and the environment.

THE ATTACHED INDIVIDUAL FINANCIAL DATA REQUEST FORM MUST ONLY BE COMPLETED BY PARTIES WHO CLAIM AN INABILITY TO PAY THE SETTLEMENT AMOUNT LISTED IN APPENDIX 4 OF THE ADMINISTRATIVE ORDER ON CONSENT.

PARTIES CLAIMING AN INABILITY TO PAY THE SETTLEMENT AMOUNT MUST ALSO FOLLOW THE INSTRUCTIONS FOR FILING AN INABILITY TO PAY CLAIM ON PAGE 4 OF THE ATTACHED LETTER.

## Individual Financial Data Request Form

This form requests information regarding your personal financial status. The data will be used to evaluate your ability to pay for environmental clean-up or penalties. If there is not enough space for your answers, please use additional sheets of paper. Note that we may request further documentation of any of your responses. We welcome any other information you wish to provide supporting your case, particularly if you feel your situation is not adequately described through the information requested here.

### Certification

I declare that this statement of assets, liabilities, and other information is true, correct, and complete to the best of my knowledge and belief.

## PART IV. ADDITIONAL INFORMATION

Please respond to the following questions. For any question that you answer "Yes," please provide additional information on separate pages or at the bottom of this page.

| QUESTION | YES | NO |
|---|---|---|
| 1. Do you have any reason to believe that your financial situation will change during the next year? | | |
| 2. Are you currently selling or purchasing any real estate? | | |
| 3. Are you involved or affiliated with any other sole proprietorships, partertships or corporations? | | |
| 4. Is anyone (or any entity) holding real or personal property on your behalf (e.g., a trust)? | | |
| 5. Are you a party in any pending lawsuit? | | |
| 6. Have any of your belongings been repossessed in the last three years? | | |
| 7. Are you a Trustee, Executor, or Administrator? | | |
| 8. Are you a participant or beneficiary of an estate or profit sharing plan? | | |
| 9. Have you declared bankruptcy in the last seven years? | | |
| 10. Do you receive any type of federal aid or public assistance? | | |

# AMERICAN CHEMICAL SERVICES SITE
# *DE MINIMIS* SETTLEMENT TRUST FUND AGREEMENT

THIS AGREEMENT is made between and among the "Respondents," as defined in Article II hereof, and American National Bank and Trust Company of Chicago, as Trustee, 33 North LaSalle Street, Chicago, Cook County, Illinois 60690 ("Trustee"). The Trustee shall hold and dispose of the property to be conveyed to the trust and any other property added to the trust ("Trust Property") as follows:

## Article I.
## RECITALS

WHEREAS, the Respondents have executed an Administrative Order on Consent ("Administrative Order") issued by the United States Environmental Protection Agency ("U.S. EPA") to resolve each Respondent's potential liability for response costs at the American Chemical Services (ACS) Superfund Site, located in Griffith, Indiana, the potential liability of each Respondent being as defined in the Administrative Order as *de minimis*; and

WHEREAS, by executing the Administrative Order to settle *de minimis* potential liability at the ACS Site, each Respondent is required to make a payment to a Settlement Trust Fund pursuant to paragraphs 25 and either 26 or 27 of the Administrative Order; and

WHEREAS, this Agreement provides for the creation of a Settlement Trust Fund by Respondents established exclusively to receive and administer funds to be paid by Respondents under the terms of the Administrative Order, and to make payments to U.S. EPA and the Indiana Department of Environmental Management ("IDEM") pursuant to paragraphs 26 and 27 of the Administrative Order; and

WHEREAS, the Respondents desire that all funds delivered to the Trustee for deposit in this Settlement Trust Fund, and all investments and reinvestment thereof and all substitutions therefor shall be held for the uses and purposes and upon the terms and conditions hereinafter set forth:

NOW, THEREFORE, in consideration of the promises and mutual covenants herein contained, the parties hereto agree as follows:

## Article II.
## DEFINITIONS

1. All terms defined in the Administrative Order shall have the same meanings in this Agreement. As used in this Agreement:

A. "Site," shall mean the American Chemical Services Site located in Griffith, Indiana, and shall have the meaning assigned to the term "Site" in the Administrative Order.

B. "Administrative Order" shall mean the Administrative Order on Consent issued by U.S. EPA under the authority of both the U.S. EPA and IDEM as set forth in paragraph 1 of the Administrative Order and concurred with by the U.S. Department of Justice, pursuant to section 122(g)(4) of the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA"), 42 U.S.C. § 9622(g)(4), and signed by each Respondent. The Administrative Order resolves each Respondent's potential liability for response costs at the Site, the potential liability of each Respondent being as defined in the Administrative Order as *de minimis*.

C. "Contact Persons" are the three members of the Liaison Trust Committee who are responsible for providing written directions to the Trustee for the distribution of Trust Property as described herein.

D. "Liaison Trust Committee" shall mean the committee acting on behalf of the Respondents, having the authority to direct, supervise and authorize the Trustee's activities pursuant to Article VIII. herein.

E. "*Pro Rata*" shall mean the percentage share assigned to each Respondent by U.S. EPA on Appendix 4 to the Administrative Order including any adjustments made to Appendix 4 by U.S. EPA.

F. "Respondents" shall mean those parties who have timely executed the Administrative Order, as set forth in paragraph 4.E. thereof, and are thereby obligated to make payments to the Settlement Trust Fund pursuant to paragraph 25 and either 26 or 27 thereof.

G. "Settlement Trust Fund" shall mean the trust established under this Agreement to satisfy the requirements for the creation and maintenance of such a trust under the terms of the Administrative Order.

H. "Trustee" shall mean American National Bank and Trust Company of Chicago or any successor who is acting as Trustee.

I. "Trust Expenses" shall mean all expenses of administering the Settlement Trust Fund including, but not limited to the Trustee's fees and expenses, legal fees and expenses, consulting fees, accounting fees and taxes, and the Liaison Trust Committee's expenses relating to entering the Administrative Order and creating and administering the Settlement Trust Fund and this Agreement, as approved by the Liaison Trust Committee.

## Article III.
## TRUST PURPOSE

1. This Settlement Trust Fund is established and shall be maintained exclusively for the following purposes:

A. Receiving payments from Respondents pursuant to paragraphs 26 and 27 of the Administrative Order so that participation in the *de minimis* settlement embodied in the Administrative Order may be perfected by each Respondent by making the necessary payments set out in Attachment 4 to the Administrative Order;

B. Making payments to U.S. EPA and IDEM from the Settlement Trust Fund pursuant to paragraphs 26 and 27 of the Administrative Order; and

C. Providing funds for payment of Trust Expenses, including, but not limited to legal fees and expenses incurred in creating and administering the Settlement Trust Fund.

## Article IV.
## CONTRIBUTIONS TO TRUST FUND

1. **Settlement Payments.** Each Respondent shall transfer to the Trustee the amount required to be paid by such Respondent as set forth in Attachment 4 to the Administrative Order and under the terms and conditions applying to such payments as contained in the Administrative Order.

2. **Payments Satisfy Claims.** Contributions to the Settlement Trust Fund provided for in this Agreement and any payments made to the United States and the State of Indiana shall be construed as payments made in settlement of claims which could be made against the Respondents for their alleged involvement with the Site. Such contributions are not payments of fines, penalties or monetary sanctions or payments in settlement of an actual or potential fine, penalty or monetary sanction, nor are the contributions payments of amounts forfeited as collateral posted in connection with a proceeding which could result in imposition of such a fine, penalty or monetary sanction. By making payments to the Settlement Trust

Fund established herein, Respondents do not admit, accept or intend to acknowledge any liability or fault with respect to any matter arising out of or relating to the Site. Likewise, the Agreement does not constitute a commitment or agreement, either express or implied, by any or all of the Respondents to undertake any obligations except those contained in the Administrative Order.

3. **Assessments.** The Liaison Trust Committee may issue one or more *pro rata* assessments for payment of Indemnifiable Matters that may be tendered to the Committee by the Trustee pursuant to Article VII., or for indemnity claims of Contact Persons or the Liaison Trust Committee under Article VIII. below.

## Article V.
## DISTRIBUTIONS FROM TRUST FUND

1. **Accounting For Principal and Income Separately.** Principal and income are to be accounted for separately during the entire term of the Settlement Trust Fund.

2. **Written Approval Required.** All disbursements under this Article V. must be approved in writing by the Contact Persons for the Liaison Trust Committee consistent with the provisions of Article VIII.2. of this Agreement. The Contact Persons and the Liaison Trust Committee shall only approve payments for services and expenses that are consistent with the Administrative Order and this Agreement.

3. **Disbursements Paid From Income.** The Trustee shall pay from trust income all bills, invoices and expenses of the Trustee, followed by all other Trust Expenses duly approved by the Contact Persons. The Trustee shall, to the extent sufficient income funds are on deposit under this Agreement, pay such approved Trust Expenses within fifteen (15) days from the receipt of such written approval. Trustee shall notify the Contact Persons promptly in writing if insufficient income is available to pay Trust Expenses and, thereafter, the Liaison Trust Committee will take all necessary and appropriate action to see that necessary funds are provided to the Trustee to satisfy all Trust Expenses, and such action may include issuing an assessment to the Respondents pursuant to Article VIII.4. herein.

4. **Principal Paid to U.S. EPA and IDEM.** Upon written instruction from the Contact Persons for the Liaison Trust Committee, the Trustee shall pay, solely from principal funds in the Settlement Trust Fund, the sum of $46,190.86 to IDEM, and the balance of the principal funds to U.S. EPA, consistent with paragraphs 26 and 27 of the Administrative Order.

5. **Payments of Excess Income.** Upon written notification from the Contact Persons for the Liaison Trust Committee, the Trustee shall pay to U.S. EPA solely from income, so much of the income of the Settlement Trust Fund that the Liaison Trust Committee determines will not be required to pay existing or anticipated Trust Expenses. Any income not so paid shall be segregated into a separate income accumulation account.

6. **No Recovery From the Settlement Trust Fund.** Each Respondent acknowledges that although it has contributed funds to the Settlement Trust Fund as provided on Attachment 4 to the Administrative Order, it will not have a right to recover income or any form of distribution from the Settlement Trust Fund.

7. **Termination.** After distribution of all principal of the Settlement Trust Fund pursuant to Article V.4. above, and payment of all outstanding Trust Expenses pursuant to Article V.3. above, and after a final accounting from the Trustee pursuant to Article VI.2. herein, any remaining accrued income in the trust shall be distributed to U.S. EPA upon receipt of written direction signed by two Contact Persons only after a majority vote of the Liaison Trust Committee, to the Trustee. Thereafter, Trustee shall take all necessary and appropriate action to terminate the trust.

## Article VI.
## TRUSTEE OBLIGATIONS AND POWERS

1. **Powers and Obligations of the Trustee.** The Trustee shall ensure that the payments from the Settlement Trust Fund are strictly for the implementation of the Administrative Order or this Agreement. In the event of any conflict between the terms of this Agreement and the Administrative Order, the terms of the Administrative Order shall prevail. This Agreement shall not be construed to confer upon the Trustee any authority to carry on any business activity for profit or to divide the gains therefrom among the Respondents. Other than the responsibilities of the Trustee expressly set forth herein, the Trustee shall have no obligations in connection with this Agreement or the Settlement Trust Fund, and no implied duties or obligations shall be read into this Agreement against the Trustee.

2. **Accounting.** The Trustee shall keep an accounting of all trust property, including principal,income, expenses and distributions which shall be available for examination by the Respondents and such accounting shall maintain principal and income separately pursuant to Article V.1. herein. The Trustee may impose reasonable regulations for the inspection of such information. The accounting shall state the date and amount of funds received from and to be credited to each Respondent and all charges against the

Settlement Trust Fund for fees, expenses and other disbursements. The Trustee shall furnish to the Contact Persons such accounting on a monthly basis unless directed to do otherwise by the Committee. After payments of principal are made pursuant to Article V.4. herein, the Trustee will provide the Contact Persons with an accounting to guide the distribution of funds for trust termination pursuant to Article V.7. herein, and at termination, the Trustee shall deliver a final accounting to the Contact Persons.

3. **Investment.** In the administration of the Settlement Trust Fund, the Trustee shall have all powers and authority necessary to invest and reinvest the principal and income in an interest-bearing money market fund consisting primarily of U.S. Treasury obligations issued by the U.S. Government, its agencies or instrumentalities, fully guaranteed as to principal and interest by the United States. The Trustee shall have the power to protect and conserve the trust property, and the Trustee shall have the power to make, execute, acknowledge and deliver any contracts or agreements the Trustee deems necessary to effectuate the purpose of the Administrative Order and this Agreement upon approval by the Liaison Trust Committee.

4. **Trustee Compensation.** The amount of the Trustee's compensation shall be governed by Appendix 1 attached hereto. No individual Respondent has any obligation to pay Trust Expenses or Trustee compensation by virtue of having made its contribution to the Settlement Trust Fund pursuant to the terms of the Administrative Order. The Trustee's compensation will be paid consistent with the provisions of Article V.3. herein.

5. **Trust Expenses and Taxes.** The Trustee shall have the power to pay any and all charges and expenses incurred by the Trustee to discharge its obligations under this Agreement, including without limitation, the payment of taxes imposed on the Settlement Trust Fund, and approved Trust Expenses. The Trustee shall prepare and file any tax returns for the trust, and any other tax related documents required under federal, state and local laws. Each Respondent shall be responsible for taxes, if any, imposed upon the Respondent as a result of the creation, existence, or operation of this trust, including but not limited to all taxes, penalties and interest thereon.

6. **Bond Liability.** The Trustee shall not: (1) be required to furnish any bond or surety; (2) be required to expend or risk its own funds or otherwise incur any financial liability unless it first shall have been indemnified to its satisfaction against the cost, expense or liability which may be incurred thereby; or (3) be held responsible for any loss sustained to the trust funds through any error or judgment made in good faith. The Trustee shall have

no responsibility for the genuineness or validity of any document or other item deposited with it, and it shall be fully protected in acting in accordance with any written instructions given to it hereunder and believed by the Trustee to be properly given.

7. **Removal.** The Trustee may be removed and replaced with or without cause by written notice signed by two Contact Persons only after a majority vote of the Liaison Trust Committee, and delivered to the Trustee, in which a successor Trustee is designated, or the Trustee may resign upon thirty (30) days notice, in which event the Liaison Trust Committee shall designate a successor Trustee; provided, however, that the removal or resignation of the Trustee shall not become effective until the successor Trustee has accepted its office. If a successor Trustee shall not have accepted its appointment within thirty (30) days of a removal or resignation of the current Trustee, the Trustee may apply to a court of competent jurisdiction to appoint a successor Trustee to act until such time, if any, as a successor shall have so accepted its appointment. The costs, fees and expenses related to such application to any court shall be paid as provided in Article V.3. herein.

## Article VII.
## INDEMNIFICATION

1. **Indemnity.** The Respondents hereby agree to indemnify and hold harmless the Trustee, its directors, officers, employees and agents, against any and all losses, claims, damages, liabilities and expenses, including reasonable costs of investigation, attorneys' fees and disbursements, which may be imposed upon or incurred by the Trustee in the performance of its duties hereunder, unless the Trustee's performance of its duties constitutes negligence, gross negligence or willful misconduct (any matter for which indemnification is required is hereinafter referred to as an "Indemnifiable Matter"). The preceding sentence shall apply, without limitation, to any litigation arising from this Agreement or involving the subject matter hereof or the Trust Property.

2. **Indemnity Claims.** In the event a claim is made against the Trustee, its directors, officers, employees or agents which, in the opinion of the Trustee, is an Indemnifiable Matter, the Trustee shall promptly notify the Contact Persons in writing. The Liaison Trust Committee shall in turn promptly advise the Trustee whether it agrees that an Indemnifiable Matter is involved and, if so, whether and/or to what extent such claim should be paid to the third party. If the Liaison Trust Committee is of the opinion that an Indemnifiable Matter is not involved, it shall promptly so notify the Trustee. To the extent the Committee agrees that an Indemnifiable Matter is involved, but that the claim by the third party should not be paid, it may designate counsel to represent the

Trustee in defending against the claim, and, if the Committee should fail to do so or if such counsel is not acceptable to the Trustee, the Trustee shall designate counsel, which counsel must then be approved by the Liaison Trust Committee, which approval shall not be unreasonably withheld. In either event the Respondents shall bear all reasonable costs of the defense of the Indemnifiable Matter, including but not limited to attorneys' fees, expenses and court costs, in addition to any judgment rendered against the Trustee, its directors, officers, employees or agents. To the extent the Committee agrees that the claim is an Indemnifiable Matter and should be paid, it shall promptly so notify the Trustee and the Respondents, and the Respondents shall tender to the Trustee the amount to be paid in accordance with Article VIII.4.

## Article VIII.
## LIAISON TRUST COMMITTEE

1. **Liaison Trust Committee.** The Liaison Trust Committee is a voluntary association of certain Respondents and the Committee shall meet via teleconference or in person with sufficient regularity to address any and all issues relative to the maintenance and administration of the Settlement Trust Fund. Nothing in this Agreement shall be construed to create an attorney-client relationship between Respondents and any member of the Liaison Trust Committee. A current list of Liaison Trust Committee members shall be maintained by Ben L. Pfefferle, III, Esq., or his successor, and shall be made available to the Trustee at any time upon request. The Liaison Trust Committee shall have at least five (5) members at all times. A list of members of the Liaison Trust Committee as of the date of execution by the Trustee is attached as Appendix 2.

2. **Contact Persons.** The three individuals listed herein as Liaison Trust Committee members that must receive written notice under Article XIV. of this Agreement are each Contact Persons and are empowered to give written directions to the Trustee to make distributions as set forth herein. The Trustee shall be notified in writing pursuant to Article XIV. of any changes to the designated Contact Persons.

A. **Approval of Trust Expense Distributions.** All disbursements for Trust Expenses pursuant to Article V. must be approved in writing by any two Contact Persons, except that no Contact Person may review or approve the invoices or bills of him(her)self, his or her firm, or any Respondent whom he or she represents.

B. **Approval of Principal Distributions.** For distribution of principal pursuant to Article V.4. herein or for any other purpose consistent with this Agreement, the written approval of two Contact Persons given only after a majority vote of the Liaison Trust Committee, must be provided to the Trustee.

3. **Indemnification of Contact Persons and Liaison Trust Committee Members.** Each Respondent agrees, by execution of this Agreement, to defend, indemnify and hold harmless each Contact Person and member of the Liaison Trust Committee from any loss, damage, cost or liability of any kind whatsoever, including but not limited to reasonable attorneys fees, and costs for his or her defense, resulting from directions given by him or her to the Trustee if such directions were authorized by the Liaison Trust Committee, or otherwise involving Liaison Trust Committee members as a result of their service under this Agreement, or any action affecting the Trust Property. The Respondents further agree that the indemnity will be satisfied first from the Settlement Trust Fund income, and then thereafter from the Respondents following an assessment issued by the Liaison Trust Committee.

4. **Indemnity Assessments.** If the Liaison Trust Committee determines that an Indemnifiable Matter should be paid pursuant to Article VII. herein, or that a Contact Person or Persons, or a Member or Members of the Liaison Trust Committee have valid claims for indemnity pursuant to Article VIII.3. herein, then the Liaison Trust Committee shall have the authority to issue a *pro rata* assessment to the Respondents in the amount necessary to satisfy the Indemnifiable Matter or indemnity claim, except that the income of the Settlement Trust Fund must first be used to satisfy the Indemnifiable Matter to the greatest extent possible before any assessment can be made.

## Article IX.
## TIME OF TERMINATION OF TRUST

This Trust shall terminate upon the later of the Trustee's receipt of written notice of termination from the Liaison Trust Committee or distribution of all Settlement Trust Fund Property pursuant to Article V. hereof. In no event, however, shall this Trust continue for a period in excess of two (2) years from the date of execution of this Agreement, consistent with the short-term nature of the trust purposes stated herein. This Agreement may be modified to extend the life of the Settlement Trust Fund pursuant to Article XI. below.

## Article X.
## SEVERABILITY

If any section of this agreement or portion thereof shall be adjudged illegal, invalid, or unenforceable, such illegality, invalidity, or unenforceability shall not affect the legality, validity, or enforceability of this Agreement, as a whole, or of any other section or portion thereof not so adjudged.

## Article XI.
## MODIFICATION

This Agreement may be amended, altered, or modified upon majority vote of the Liaison Trust Committee and by written notification executed by the Contact Persons and the Trustee, except that all such amendments, alterations or modifications shall not be inconsistent with the terms of the Administrative Order. The Liaison Trust Committee may substitute Contact Persons at any time and such substitution shall be effective upon receipt of written notification of the substitution by the Trustee.

## Article XII.
## APPLICABLE LAW

This Agreement shall be governed by and interpreted under the internal laws of the State of Illinois, without regard to principles of Conflicts of Laws.

## Article XIII.
## COVENANT

The provisions hereof shall be binding upon the Respondents and the Trustee, their successors and assigns in interest, and all persons, subsidiaries, and corporations acting for or on behalf of the parties named herein.

## Article XIV.
## NOTICE

Any correspondence or notices required hereunder shall be given in writing by facsimile, telex, telegraph, by hand delivery or by certified or registered mail, return receipt requested, which shall be delivered or mailed to the parties at the addresses below:

**Trustee Compensation Schedule**

Annual Fee:

Base Annual Charge

$2,000.00 per million or fraction thereof on the first $1,000,000 of deposits (minimum)

$400.00 per million or fraction thereof on the next $9,000,000 of deposits

$100.00 per million or fraction thereof on the excess over $10,000,000

The annual fee is billed in advance and payable prior to that years service.

Tax Reporting: $500.00

Any out-of-pocket expenses, or extraordinary fees or expenses such as attorneys fees or messenger costs, are additional and are not included in the above schedule.

S. EPA Docket No.<br><br>ADMINISTRATIVE ORDER ON CONSENT |

ADMINISTRATIVE ORDER ON CONSENT

## I. JURISDICTION

1. This Administrative Order on Consent ("Consent Order") is issued pursuant to the authority vested in the President of the United States by Section 122(g)(4) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended by the Superfund Amendments and Reauthorization Act of 1986 ("CERCLA"), Pub. L. No. 99-499, 42 U.S.C. § 9622(g)(4), to reach settlements in actions under Section 106(a) or 107(a) of CERCLA, 42 U.S.C. § 9606(a) or § 9607(a). The authority vested in the President has been delegated to the Administrator of the United States Environmental Protection Agency ("EPA") by Executive Order 12580, 52 Fed. Reg. 2923 (Jan. 29, 1987), and further delegated to the Regional Administrators of the EPA by EPA Delegation No. 14-14-E (issued Sept. 13, 1987, amended by memorandum June 17, 1988). This Consent Order is also issued pursuant to the authority vested in the Indiana Department of Environmental Management ("IDEM") by the Indiana Environmental Management Act, Ind. Code § 13-7-1-1 et seq.

2. Each Respondent agrees to undertake all actions required by the terms and conditions of this Consent Order. This Consent Order was executed by the EPA, IDEM, and the Respondents in good faith to avoid the expense and delay of litigation over the matters addressed by this Consent Order. Each Respondent further consents to and will not contest the jurisdiction of EPA

or IDEM to issue this Consent Order or to implement or enforce its terms.

3. The EPA, IDEM, and the Respondents agree and intend that the participation of the Respondents in this Order shall not be considered an admission of liability and shall not be admissible as evidence against the Respondents in any judicial or administrative proceeding other than a proceeding by the United States to enforce this Order or a judgment relating to it. Further, the Respondents do not admit and do retain the right to controvert in any subsequent proceedings, other than proceedings to implement or enforce this Consent Order, the validity of the Statement of Facts or Determinations contained in this Consent Order.

## II. DEFINITIONS

4. Unless otherwise expressly provided herein, terms used in this Consent Order that are defined in CERCLA or in regulations promulgated under CERCLA shall have the meaning assigned to them in the statute or regulations. Whenever the terms listed below are used in this Order, including the attached appendices, the following definitions shall apply:

A. "Consent Order" or "Order" shall mean this "Administrative Order on Consent" and all appendices attached hereto. In the event of conflict between the text of this Order and any appendix, the text of this Order shall control.

B. "IDEM" shall mean the Indiana Department of Environmental Management and any successor departments or agencies.

C. "Parties" shall mean the EPA, IDEM, and the Respondents.

D. "Record of Decision" or "ROD" shall mean the EPA Record of Decision for the remedial action to be implemented at the American Chemical Services Site, signed on September 30, 1992, by the Regional Administrator of EPA, Region 5, including any changes and all attachments thereto.

E. "Respondent" or "Respondents" shall mean those persons, corporations, and other entities listed in Appendix 1 who have timely executed this Order and made the payments required under this Order in compliance with the terms set forth in either paragraph 26 or 27 of this Order.

F. "Response Costs" shall mean all costs incurred and to be incurred by any person at the American Chemical Services Site for all response actions taken and to be taken, upon EPA's direction, by any person at the Site.

G. "State" shall mean the State of Indiana.

H. "Site" shall mean the American Chemical Services site in Griffith, Indiana, where hazardous substances were released or have come to be located, as shown generally on the map attached as Appendix 2. The Site, which is described in the ROD, encompasses approximately 36 acres and includes: 1) the American Chemical Services ("ACS") facility located at 420 S. Colfax Avenue, Griffith, Lake County, Indiana; 2) the former Kapica Drum, Inc./Pazmey Corporation property, located adjacent to the

ACS facility; and 3) the inactive portion of the Town of Griffith Landfill located adjacent to the ACS facility.

I. "United States" shall mean the United States of America, its agencies, departments, and instrumentalities.

## III. STATEMENT OF PURPOSE

5. By entering into this Consent Order, the mutual objectives of the Parties are:

a) to reach a final settlement among the EPA, IDEM, and the Respondents that allows the Respondents to make a cash payment including a premium to settle their alleged liabilities for all response costs incurred or that may be incurred at or in connection with the Site, in exchange for contribution protection and a covenant not to sue as to civil liabilities in connection with the Site, thereby avoiding difficult, prolonged, and complicated litigation in connection with the Site;

b) to simplify the remaining enforcement activities concerning the Site;

c) to obtain settlement with the Respondents for at least their fair share of response costs incurred by the United States of America and the State; and

d) to reduce, pursuant to CERCLA Section 122(g)(5), the alleged potential liabilities of the remaining potentially responsible parties in connection with the Site, but without waiving EPA's and IDEM's assertion of joint and several liability against such parties, including those who either are ineligible to or do not participate in this settlement.

## IV. PARTIES BOUND

6. This Consent Order shall apply to and be binding upon the EPA, IDEM, and each Respondent, and their successors. Each signatory to this Consent Order represents that he or she is fully authorized to enter into the terms and conditions of this Consent Order and to legally bind the party represented by him or her. Any change in ownership or corporate status of a Respondent, including, but not limited to, any transfer of assets or real or personal property, shall in no way alter such Respondent's payment responsibilities under this Order.

## V. STATEMENT OF FACTS

7. The Site, as defined in the ROD and in Section II, paragraph H, above, is located at and near 420 South Colfax Avenue, Griffith, Lake County, Indiana.

8. The United States Fish and Wildlife Service has identified two wetlands areas in the ACS watershed, a 29-acre area north of the C&O railroad grade, and another 5-acre area south of the railroad grade. These wetlands areas are within the Site as defined herein.

9. Hazardous substances within the definition of Section 101(14) of CERCLA, 42 U.S.C. § 9601(14), have been or are threatened to be released into the environment at or from the Site. Various volatile organic compounds, polychlorinated biphenels (PCBs) and heavy metals are present in soils at the Site; and benzene, ethyl benzene, toluene, and xylene, are present in the upper groundwater aquifer at the Site.

10. Pursuant to Section 105 of CERCLA, 42 U.S.C. § 9605, EPA placed the Site on the National Priorities List (NPL), set forth at 40 C.F.R. Part 300, Appendix B, by publication in the Federal Register in September 1984.

11. In 1988, under an Administrative Order on Consent, certain parties performed a Remedial Investigation/Feasibility Study ("RI/FS") for the Site pursuant to 40 C.F.R. § 300.430. The RI/FS was completed and reported in 1992.

12. In response to a release or a threat of a release of a hazardous substance or substances at or from the Site, response costs of $3,029,953.56 have been incurred; see Appendix 3, incorporated herein by reference.

13. Information contained in the administrative record for this settlement indicates that each Respondent listed on Appendix 1 to this Consent Order, incorporated herein by reference, arranged for disposal or treatment, or arranged with a transporter for disposal or treatment of a hazardous substance owned or possessed by such Respondent at the Site.

14. In accordance with Section 122(g)(1)(A) of CERCLA, 42 U.S.C. § 9622(g)(1)(A), information contained in the administrative record for this settlement indicates that the amount of hazardous substances contributed to the Site by each Respondent is minimal and does not exceed 0.8% of the hazardous substances at the Site. The toxic or other hazardous effects of the substances contributed by each Respondent to the Site do not contribute disproportionately to the cumulative toxic or other

hazardous effects of the waste at the Site. Based on information contained in the administrative record for this settlement, Appendix 4 lists the volume of the waste contributed to the Site by each Respondent and the settlement amount applicable to each Respondent, and is incorporated herein by reference. In its discretion, EPA may adjust the amount and manner of payment specified in Appendix 4 for a Respondent, in light of relevant information brought to EPA's attention by such Respondent.

15. In developing and evaluating the settlement embodied in this Consent Order, EPA has considered the potential costs of remediating contamination at or in connection with the Site, past response costs incurred at or in connection with the Site, possible cost overruns in completing the remedial action, the time-value of money, possible future costs if the remedial action selected in the ROD is not protective of public health or the environment, and any potential orphan shares associated with the Site.

16. Payment required to be made by each Respondent pursuant to this Consent Order is a minor portion of the total response costs at the Site.

## VI. DETERMINATIONS BY EPA

Based upon the Statement of Facts set forth above and on the administrative record for this settlement, EPA and IDEM have determined that:

17. The ACS Site is a "facility" as that term is defined in Section 101(9) of CERCLA, 42 U.S.C. § 9601(9).

18. Each Respondent is a "person" as that term is defined in Section 101(21) of CERCLA, 42 U.S.C. § 9601(21).

19. Each Respondent is a "potentially responsible party" within the meaning of Section 122(g)(1) of CERCLA, 42 U.S.C. § 9622(g)(1).

20. There has been an actual or threatened "release" of a hazardous substance from the Site, as that term is defined in Section 101(22) of CERCLA, 42 U.S.C. § 9601(22).

21. Prompt settlement with the Respondents is practicable and in the public interest within the meaning of Section 122(g)(1) of CERCLA, 42 U.S.C. § 9622(g)(1).

22. This Consent Order involves only a minor portion of the response costs at the Site with respect to each Respondent pursuant to Section 122(g)(1) of CERCLA, 42 U.S.C. § 9622(g)(1).

23. The amount of hazardous substances contributed to the Site by each Respondent and the toxic or other hazardous effects of the hazardous substances contributed to the Site by each Respondent are minimal in comparison to other hazardous substances at the Site pursuant to Section 122(g)(1)(A) of CERCLA, 42 U.S.C. § 9622(g)(1)(A).

## VII. ORDER

24. Based upon the administrative record for this settlement and the Statement of Facts and Determinations set forth above, and in consideration of the promises and covenants set forth herein, it is hereby AGREED AND ORDERED:

### Payment by Respondents

25. Respondent-established Account. By executing this Consent Order, Respondents will simultaneously be entering into a trust fund agreement ("Trust") to receive their settlement payment. The trustee or manager of the Trust agreement shall pay the aggregate of those payments ("sum") to EPA, along with an accounting that identifies Trust expenses and the amount contributed by each Respondent to the sum paid to EPA. In the event of any conflict between the terms of the Trust and this Order, the terms of this Order shall prevail.

Interest realized by the Trust may be used to defray the costs of establishing and administering the Trust, including paying the trustee. Interest received in excess of the costs of establishing and administering the Trust shall be paid to EPA prior to the termination of the Trust in the manner set forth in paragraph 26 below.

26. Timely payment. Within thirty (30) days of the effective date of this Consent Order, each Respondent shall pay to and have caused the Trust to have received from the Respondent the full amount for that Respondent set forth in Appendix 4 to this Order.

Within sixty (60) days after the effective date of this Order, the Trustee shall pay and have caused IDEM to receive the first $46,190.86 received by the Trust, and EPA to receive a sum equal to all remaining payments received under this paragraph by the Trust, as described in paragraph 25. The Trustee shall also send to EPA an accounting for the sum submitted that specifies: (i) each Respondent who made payment under this paragraph to the Trust, (ii) the amount paid by each Respondent, (iii) the date of payment, (iv) the payment specified for each Respondent in Appendix 4, and (v) the reference number listed in Appendix 4. Payment of the sum by the Trustee shall be effected by certified or cashier's check made payable to the "EPA Hazardous Substance Superfund, CERCLA Number J7, DOJ Case Number 90-11-3-1094A," and sent to:

U. S. Environmental Protection Agency Region 5
Attn: Superfund Accounting
P.O. Box 70753
Chicago, Illinois 60673.

A copy of this check shall also be simultaneously sent by the Trustee to:

Steve Siegel
ACS De Minimis Payment
U. S. Environmental Protection Agency Region 5
Mail Code CS-3T
77 West Jackson Boulevard
Chicago, Illinois 60604.

27. Late Payment. If a Respondent fails to make timely payment under paragraph 26 of this Order, such Respondent may elect to participate in this Order by paying and causing the Trust to have received within seventy-five (75) days after the

effective date of this Order one-hundred-five percent (105%) of the amount set forth in Appendix 4 for the Respondent.

Within eighty-five (85) days after the effective date of this Order, the Trustee shall pay to the EPA a sum equal to all payments received under this paragraph by the Trust. The Trustee shall also send to EPA an accounting for the sum submitted that specifies: (i) each Respondent who made payment under this paragraph to the Trust, (ii) the amount paid by each Respondent, (iii) the date of payment, (iv) the amount specified for each Respondent in Appendix 4, and (v) the rank number listed in Appendix 4. Payment of the sum by the Trust shall be effected by certified or cashier's check made payable to the "EPA Hazardous Substance Superfund, CERCLA Number J7, DOJ Case Number 90-11-3-1094A," and sent to:

U. S. Environmental Protection Agency Region 5
Attn: Superfund Accounting
P.O. Box 70753
Chicago, Illinois 60673.

A copy of this check shall also be simultaneously sent by the Trustee to:

Steve Siegel
ACS De Minimis Payment
U. S. Environmental Protection Agency Region 5
Mail Code CS-3T
77 West Jackson Boulevard
Chicago, Illinois 60604.

28. Participation. Subject to reversal only by EPA in its unreviewable discretion, if any Respondent fails to make full payment to the Trust under the requirements of paragraph 26 or 27 of this Order, such Respondent is thereby disqualified

from any participation in this Order. EPA, in its unreviewable discretion, may amend this Order to include Respondents who qualify as de minimis parties. Such amendment may be made based on, among other things, volumetric errors in Appendix 4, ability to pay determinations made by EPA, or lack of notice of the opportunity to participate in this settlement. The manner of payment by these additional parties shall be determined by EPA.

29. EPA intends to establish a CERCLA special account for the ACS site into which money received by this settlement in amounts in excess of past costs will be placed. EPA, in its unreviewable discretion and to the extent permitted by law, shall determine the use of funds in this account.

Civil Penalties

30. In addition to any other remedies or sanctions available to EPA, any Respondent who fails or refuses to comply with any term or condition of this Consent Order, except for paragraphs 25 through 28, shall be subject to a civil penalty of up to $25,000 per day for such failure or refusal pursuant to Section 122(l) of CERCLA, 42 U.S.C. § 9622(l).

Certification of Settling Respondents

31. Each Respondent certifies individually that, to the best of its knowledge and belief, it has conducted a thorough, comprehensive, good faith search for documents and has fully and accurately disclosed to EPA all information currently in its possession, or in the possession of its officers, directors, employees, contractors or agents, which relates in any way to the

ownership, operation, generation, treatment, transportation, storage or disposal of hazardous substances at or in connection with the Site. Each Respondent further certifies, individually, that it has not altered, mutilated, discarded, destroyed or otherwise disposed of any records, documents, or other information relating to its potential liability regarding the Site since notification of potential liability or the filing of a suit against Respondent regarding the Site and that it has fully complied with any and all EPA requests for information pursuant to Sections 104(e) and 122(e) of CERCLA, 42 U.S.C. §§ 9604(e) and 9622(e), and Section 3007 of the Resource Conservation and Recovery Act, as amended, 42 U.S.C. § 6927. Each Respondent further certifies that it has never owned or operated any portion of the Site for any purpose. Provision of false, fictitious, or fraudulent statements or representations to the United States may subject a Respondent to criminal penalties under 18 U.S.C. §1001.

Covenants Not to Sue by EPA and IDEM

32. Upon a Respondent's payment of the amount required in compliance with paragraph 26 or 27 of this Order and upon EPA's receipt of that amount as part of the sum to be paid EPA by the Trustee pursuant to paragraphs 25 through 27 of this Order, and except as specifically provided in paragraphs 33 through 35 of this Consent Order, EPA covenants not to sue or take any other judicial, civil, or administrative action against that Respondent for matters addressed in this Consent Order. Matters addressed shall include any and all civil liability for reimbursement of

response costs pursuant to Sections 106(a) and 107(a) of CERCLA, 42 U.S.C. §§ 9606(a), 9607(a), and Section 7003 of the Resource Conservation and Recovery Act, as amended 42 U.S.C. § 6973, relating to the Site for matters addressed by this Consent Order.

Upon a Respondent's payment of the amount required in compliance with paragraph 26 of this Order and upon IDEM's receipt of the amount specified in paragraph 26 of this Order, and except as specifically provided in paragraphs 32 through 34 of this Consent Order, IDEM covenants not to sue or to take any other judicial, civil, or administrative action against that Respondent pursuant to Section 107(a) of CERCLA, 42 U.S.C. § 9607(a), and applicable state statutory or common law, relating to the Site for matters addressed by this Consent Order.

These covenants not to sue shall take effect with respect to each Respondent upon receipt by EPA and IDEM of the payment required by paragraphs 25 through 27 of this Consent Order. With respect to each Respondent, these covenants not to sue are conditioned upon the complete and satisfactory performance by that Respondent of its obligation under this Consent Order. These covenants not to sue extend only to the Respondents and do not extend to any other person.

Reservation of Rights

33. The covenants not to sue set forth in Section VII, paragraph 32, of this Consent Order, do not pertain to any matters other than those expressly specified in paragraph 32. The United States, including EPA, and the State, including IDEM,

reserve, and this Consent Order is without prejudice to, all rights against the Respondents with respect to all other matters, including but not limited to the following:

(a) claims based on a failure to comply with any obligation established pursuant to this Consent Order;

(b) criminal liability; or

(c) liability for damages for injury to, destruction of, or loss of natural resources, or costs of response related thereto.

33. Notwithstanding any other provision in this Consent Order, the United States, including EPA, and the State, including IDEM, reserve, and this Consent Order is without prejudice to, the right to institute judicial proceedings or to issue an administrative order seeking to compel the Respondents, (1) to perform response actions relating to the Site, or (2) to reimburse the United States, including EPA, and the State, including IDEM, for additional costs of response, if information not contained in the administrative record for this settlement is discovered which indicates that any Respondent contributed hazardous substances to the Site in such greater amount or of such greater toxic or other hazardous effects that the Respondent no longer qualifies as a de minimis party at the Site because the Respondent contributed greater than 0.8% of the hazardous substances at the Site or contributed hazardous substances which are more toxic or are of greater hazardous effect than other hazardous substances at the Site.

34. Nothing in this Consent Order is intended as a release or covenant not to sue for any claim or cause of action, administrative or judicial, civil or criminal, past or future, in law or in equity, which the United States, including EPA, or the State, including IDEM, may have against any person, firm, corporation or other entity not a signatory to this Order.

Covenants by Respondents

35. Each Respondent covenants not to sue and agrees not to assert any claims or causes of action against the United States, the State, or their contractors or employees with respect to the Site or this Consent Order, including, but not limited to, any direct or indirect claim for reimbursement from the Hazardous Substance Superfund (established pursuant to the Internal Revenue Code, 26 U.S.C. § 9507) through Sections 106(b)(2), 111, 112, or 113 of CERCLA, 42 U.S.C. §§ 9606(b)(2), 9611, 9612, or 9613, or any other provision of law, or any claims arising out of response activities at the Site. Nothing in this Consent Order shall be deemed to constitute preauthorization of a claim within the meaning of Section 111 of CERCLA, 42 U.S.C. § 9611, or 40 C.F.R. 300.700(d).

Effect of Settlement; Contribution Protection

37. Nothing in this Consent Order shall be construed to create any rights in, or grant any cause of action to, any person not a party to this Consent Order. The preceding sentence shall not be construed to waive or nullify any rights that any person not a signatory to this Consent Order may have under applicable

law. The United States, including EPA, the State, including IDEM, and the Respondents each reserves any and all rights (including, but not limited to, any right to contribution), defenses, claims, demands, and causes of action which each party may have with respect to any matter, transaction, or occurrence relating in any way to the Site against any person not a party hereto.

38. EPA, IDEM, and the Respondents agree that the actions undertaken by the Respondents in accordance with this Consent Order do not constitute an admission of any liability by any Respondent. The Respondents do not admit, and retain the right to controvert in any subsequent proceedings other than proceedings to implement or enforce this Consent Order, the validity of the Statement of Facts or Determinations contained in this Consent Order.

39. With regard to claims for contribution against each Respondent for matters addressed by this Consent Order, the Parties hereto agree that each Respondent is entitled, as of the effective date of this Consent Order, to such protection from contribution actions or claims as is provided by Sections 113(f)(2) and 122(g)(5) of CERCLA, 42 U.S.C. §§ 9613(f)(2) and 9622(g)(5). Such protection with respect to each Respondent is conditioned upon that Respondent's having paid the amount required to the Trust Account in compliance with the terms of paragraph 26 or 27 of this Order and upon EPA's having received

that amount as part of the sum to be paid by the Trust Account pursuant to paragraphs 25 through 27 of this Order.

Public Comment

40. This Administrative Order on Consent shall be subject to at least a 30-day public comment period pursuant to Section 122(i) of CERCLA, 42 U.S.C. § 9622(i). The EPA may withdraw or modify its consent to this Consent Order if comments received disclose facts or considerations that indicate that this Consent Order is inappropriate, improper, or inadequate.

Attorney General Approval

41. The Attorney General or her designee has issued prior written approval of the settlement embodied in this Consent Order in accordance with Section 122(g)(4) of CERCLA, 42 U.S.C. § 9622(g)(4).

## Effective Date

42. The effective date of this Consent Order shall be the date upon which EPA issues written notice to the Respondents that the public comment period pursuant to paragraph 40 has closed and that comments received, if any, do not persuade EPA to modify or withdraw from this Consent Order.

IT IS SO AGREED AND ORDERED:

| TOTAL EPA UNRECOVERED COSTS FOR AMERICAN CHEMICAL SERVICE,IN | $ | 692,822.76 |

**Please Note:** National Contract Laboratory program costs may be significantly understated. These costs do not include any lab costs that may have been billed to EPA prior to FY 1986, if such costs were incurred, and no estimate of the CLP Sample Management Cost (ranges from 6.1 % to 17.0 % of Analytical costs) is provided. A complete accounting of Contract Laboratory Costs normally is provided by VIAR within the documentation process.

This summary does not include Department of Justice costs. Those costs will be documented separately by the Department of Justice.

**Indiana Department of Environmental Management**

PLUS estimated costs of response from end of reporting period noted above through final review and disposition of proposed de minimis settlement

5,000.0

FINAL TOTAL 10,246.6

APPENDIX 4

PAYMENT FORMULA AND DATABASE

Site cost calculations considered all costs of response at the Site incurred and to be incurred by any person. Past costs are $3,029,953, which include both U.S. EPA's past costs already incurred through January 31, 1994, projected costs of United States through the settlement date, past costs of the state of Indiana, and estimated costs by PRPs for RI/FS work. Estimated future costs for the Site are $69,775,360. A premium of 100% (represented by a multiplier of 2.0) is included against the estimated future costs at the Site. This premium takes into account the possibility of cost overruns, possible future costs if the remedial action selected in the ROD is not protective of public health or the environment, and the fact that not all parties who sent hazardous wastes to the site remain viable to contribute to this settlement (these parties are sometimes referred to as the "orphan share.") Site costs (including premium) may be represented as follows:

Site costs = (future costs x 2.0) + past costs

$142,540,673 = ($69,775,360 x 2.0) + $3,029,953

The settlement payment amount for each de minimis party (PRP), as listed herein, is calculated by multiplying the percentage of hazardous wastes sent by that party to the site by the total site costs listed above. In addition, certain PRPs have previously participated in the cleanup of the site as signatories to an administrative order on consent (AOC) to conduct the remedial investigation and feasibility study (RI/FS) for the site, U.S. EPA docket No. V-W-88-C-113. PRPs may deduct amounts equal to 71.6% of the amount they paid to participate in the AOC. This is the estimated share of RI/FS costs incurred by the PRPs which may be considered superfund response costs. In order to claim this reduction from the payment amount listed in this Appendix 4, a copy of the canceled check(s) documenting the payment(s) and a signed certification of the payment amount(s) must be included with both the submittal of the signature page and payment required to participate in this settlement. The formula for payment in this de minimis settlement is thus represented as follows:

Payment amount
for each PRP = ($142,540,673 x percentage of hazardous wastes sent to the site by that PRP) - 71.6% of the documented payment required by AOC No. V-W-88-C-113.

In the event that the de minimis calculation results in a figure less than $500.00, the de minimis settlor's financial contribution shall be $500.00.

This de minimis settlement is available to those PRPs whose volumetric contribution to the site does not exceed .8% of the total volume of hazardous wastes sent to the site.

In calculating each PRP's percentage share, EPA considered the changing disposal practices at the site and reduced each PRPs gross volume of waste sent to the site based on the time period the waste was sent to the site. The gross volume of waste sent to the site by each PRP between 1955 - 1975 was reduced by 80% for all waste reclaimed by American Chemical Service (ACS) and 90% for all waste incinerated during this time period. During this time period, the percentage reductions were calculated as follows:

| | | | % Reclaimed | %Incinerated |
|---|---|---|---|---|
| 1955 | - | 5/31/66 | 100% | 0% |
| 6/1/66 | - | 12/31/67 | 50% | 50% |
| 1/1/68 | - | 12/31/68 | 35% | 65% |
| 1/1/69 | - | 12/31/69 | 25% | 75% |
| 1/1/70 | - | 12/31/70 | 10% | 90% |
| 1/1/71 | - | 12/31/71 | 5% | 95% |
| 1/1/72 | - | 12/31/75 | 0% | 100% |

The 80% and 90% reductions and the average percentage of reclaimation and incineration during the above time periods were initially recommended to EPA by Clean Sites, Inc., a neutral party who evaluated site information in creating a database in 1987. During this time period, ACS directly landfilled hazardous wastes at the site.

The gross volume of waste sent to the site by each PRP between 1976 and November 10, 1980, was reduced 96% to account for changes in disposal practices during this time period. During this time period, ACS apparently stopped directly landfilling wastes at the site, but adjacent drum cleaning operations continued to dispose of hazardous waste at the site. The gross volume of waste sent to the site between November 11, 1980, and 1990 was reduced by 99% to account for changes in disposal practices during this time period. During this time period, spills of hazardous wastes continued to occur at the site, but fewer spills are believed to have occurred during this time period than during the prior time periods. These reductions in the gross volume of waste sent to the site are for de minimis settlement purposes only and are not to be construed as a limitation on the liability of any PRP at the site.

* ANV - These generators appear not viable and unable to participate in an American Chemical Services Site settlement. They have sent waste to the site but have not been assigned a percent ranking because their volumes are not included in the total site volume. If these parties are later found to be viable, they may request a settlement with EPA.

** BS - This party partitioned for bankruptcy and pursuant to its bankruptcy settlement with EPA it has resolved its liability at the ACS Site. The total past costs at the site have been reduced by the amount paid by this company.

## 1.0 INTRODUCTION

At the request of the project contacts, no site introduction is included in this report.

## 2.0 PROJECT TASKS AND PROCEDURES

The following tasks and procedures were used by the Contract Evidence Audit Team (CEAT-TechLaw) to perform a review of waste volumes, assist in preparation of a certified mailing, and develop the American Chemical Services Site Correspondence Tracking Database for the Environmental Protection Agency (EPA).

### Task 1: Review Documents, Databases, and Database Reports

From January 7, 1994 to January 11, 1994, the CEAT reviewed copies of the project documents provided by the project contacts, and databases and database reports generated by the potentially responsible parties (PRPs) to determine the types of information contained within them.

### Task 2: Conduct Project Setup Meeting

The CEAT Project Managers participated in a project setup meeting via telephone with the project contacts on January 12, 1994 to discuss the findings of the document, database, and database report reviews. In addition, the work schedule was established and work products were determined.

### Task 3: Organize Documents

The documents were organized alphabetically by generator name. Section 3.0 discusses the specific procedures followed when organizing the documents.

### Task 4: Convert Database

The databases created by the PRPs using Lotus 1-2-3 software and provided to the EPA were converted into the dBASE III Plus format in preparation for data review, certified mailing, and correspondence tracking. The fields in the converted database were designed not only to incorporate the Lotus 1-2-3 database provided by the project contacts, but also to reflect project information requirements. Programs were written to produce the required work products.

### Task 5: Verify Database Conversion

The database conversion was verified by testing to ensure that the integrity of the data had been maintained during the conversion process.

### Task 6: Conduct Data Review of Waste Volumes

The CEAT reviewed the waste volumes in the converted database to the volumes indicated on the original project documents to verify the accuracy of the data and determine a total volume count for the generators. As directed by the project contacts and approved by the National Enforcement Investigations Center (NEIC), waste volumes for one of every ten generators for the 1980-1990 time frame and one of every 20 generators for the 1955-1979 time frame were reviewed. Section 4.0 discusses the specific procedures followed in the data review.

### Task 7: Extract and Enter Data Review Information

The total volume count from the data review was extracted from documentation provided by the project contacts and entered directly into the converted database.

### Task 8: Conduct Inspection of Data Review

Standard CEAT inspection procedures were used to ensure the accuracy, completeness, and consistency of the data obtained during the data review. Information in the database was compared to information on copies of original project documents to verify accuracy, completeness, consistency of extraction and data entry conducted during data review. Errors discovered during the inspection process were corrected by the individual performing the inspection.

### Task 9: Develop Mailing List

The CEAT developed a mailing list (see Appendix A) which used existing mailing lists developed by the PRPs, addresses provided by the project contacts, addresses obtained from Resource Conservation and Recovery Act (RCRA) manifests, and library research of corporate addresses. All addresses were added to the database for generation of the mailing labels. A comments field was added to the database to track additional comments about the PRPs. A report that listed the PRP name and added comments was generated for the project contacts (see Appendix B).

### Task 10: Conduct Inspection of Mailing List

A standard CEAT inspection procedure was used to ensure the accuracy, completeness, and consistency of the mailing list. Addresses obtained from the project documents were compared to the documents; errors discovered during the inspection process were corrected by the individual performing the inspection. Database searches were performed to ensure an address for each generator was located. For those generator records that did not list an address, a library search of the Directory of Corporate Affiliations, American Business diskettes, and the Dun & Bradstreet Locator was conducted. Addresses located were entered into the database.

### Task 11: Prepare Mailing

The CEAT prepared documentation for mailing to approximately 1,900 PRPs. The mailing consisted of a letter and Administrative Order provided by the project contacts and a data review report sorted alphabetically by generator developed by the CEAT. Each generator in the mailing was assigned a postal certified return receipt number to facilitate tracking of the mailing (see Appendix C).

### Task 12: Extract and Enter Correspondence Tracking Information

Information from PRP responses to the mailing was extracted and entered directly into the database using project-specific input screens. Information was entered into the correspondence tracking database using the following fields:

**Letter Type** - For the purpose of this mailing, the letter type *administrative order* was entered into this field.

**Certified Return Receipt Number** - The unique number assigned each PRP was entered into this field.

**Date Sent** - The date the mailing was sent was entered into this field.

**Date Received** - The date the PRP received the mailing was entered into this field. This information was obtained from the return receipt cards. A report indicating the PRP name and date received was generated for the project contacts (see Appendix D).

**Estimated Date** - An estimated date the PRP received the mailing was entered into this field. This field was used for those PRPs whose return receipt card was signed, but no date was indicated.

**Date Due** - The due date for a response from the PRP to the EPA was entered into this field.

**Extension Date** - The extension date the PRP was granted regarding reply to the EPA was entered into this field.

**Response Date** - The date the PRPs responded to the letter was entered into this field.

**Reason for Return** - If the mailing was returned, the reason was entered into this field. A report indicating the PRP name and reason was generated for the project contacts (see Appendix E). An appropriate match file was developed for coding repetitive reasons returned.

### Task 13: Conduct Correspondence Tracking Data Inspections

Standard CEAT inspection procedures were used to ensure the accuracy, completeness, and consistency of the data entered into the correspondence tracking database. Information in the database was compared to information on PRP response documents to verify accuracy, completeness, and consistency of extraction and data entry processes. Errors discovered during the inspection process were corrected by the individual performing the inspection.

**Task 14: Prepare and Deliver Final Work Products**

The final American Chemical Services Site Project Procedures Report was prepared. Bound copies of the report were provided to the project contacts for review and approval. The CEAT retained the unbound original report.

The following work products were provided to the project contacts:

- Progress reports for monitoring progress of the work effort (also provided to the NEIC).
- Copies of the project documents.
- American Chemical Services Site Mailing List (one paper copy and one data file on diskette). (see Appendix A).
- One copy of the 1955-1990 Gross Incinerated/Reclaimed Pounds Report, sorted alphabetically by generator (see Appendix F) and providing the following information:

  - Rank
  - Generator
  - 1955-1990 Total Pounds
  - 1955-1975 Pounds
  - 1976-November 10, 1980 Pounds
  - November 11, 1980-1990 Pounds

  The information in the report was obtained from the database and the four pounds columns represent the total gross incinerated/reclaimed pounds each generator contributed to the site.
- Two copies of the 1955-1990 Total *Reduced* Pounds Reports, one sorted by volume of waste (see Appendix G) and one sorted alphabetically (see Appendix H). The alphabetical report is the report included in the mailing. Both copies of the report provide the following information:

  - Rank
  - Generator
  - 1955-1990 Total Pounds
  - 1955-1975 Total
  - 1976-November 10, 1980 Pounds
  - November 11, 1980-1990 Pounds
  - Percent Ranking
  - Final Payment Due

  The information in the reports was obtained from the database and the formulas for calculating the total reduced pounds and the final payment due were obtained from the project contacts.
- Two copies of the 1955-1990 Total *Reduced* Pounds Reports, one sorted by volume of waste (see Appendix I) and one sorted alphabetically (see Appendix J). These reports include the same information as those reports provided in Appendices G and H, except they include an actual cost column and are marked "Attorney Work Products - Do Not Release." The difference between the actual cost column and the final payment due column is that the final payment due column indicates a default amount of $500 for all generators that received an actual cost allocation of $500 or less.

  The information in the reports was obtained from the database and the formulas for calculating the total reduced pounds and the final payment due were obtained from the project contacts.
- One copy of the Certified Return Receipt Numbers Report indicating the certified return receipt mail number assigned to each PRP in the mailing list (see Appendix C).

- One copy of the Letter Return Reason Report indicating the name of the generator, percentage allocation, final payment due, and the reason the mailing was returned to sender (see Appendix E).
- One copy of the Comments Field Report indicating the comments entered into the database and the Generator name. Only those PRPs which comments were added to the database appear in this report (see Appendix B).
- One copy of the Date Mailing Received Report indicating the Generator name and the date they received the certified mailing (see Appendix D).

These work products were treated as attorney work products, and the CEAT's standard operating procedures for security and document control were followed.

## 3.0 DOCUMENT ORGANIZATION PROCEDURES

The following procedures were used during document organization. All guidelines were developed in consultation with the project contacts. The following organization procedures apply only to the organization of the manifests. No other project documents were organized by the CEAT.

The manifests were organized alphabetically based on generator name. The generator name was that indicated in the "Generator Name" space of the manifest.

- If the generator name appeared to be an individual, alphabetizing was performed by the first name of the individual. For example, *Frank J. Curran* was alphabetized under "F."

- If the generator name was a company, alphabetizing was performed by the first name of the company. For example, *General Electric* was alphabetized under "G." Cities were alphabetized by the first word as written. For example, *City of Naperville* was alphabetized under "C."

Duplicate manifests were handled in the following manner:

- If a manifest was an exact duplicate of another, one was placed in the generator file and the other was placed in a file folder labeled "duplicates."

- If a manifest was not an *exact* duplicate of another, the documents were stapled together and filed in the generator file.

If the manifest was illegible, the CEAT attempted to determine the generator name based on the following criterion:

- The manifest was compared to other manifests located in the same vicinity of the original files provided by the project contacts. If legible writing on the manifests matched, such as generator address, generator telephone number, generator (EPA) ID number, or generator signatures, the illegible manifest was filed under the matching generator name. If no match was found, the manifest was filed in a file folder labeled "illegible."

During the organization, data review of waste volumes, and research of addresses, the CEAT determined that many generators were associated with one another but their generator names appeared in different forms on the project documents. Upon consultation with the project contacts, associated generator's manifests and data in the database were combined.

Appendix K is an alphabetical list of generators and their associated companies. This list cross-references the name which appears in the database and files with the generator with which the name was combined.

The generators were combined based on the following criteria:

- If the manifests or mailing lists referenced other generator names using the designations *DBA* (doing business as), *AKA* (also known as), *FKA* (formerly known as), *NKA* (now known as), or *Subsidiary of*, the documents were place together in one file and their associated data in the database was combined.

  Alphabetizing for generators with these designations was performed as follows:

  - If a generator name listed the designation *DBA*, *AKA*, or *NKA*, the document was filed under the name which appeared before the *DBA*, *AKA*, or *NKA* designation. For example, *Frama Corp. DBA MAACO-Chicago, IL (Pulaski)* was alphabetized under *Frama Corp.*
  - If a generator name listed the designation *FKA*, the document was filed under the most recent generator name. For example, *Henkel Corporation FKA General Mills Chemicals* was alphabetized under *Henkel Corporation.*
  - If a generator name listed the designation *Subsidiary of*, the document was filed under the generator name appearing before the *Subsidiary of* designation. For example, *Bendix Corp. Subsidiary of Allied-Signal Co.* was alphabetized under *Bendix Corp.*

- If the PRPs had previously combined generators in the original databases or mailing lists, the documents for those generators were placed together in one file and their associated data in the database was combined.

- If the PRP challenge documentation requested that specific generators be combined, the documents for those generators were placed together in one file and their associated data in the database was combined.

- If, through address research, it was determined that generators were related, the documents for those generators were placed together in one file and their associated data in the database was combined.

- If manifests referenced another generator name, or had different generator names but one or more of the generator address, generator telephone number, generator (EPA) ID number, or generator signature matched, the documents were place together in one file and their associated data in the database was combined.

  If manifests indicated the same generator name with different addresses but there was no other matching information, the generators were filed separately. For example, the files contain many generators designated as *MAACO*. These generators were filed separately and the record in the database was indicated as *MAACO* followed by the city name which appears in the generator address space on the manifest (for example, *MAACO-Chicago, IL*). If the city name was also the same, they were filed by the street name (for example, *MAACO-Chicago, IL [Broadway]*).

## 4.0 DATA REVIEW OF WASTE VOLUMES PROCEDURES

The following procedures were used during the data review. All guidelines were developed in consultation with the project contacts. Data review involved tallying the total waste volume a generator contributed to the American Chemical Services site. Project documents were reviewed to locate each document that indicated a generator contributed waste to the site. Unique documentation was used for different time frames of the American Chemical Services Site operations. The following is a description of the data review for each time frame.

1980-1990

- Copies of RCRA manifests were used as source documents.
- Waste volumes were reviewed for one in 10 generators that were picked randomly, and for specific generators as directed by the project contacts.[1]
- Only volumes for waste sent to the site were included in the review. Purchase of recycled material was not.
- Because most manifests listed waste volumes in gallons, the tallying of the total waste volume for each generator was performed in gallons. Volumes listed on the manifests in pounds were converted to gallons using the eight-pound/gallon default calculation. Pounds were used for tallying waste totals only when directed by the project contacts.

  Volumes listed as TT (tank truck) were converted to gallons using a 5,000-gallon/tank truck default calculation.

  Volumes listed in drums were converted to gallons using a 55-gallon/drum default calculation.

November 1972-December 1979

- Copies of the "American Chemical Services Accounts Receivable (A/R) Monthly Trial Balance" reports were used as source documentation.
- Waste volumes were reviewed for one in 20 generators that were picked randomly, and for specific generators as directed by the project contacts.[1]
- For each generator selected, the dollar amounts in the "current" column were added together to determine the total dollar amount of wastes sent to the site. The total dollar amount was then used in the following formula to convert from dollars to total volume in pounds:

| | | |
|---|---|---|
| (total dollar amount)/($.20/gallon) | = | X gallons |
| (X gallons) x (8 lbs./gallon) | = | gross volume in lbs. |
| (gross volume in lbs.)/.80<br>(80% of gross pounds) | = | total volume in lbs. |

August 1955-October 1972

- The "American Chemical Services Transaction Log" was used as source documentation.
- Waste volumes were reviewed for one in 20 generators that were picked randomly, and for specific generators as directed by the project contacts.[1]

[1] As per the project contacts' request, the CEAT performed a data review of specific generators in addition to the initial data review task. This review was performed using the same guidelines as the initial review. A volumetric challenge report was developed and provided to the project contacts indicating the results of this review (see Appendix L).

- The formulas used in calculating the volume in total pounds were acquired from the Thompson, Hine & Flory letter dated December 22, 1993 and the Clean Sites Inc. letter dated January 5, 1987 (see Appendices M and N).

When tallied, the total volumes for each generator selected were entered into the database.

## 5.0 DOCUMENT SECURITY

Through the duration of the project, the documents were maintained in a secure facility, and access to the documents was limited to authorized personnel. Each member of the CEAT works under a contract-wide confidentiality agreement which prohibits the dispersal of project-specific information to unauthorized personnel.

All reports were marked with the phrase "Privileged - Prepared for Litigation," and were shipped to the project contacts by common carrier using appropriate chain-of-custody procedures.

# Appendix A

# Mailing List

This mailing list is prepared for the purpose of providing notice of the ACS de minimis settlement to parties who may be potentially responsible parties at the ACS site. Inclusion on this address list is not a determination of liability, but notice of the liability of the parties contained in Appendix 4 of the de minimis settlement.

* ANV - These generators appear not viable and unable to participate in an American Chemical Services Site settlement. They have sent waste to the site but have not been assigned a percent ranking because their volumes are not included in the total site volume. If these parties are later found to be viable, they may request a settlement with EPA.

** BS - This party partitioned for bankruptcy and pursuant to its bankruptcy settlement with EPA it has resolved its liability at the ACS Site. The total past costs at the site have been reduced by the amount paid by this company.

# Appendix H

* - This amount only appears for EPA information and is not included in the actual cost total. If this PRP were included in the total site settlement, this would be their share.

* ANV - These generators appear not viable and unable to participate in an American Chemical Services Site settlement. They have sent waste to the site but have not been assigned a percent ranking because their volumes are not included in the total site volume. If these parties are later found to be viable, they may request a settlement with EPA.

** BS - This party partitioned for bankruptcy and pursuant to its bankruptcy settlement with EPA it has resolved its liability at the ACS Site. The total past costs at the site have been reduced by the amount paid by this company.

* - This amount only appears for EPA information and is not included in the actual cost total. If this PRP were included in the total site settlement, this would be their share.

* ANV - These generators appear not viable and unable to participate in an American Chemical Services Site settlement. They have sent waste to the site but have not been assigned a percent ranking because their volumes are not included in the total site volume. If these parties are later found to be viable, they may request a settlement with EPA.

** BS - This party partitioned for bankruptcy and pursuant to its bankruptcy settlement with EPA it has resolved its liability at the ACS Site. The total past costs at the site have been reduced by the amount paid by this company.

# Appendix K

## List of Generators and Their Associated Companies

# LIST OF GENERATORS AND THEIR ASSOCIATED COMPANIES

In consultation with the project contacts, the CEAT determined that many generators were associated with one another, but that their names appeared in different forms on the project documents, in the PRPs' database, on acquired mailing lists, and through research materials. This list may be used to identify a generator and where information regarding that generator may be found in the database and in the project files. The list also cross-references a generator with associated generators, and identifies instances where the files and database records were combined.

- The name which appears before the designations *AKA*, *DBA*, *FKA*, or *NKA* is the name under which the documents are filed and that appears in the database. For example, if the list indicates *A. J. Daw Printing Ink Co. AKA A.J. Daw Ink Co.*, the waste volumes for these generators were combined in the database and the documents are filed under *A.J. Daw Printing Ink Co.*

- If a generator name is followed by the designation *SEE*, the waste volumes in the database and documents can be found under the name listed after the designation *SEE*. For example, if the list indicates *A.J. Daw Ink Co. SEE A.J. Daw Printing Ink Co.*, the volumes were combined in the database and the documents were placed under *A.J. Daw Printing Ink Co.*

- An asterisk (*) denotes a generator record from the database that was combined by the CEAT with another generator record. The generator record marked with the asterisk was then deleted from the database. For example, the entry *Accurate Silk Screen Service AKA Soodik Printing**, *Soodik Printing* had a record in the database and, based on the criteria for combining generator records, the waste volumes for *Soodik Printing* were combined with *Accurate Silk Screen Service*. Because the *Soodik Printing* record was combined with *Accurate Silk Screen Service*, the *Soodik Printing* record was deleted from the database to ensure no duplication of the data occurred.

Re: American Chemical Services Site

Dear Mr. Siegel:

As you are aware, the undersigned counsel comprise the Steering Committee of an Ad Hoc group[1] of approximately 150 de minimis PRPs (the "Group"; a list of members is included as Attachment A[2]) at the American Chemical Services Site in Griffith, Indiana (the "ACS Site"). Although de minimis discussions have been ongoing for many months, the Group more formally organized following the dissolution of an earlier PRP group comprised of both major and de minimis PRPs (the "RD/RA Organizational Group"), and is made up of both former members and non-members of the RD/RA Organizational Group.

Over the course of the past few months, the Group has been working together to develop an independent de minimis settlement proposal for consideration by EPA. At our November 3, 1993 meeting, the Steering Committee laid out the parameters of the

---

[1] The Steering Committee does not represent the Group. Rather, each Committee member represents a single or several specific Group members. The Steering Committee serves only to facilitate and assist Group activities.

[2] It is anticipated that additional de minimis PRPs will join the Group. Accordingly, Attachment A may be amended.

Group's de minimis proposal. The purpose of this correspondence is to provide a detailed proposal, including a waste profile for the Site, for a de minimis settlement at the ACS Site. The following is a brief history of the Group's joint effort, a description of the reduced waste-to-the-site calculation which forms the basis of the waste profile which was developed, the waste profile itself and, the other details of the Group's proposal.

The Steering Committee wishes to make clear at the outset, **this proposal is made for purposes of settlement discussion only. Nothing in this proposal should be construed as an admission of liability on the part of any PRP identified in Attachment A, nor a commitment to execute a settlement agreement unless that individual Group member determines that an ultimate settlement is acceptable. In addition, the waste profile developed by the Group was developed solely from publicly available information, and the Group does not seek confidential status for this proposal.** In short, in response to the EPA request for de minimis proposals, the Group offers the following, detailed proposal for consideration.

The enclosed waste profile spreadsheets identify companies alphabetically and by rank. Each spreadsheet is divided into two parts, the first part listing generators having both pre- and post-1980 transactions, and the second part listing generators with post-1980-only transactions. The Steering Committee has not yet shared the second part with the post-1980-only generators. A computer disk containing the data supporting the spreadsheets in Lotus 3.1 format also is enclosed. Nothing in this information may be construed as an admission of liability of any Group member as it is being provided for settlement purposes only. Confidential status is not requested for either the spreadsheets, data, or computer disk.

**Background**

Through a joint effort, the Ad Hoc Steering Committee has developed an independent waste profile. Only information in the public domain has been utilized in the profile. The pre-1980 Generators have been notified by EPA of their potential liability. Generators are identified in the Clean Sites reports, ACS transaction logs, ACS accounts receivable ledgers, and manifests. The pre-1975 gross waste volumes are contained in the Clean Sites

reports and ACS transaction logs. The post-1975 waste volumes are derived from the ACS accounts receivable ledger, converted to gallons utilizing a .20 per gallon conversion factor and then to pounds utilizing an 8 pounds per gallon conversion factor. The post-1980 waste streams are taken from the manifests which contain gross gallons, which are converted to pounds utilizing an 8 pounds per gallon conversion factor.

The gross waste-to-site volumes were adjusted for several de minimis PRPs from information provided by those PRPs in the independent Ad Hoc challenge rounds.

With the approval of the Ad Hoc Steering Committee, the gross waste-in volumes were reduced in the Group's waste profile by varying factors, depending upon the year involved (see discussion below for detailed description of reduced-waste calculations).

As approved by the Steering Committee, all pre-1975 waste volumes were reduced by 90% for incinerated waste and 80% for reclaimed waste. The 1975 - 1980 waste volumes were reduced by 96.25%. The post-1980 waste volumes were reduced by 99.75%. The total reduced waste volume for all periods for each generator was then calculated and the combined percentage share of all waste to the site was calculated. **This formula is unique to the Ad Hoc Group, and has the consensus approval of the Ad Hoc Group as a whole.**

After calculation of the final combined percentage, each generator's share under the Group's proposal was calculated. A pro rata share of the RI/FS costs were calculated, and a full credit was provided for RI/FS costs previously paid, when known. Information concerning payments made for the RI/FS may be incomplete; there may be additional adjustments to this portion of the profile.

**REDUCED WASTE-TO-THE-SITE CALCULATION**

As discussed in general terms above, the key component of the Group's proposal is the calculation of the reduced waste-to-the-site volumes for individual PRPs. The following is a detailed description of the reduced waste-to-the-site calculations adopted by the Group.

Operations at the ACS site changed considerably over time, with management practices generally improving. As a result, the Group determined that, in general, waste sent to the site during early years of operation should be weighted more heavily than waste sent during later years. The reduced waste-to-the-site calculation is the mechanism by which the principle is incorporated into the allocation. Accordingly, each shipment of waste is reduced according to the time period in which it was received at the site.

Thus, for purposes of determining how much waste was sent to the site in total, one hundred pounds sent in, for example, 1959 "counts" as much as one hundred pounds sent in 1972. However, for purposes of calculating the relative amount each shipment contributed to contamination at the site (the "waste-in"), the 1959 shipment is reduced less than the 1972 shipment. As a result, the 1959 shipment accounts for a greater amount of "waste-in" than does the 1972 shipment. Similarly, each PRP's final waste-in allocation is a function of the total amount of waste it sent to the site, reduced according to the time period in which it sent each shipment to the site. Thus, in general terms, the final waste-in allocations of two PRPs that sent equal amounts of waste to the site may differ significantly where one PRP's involvement came early in ACS's history and the other's involvement came later.

The Group believes that the use of this approach is consistent with OSWER Directive #9834.7-1D in that it combines available volumetric records information with reasonable estimates of the volume of waste present at the site. The result reflects the Group's understanding of the waste present at the site, although the final calculations are not intended to be precise. The paragraphs below describe the rationale for the reductions applied in each time period.

1. 1955-1975.

Waste sent to the site during this period was either reclaimed or incinerated.[3] For purposes of calculating waste-in to the site, waste which was reclaimed has been reduced 80%, while waste that was incinerated has been reduced 90%. Consequently, the total volume of waste included in the database from this period is 20% of all reclaimed waste and 10% of all incinerated waste.

The 20% figure for reclaimed waste is based upon the report prepared by Clean Sites, Inc. ("CSI"), dated 1-9-87, entitled "American Chemical Services--Material Sent by Companies" ("CSI By Companies Report").[4] That report depicts, for most companies, a calculation for "residue" from solvent recovery of "0.20", i.e., 20% of each shipment of waste to American Chemical Services, Inc. ("ACS"). CSI has explained that the determination of the percentage amount of residue from solvent recovery was made by CSI following its conferences with the former management of ACS, including past presidents George Murphy and James Tarpo, and John Murphy, a member of the firm with knowledge of past manufacturing

---

[3] While Clean Sites, Inc. (see references to Clean Sites, Inc. infra) indicated in its §104(e) responses that there was some waste which was landfilled directly by ACS, without being subject to reclamation or incineration, the Group concluded that such amounts were not subject to corroboration, were not consistently calculated, and were, thus, not easily factored into any uniform allocation profile.

[4] The documentary evidence upon which the CSI By Companies Report's conclusions were based was an American Chemical Services, Inc. ("ACS") transaction log covering the period from 9/15/55 through 10/31/72 and an "Accounts Receivable Trial Balance Ledger" covering the period from 12/31/72 through 12/31/75. CSI modified that information for purposes of calculating gross pounds-in to the ACS site, because the transaction log referenced the volume only of reclaimed solvent, not total waste volume prior to reclamation. (Memorandum dated 1/5/87 from Hazel R. Hoffman, Clean Sites, Inc. to Potentially Responsible Parties of American Chemical Service [sic] (ACS) Superfund Site ("CSI Hoffman Report"), unnumbered pages 1 and 3 of the attachment entitled "American Chemical Services ("ACS") Generation of the Data Base".)

practices and customers.[5] While CSI's calculations of residue from solvent recovery for a few of the PRPs differed from 20%, apparently all calculations were in a range of 0 to 30%, with the vast majority being at 20%. Accordingly, the Group has determined, after consideration of this information, that in calculating the amount of waste to be included in the database for this period, the calculation would entail reducing the total amount of reclaimed waste-in, and, hence, the total amount of reclaimed waste sent to the site by each PRP, by a factor of 80%.

The 90% reduction for waste that was incinerated is derived with reference to the reduction factor assigned to waste that was reclaimed. The Group concluded that a 90% reduction was reasonable, after evaluating the amount of contamination that was likely to result from the incineration process relative to the contamination which was likely to result from the reclamation process. Accounting for spillage and leakage and for the continued on-site operation of Kapica Drum Co.'s drum reconditioning operation during this period[6], the Group concluded that contamination resulting from incineration was roughly half that which resulted from the reclamation. Thus, whereas waste that was reclaimed is reduced 80% (i.e., 20% of the waste is considered waste-in), waste that was incinerated is reduced 90% (i.e., 10% of the waste is considered waste-in).

After determining the relative reductions for reclaimed and incinerated waste, the Group had to derive some means of determining the portion of waste from any given shipment to the site that was reclaimed and the portion that was incinerated. That determination was made referencing the third unnumbered page of the ACS Generation of the Data Base attachment to the CSI Hoffman Report, under the subheading "Incineration History".[7] The percentages are based on an analysis of ACS operations which

---

[5] CSI Hoffman Report, unnumbered page 1 of ACS Generation of the Data Base attachment.

[6] ACS's answers dated 1/18/85 to the CERCLA § 104(e) request of USEPA ("ACS Answers"), No. 29.

[7] Corroborating information regarding the timing of incineration operations is set forth in ACS Answers, No. 15.

considered, for example, the number and efficiency of incinerators in operation during particular time periods. CSI indicates the annual percentages of total waste-in which were subject to incineration as follows:

- 1955 through 5/31/66: 0%
- 6/1/66 through 12/31/67: 50%
- 1/1/68 through 12/31/68: 65%
- 1/1/69 through 12/31/69: 75%
- 1/1/70 through 12/31/70: 90%
- 1/1/71 through 12/31/71: 95%
- 1/1/72 through 12/31/75: 100%

As noted above, the waste which was not incinerated was subject to reclamation. Thus, the percentage of total waste-in subject to reclamation are:

- 1955 through 5/31/66: 100%
- 6/1/66 through 12/31/67: 50%
- 1/1/68 through 12/31/68: 35%
- 1/1/69 through 12/31/69: 25%
- 1/1/70 through 12/31/70: 10%
- 1/1/71 through 12/31/71: 5%
- 1/1/72 through 12/31/75: 0%

Applying these percentages to each transaction during each applicable period, figures for total reclamation pounds-in and total incineration pounds-in were calculated.

**2. 1976-1980.**

During this period apparently no landfilling of waste and no residue was disposed of at the site[8]. Moreover, in 1978, Kapica Drum Co.'s operation began disposing its wastes in ACS's sludge box for off-site disposal.[9] Records for this period consist of accounts receivable ledgers for the period until November 11, 1980.

---

[8] ACS Answers, No. 8; Miscellaneous CSI Handwritten Notes ("CSI Notes"), Bates No. 88.

[9] ACS Answers, No. 29.

Information from the accounts receivable reports was converted from dollars to pounds using the formula set forth in the CSI Hoffman Report, i.e., a value of $.20/gallon was used as an average disposal charge, and 8 pounds/gallon was used as the default density.[10] The data from the manifests was converted using the 8 pounds/gallon formula. The Group arrived at a consensus waste reduction figure for this period of 96.25%. Again, this figure was reached with reference to the 80% discount applied to all waste-in, and reduced further given the changed circumstances at the site.

**3. 1980-1990.**

During this period there was apparently no landfilling of waste and no residue was disposed of at the site.[11] In addition, ACS was a RCRA permitted facility during this period, beginning November 11, 1980. Information for this period was obtained from RCRA manifests. Given the increased government supervision represented by RCRA and the cleaner operation run by ACS during this period, the Group arrived at a consensus waste reduction figure for this period of 99.75%.

**4. Conclusion**

The effect of using the above rationales to derive final waste-in allocations is summarized in the following chart, which illustrates how a shipment totaling ten pounds would be reduced depending upon the period in which it was received at the site.

| 1975 through 1980 | 10 pounds reduced 96.25% | 0.375 |
| 1980 through 1990 | 10 pounds reduced 99.75% | 0.025 |

**Other Settlement Parameters**

The Group proposes that the baseline remedy cost should be $46,800,000; settling de minimis PRPs pay a premium of 2.0 times the PRP's allocation share, as reflected in the waste profile which accompanies this proposal; that there should be no re-openers except statutory re-openers; and, the Group suggests that the de minimis cutoff should be at 0.6% share of waste-to-the-Site, leaving twenty-five (25) PRPs at the Site which would not be de minimis. Those twenty-five (25) PRPs represent approximately sixty-five percent (65%) of the volume at the Site.

The following is a more detailed description of each of these parameters.

**Volumetric Cutoff For De Minimis Settlement** - The Group proposes a volumetric cutoff for de minimis participation of 0.6% of reduced waste-to-the-site. Establishing the cutoff at 0.6% will reduce the number of non-de minimis PRPs at the Site to a total of approximately twenty-five (25) companies; the majority of which we believe to be financially viable. The de minimis cutoff is identical to the RD/RA Organizational Group determination of an appropriate de minimis cutoff for participation in conducting and funding the Remedial Investigation/Feasibility Study.

**Estimated Response Costs To Be Incurred** - EPA has estimated a range of response costs at the Site of between $39,800,000 and $46,800,000. Pursuant to OSWER Directive 9834.7-1D, when a range of response costs are estimated, a de minimis settlement should be based upon the high end of the range, or $46,800,000. Accordingly, the Group estimates the response costs to be incurred to be approximately $46,800,000.

**Settlement Premium Multiplier** - The Group proposes a 2.0X premium multiplier with covenants not to sue and contribution protection, with no re-opener for remedy changes. The 2.0X multiplier is appropriate, taking into account any expected orphan shares, and since there are site-specific factors which mitigate in favor of this premium multiplier as set forth above in the

discussion of the reduced waste-in calculation. This is consistent with OSWER Directive 9834.7-1D, which suggests a range of premium multipliers from 1.5X with re-openers to 2.0X with no re-openers. Since the Group proposes no re-openers, we suggest the 2.0X multiplier. In addition to the factors considered pursuant to OSWER Directive 9834.7-1D, the 2.0X multiplier is appropriate when other sources of funds are considered. The Group understands that the major PRPs have reached a settlement with American Chemical Service, Inc. ("ACS") with regard to insurance proceeds paid to ACS. The Group believes that these sources of funds should amount to approximately 10% of the remedy cost at the Site or, a multi-million dollar pool of funds available for remedy costs. In addition, neither ownership nor transporter liabilities are considered under the OSWER directive. When these factors are considered, the 2.0X premium multiplier is appropriate.

**Response Cost Calculation** - Among the settling de minimis parties, the Group proposes that response costs be calculated by multiplying a PRP's percentage share of the remedy cost by the estimated total response cost for the Site, then charging a settlement premium as set forth in the discussion of the premium multiplier, above. Further, since many members of the Group were also members of the RD/RA Organizational Group which prepared an RI/FS, several members of the Group have incurred costs for the RI/FS. The cost of the RI/FS was approximately $3 million. Accordingly, the waste profile includes a credit to certain Group members for the pro rata share of RI/FS costs which were incurred.[12]

**Minimum Payment** - The Group believes that an appropriate minimum payment for de minimis PRPs at the Site is $2,500.00. The minimum payment takes into account the administrative and other transaction costs that settling de minimis PRPs will avoid through settlement.

---

[12] This information is incomplete. It is believed that additional Group members will be entitled to the credit for RI/FS costs.

**Release From Liability** - As noted above, the Group proposes that a de minimis settlement will include covenants not to sue and contribution protection for settling parties, and a settling premium which provides for no re-opener (except for statutory re-openers), for remedy changes.

The de minimis PRPs believe that this proposal meets the criteria set forth in OSWER Directive 9834.7-1D, as well as including all of the elements set forth in your September 27, 1993 letter to Mr. Perellis, and October 7, 1993 letter to certain de minimis PRPs. We believe that this proposal will form a framework for a settlement acceptable to the de minimis PRPs identified in this letter.

As is noted above, this settlement proposal is the result of literally hundreds of hours of effort aimed at developing a waste profile and allocation model that is responsive to the request of EPA for a comprehensive de minimis proposal for the ACS Site. The Group stands ready to work with EPA to implement an equitable de minimis settlement at the ACS Site, and believes that this proposal meets all of the requirements of law and EPA guidance, while at the same time insuring the health and safety of the public and the environment. Due to the comprehensive nature of the waste profile, we desire to meet with you to explain in further detail its basis, and answer any questions which you might have. The Group appreciates the opportunity to present a workable, equitable de minimis settlement proposal for consideration.

Respectfully submitted,

## Clean Sites Inc. Letter Dated January 5, 1987

CLEAN SITES INC

1199 NORTH FAIRFAX STREET / ALEXANDRIA VIRGINIA 22314 / 703-683-8522

RECEIVED 1-8-87

MEMORANDUM

TO: Potentially Responsible Parties at American Chemical Service (ACS) Superfund Site

FROM: Hazel R. Hoffman, Clean Sites, Inc.

DATE: January 5, 1987

SUBJECT: Company-related Data

As you may be aware, Clean Sites, Inc. (CSI) was asked to utilize the data available from the owner/operator of the site and to put that data into a form which could be the basis for an allocation by the ad hoc steering committee.

In carrying out this task CSI was fortunate to receive a Transaction Log and certain accounting records -- which collectively covered the years 1955-1975. Such documentary information is better evidence than often can be found at Superfund sites which date back as far as ACS does. However, this source information was not usable for allocation purposes in the forms which CSI received. The accounting information, for instance, was in the form of monthly summaries of business with ACS's customers; and the Transaction Log recorded the recovery operation in terms of the amount of recovered solvent -- an "after the operation" volume number -- not the gross amount of material received at the plant. Therefore, it has been necessary to use the avaiable information as starting points, rather than as definitive indications of either waste-in to ACS or waste disposited at the Superfund landfill.

The attached explanation, titled "Generation of the Data Base", gives details about the procedures which CSI followed in attempting to make the following definitive determinations: How much of each type of material received from a customer for recovery or reprocessing or any other purpose, found its way to the Superfund landfill?

Generally, material which was sent to the landfill got there in one of the following ways:

(1) it was landfilled directly upon receipt at the site (usually solids or other unrecoverables)

(2) it was a residue from the recovery operation that went to the landfill after the recovery process

(3) it was ash from materials which were incinerated either directly upon receipt at ACS or as residues from the recovery operation.

CHAIRMAN OF THE BOARD/Russell E. Train PRESIDENT/Charles W. Powers BOARD OF DIRECTORS/Peter A.A. Berle, Douglas M. Costle, Louis Fernandez, Sandra S. Gardebring, Edwin A. Gee, Jay D. Hair, Donald Kennedy, Joshua Lederberg, H. Eugene McBrayer, Charles W. Powers, William K. Reilly, Henry B. Schacht

CLEAN SITES INC

1199 NORTH FAIRFAX STREET / ALEXANDRIA VIRGINIA 22314 / 703-683-8522

The attached "Summary Report" is a listing of each company whose material found its way to the landfill, and the number of pounds of its material which went to the landfill in any of the above three ways --directly, as residue, or as ash [see columns (2), (4) and (7)]. Column (9) shows each company's total material landfilled, in accordance with the protocols which had been established and which are explained in "Generation of the Database". The "Summary Report" also shows appropriate percentages.

The report entitled "Material Sent By Companies" is a complete, chronological, transaction by transaction printout of each individual company's waste-related business with ACS over the twenty year period. It is sorted by type of material (Item Description). The reason for such approach is uniformity of treatment of each such material. For example, transactions relative to a certain type of material generally contained a similar percentage of solids or other unrecoverables which were landfilled directly. Hence, that percentage has been applied to all items of similar description which appeared in the records to determine volumes that were landfilled directly. The result is shown as "Lbs. Direct to LF".

Similarly, the other percentage columns represent uniform applications, specific to each company and within each different type of material, of percentages derived from the intensive interviews of the owner/operators. The "Pounds" columns reflect those applications.

The amount of residue which was incinerated has been determined by the date of the transaction. See "Generation of the Database" for an explanation of the availability of incineration services.

In utilizing these reports it should be noted that the percentages and pounds which are shown are derived numbers, and that in a few cases, where special situations existed, the entries to the database are anomalous.

CHAIRMAN OF THE BOARD/Russell E. Train PRESIDENT/Charles W. Powers BOARD OF DIRECTORS/Peter A.A. Berle, Douglas M. Costle, Louis Fernandez, Sandra S. Gardebring, Edwin A. Gee, Jay D. Hair, Donald Kennedy, Joshua Lederberg, H. Eugene McBrayer, Charles W. Powers, William K. Reilly, Henry B. Schacht

## AMERICAN CHEMICAL SERVICES
## GENERATION OF THE DATA BASE

Two basic documents were used in generation of the "AMCHEM DATA BASE":

I. The Transaction Log covering the period from 9/15/55 through 10/31/72.
This document listed items charged to the customer by product name or service - such as Reclaim Solvent, Drumming Charge, Disposal Charge, Thinner, Alcohol, etc.

Significant column headings were "pounds/price" "gallons/price", "merchandise sales", "industrial service" and "industrial processing"

Both "industrial service" and "industrial processing" were used in the database. (Separation of the two items was of significance to ACS for sales tax purposes.)

II. The "Accounts Receivable Trial Balance Ledger" covering the period from 12/31/72 through 12/31/75.
This document listed "Company Name", "Customer Number", "Balance Outstanding" and "Current Month Transactions".

As discussed in more detail below, utilization of these records involved interpretation of each entry: whether it represented a sale, a recovery, a manufacture or a disposal. In addition, the disposition of the material by landfill or incineration had to be determined. Finally, various percentages had to be determined: directly landfilled, residue from solvent recovery, directly incinerated, and solvent recovery residue incinerated.

These determinations were made following conferences with past and present management of American Chemical Services, including George Murphy, the retired past president, Jim Tarpo, the present president and John Murphy, a member in the firm with knowledge of past manufacturing practices and customers. USEPA and one of their contractors, Roy F. Weston, were represented at the initial two day conference at Griffith Indiana when the "Transaction Log" was first explained.

As the work progressed, H. Hofmaier reviewed the work product with J. Tarpo and J. Murphy to insure that all interpretations of data were in keeping with the best recollections of events as they happened historically.

## DATA NOT INCLUDED (NON-WASTE GENERATING)

At the initial conference in Griffith, George Murphy outlined a number of products and companies, each of which represented only manufacturing businesses which generated no landfilled waste. This was subsequently confirmed in a letter which was transmitted by Louis Rundio on July 9, 1986. A copy is attached. In addition, in the course of the several data review sessions, additional non-waste generating items surfaced - such as "drumming charges", "unloading charges", "equipment rental" and "handling charges". These were closely associated with manufacturing operations in the billing process, and generated no landfilled waste. All of these items were treated as "exceptions" and not included in the database.

## DATA INCLUDED AS BEING WASTE GENERATING

All volumes and weights for items with charges in the "industrial processing" or "industrial services" categories were included unless George Murphy, Jim Tarpo, or John Murphy had specifically excluded them as non-waste generating, with plausible explanation. [For example, Tarpo and the Murphys knew that some products were manufactured only and generated no waste. Further, certain solvent recovery operations were solely removal of water from an organic (such as ethylene glycol) where the separated water was sewered, and the product cut was all returned to the customer.]

Where entries showed "disposal" rather than a product name, there frequently were no weights or volumes. A calculation was made to derive pounds from the dollar charge. A value of $.09/gallon was used as an average disposal charge; and 8 pounds/gallon was as the default density.

When working with data from the "Accounts Receivable Trial Balance Ledger", in which there were neither material descriptions nor values, it was necessary to work backwards: i.e., to utilize dollar amounts and to calculate volumes based on an average charge per gallon for the types of services that customers utilized. These services were categorized by J. Tarpo as "recovery", "disposal", or "disposal and recovery". Charges per gallon for each of these services were, respectively, $.10, $.20, and $.15. (Tarpo stated what the charges had been per gallon for "recovery" and "disposal". With respect to those customers for whom both recovery and disposal operations were conducted, and for whom there was no way to determine the actual split between the two, Hofmaier and Tarpo agreed that a reasonable approach was the somewhat arbitrary split of 50/50 and an average cost of $.15.)

## ESTABLISHMENT OF PERCENTAGES FOR SOLVENT RECOVERY RESIDUES, AMOUNT LANDFILLED DIRECTLY, AND PERCENTAGE OF ASH ON INCINERATION

Following assembly of the data base and after reviewing to assure that all data included therein represented only that from waste generating operations, Jim Tarpo took a data printout and noted the following percentages based on his clear recollection of the individual customer's past business. He first estimated the amount of solid or unrecoverable material in each company's solvents received at ACS for recovery. In addition, he estimated the percentage of solvent residue remaining after completion of the distillation or other recovery process. Finally, he estimated the percentage of ash remaining after incineration. Since there were no dust collectors on these incinerators, ash collection was low, and ash came primarily from high solids content material.

## INCINERATION HISTORY

The first incinerator was started in mid-1966. Its operation was initially inconsistent; on-stream time was low as experience was required to properly adjust viscosity and solids content of solvent recovery bottoms for good incinerator on-stream time.

A second incinerator was constructed, and the initial one was modified/rebuilt to provide greater reliability for incinerator operation.

Incinerator operation has been stated to be as follows:

6/1/66 through 12/31/67 - 50% of solvent recovery residue
1/1/68 through 12/31/68 - 65% of solvent recovery residue
1/1/69 through 12/31/69 - 75% of solvent recovery residue
1/1/70 through 12/31/70 - 90% of solvent recovery residue
1/1/71 through 12/31/71 - 95% of solvent recovery residue
1/1/72 through 12/31/75 - 100% of solvent recovery residue

Material accepted for disposal by incineration was always incinerated unless it had solidified or contained rubbish. In either of these cases, a percent "direct to landfill" was stated by Tarpo.

## CALCULATION OF SOLIDS TO THE LANDFILL

Since the primary billing that appears in the transaction log refers to recovered solvent volume, it does not represent the actual volume received at ACS. To determine "gross pounds in", it was necessary to calculate back up to total pounds of contaminated or dirty solvent received for recovery. (This was based on Tarpo's estimate of the percent of residue after the recovery operation plus the recovered solvent, as shown in the

log.) Where there was also some portion of the shipment directly landfilled, that further gross-up was calculated from Tarpo's estimate of the percent of unrecoverable or solid material directly landfilled upon receipt.

From the gross material received, the percent landfilled directly, the percent residue after solvent recovery, the percent of solvent recovery residue incinerated (by year), and the percent ash remaining to be landfilled following incineration, the total amount landfilled for each company was calculated by category and in total.

## AMERICAN CHEMICAL SERVICES
## GENERATION OF THE DATA BASE

Two basic documents were used in generation of the "AMCHEM DATA BASE":

I. The Transaction Log covering the period from 9/15/55 through 10/31/72.
This document listed items charged to the customer by product name or service - such as Reclaim Solvent, Drumming Charge, Disposal Charge, Thinner, Alcohol, etc.

Significant column headings were "pounds/price" "gallons/price", "merchandise sales", "industrial service" and "industrial processing"

Both "industrial service" and "industrial processing" were used in the database. (Separation of the two items was of significance to ACS for sales tax purposes.)

II. The "Accounts Receivable Trial Balance Ledger" covering the period from 12/31/72 through 12/31/75.
This document listed "Company Name", "Customer Number", "Balance Outstanding" and "Current Month Transactions".

As discussed in more detail below, utilization of these records involved interpretation of each entry: whether it represented a sale, a recovery, a manufacture or a disposal. In addition, the disposition of the material by landfill or incineration had to be determined. Finally, various percentages had to be determined: directly landfilled, residue from solvent recovery, directly incinerated, and solvent recovery residue incinerated.

These determinations were made following conferences with past and present management of American Chemical Services, including George Murphy, the retired past president, Jim Tarpo, the present president and John Murphy, a member in the firm with knowledge of past manufacturing practices and customers. USEPA and one of their contractors, Roy F. Weston, were represented at the initial two day conference at Griffith Indiana when the "Transaction Log" was first explained.

As the work progressed, H. Hofmaier reviewed the work product with J. Tarpo and J. Murphy to insure that all interpretations of data were in keeping with the best recollections of events as they happened historically.

## DATA NOT INCLUDED (NON-WASTE GENERATING)

At the initial conference in Griffith, George Murphy outlined a number of products and companies, each of which represented only manufacturing businesses which generated no landfilled waste. This was subsequently confirmed in a letter which was transmitted by Louis Rundio on July 9, 1986. A copy is attached. In addition, in the course of the several data review sessions, additional non-waste generating items surfaced - such as "drumming charges", "unloading charges", "equipment rental" and "handling charges". These were closely associated with manufacturing operations in the billing process, and generated no landfilled waste. All of these items were treated as "exceptions" and not included in the database.

## DATA INCLUDED AS BEING WASTE GENERATING

All volumes and weights for items with charges in the "industrial processing" or "industrial services" categories were included unless George Murphy, Jim Tarpo, or John Murphy had specifically excluded them as non-waste generating, with plausible explanation. [For example, Tarpo and the Murphys knew that some products were manufactured only and generated no waste. Further, certain solvent recovery operations were solely removal of water from an organic (such as ethylene glycol) where the separated water was sewered, and the product cut was all returned to the customer.]

Where entries showed "disposal" rather than a product name, there frequently were no weights or volumes. A calculation was made to derive pounds from the dollar charge. A value of $.09/gallon was used as an average disposal charge; and 8 pounds/gallon was as the default density.

When working with data from the "Accounts Receivable Trial Balance Ledger", in which there were neither material descriptions nor values, it was necessary to work backwards: i.e., to utilize dollar amounts and to calculate volumes based on an average charge per gallon for the types of services that customers utilized. These services were categorized by J. Tarpo as "recovery", "disposal", or "disposal and recovery". Charges per gallon for each of these services were, respectively, $.10, $.20, and $.15. (Tarpo stated what the charges had been per gallon for "recovery" and "disposal". With respect to those customers for whom both recovery and disposal operations were conducted, and for whom there was no way to determine the actual split between the two, Hofmaier and Tarpo agreed that a reasonable approach was the somewhat arbitrary split of 50/50 and an average cost of $.15.)

## ESTABLISHMENT OF PERCENTAGES FOR SOLVENT RECOVERY RESIDUES, AMOUNT LANDFILLED DIRECTLY, AND PERCENTAGE OF ASH ON INCINERATION

Following assembly of the data base and after reviewing to assure that all data included therein represented only that from waste generating operations, Jim Tarpo took a data printout and noted the following percentages based on his clear recollection of the individual customer's past business. He first estimated the amount of solid or unrecoverable material in each company's solvents received at ACS for recovery. In addition, he estimated the percentage of solvent residue remaining after completion of the distillation or other recovery process. Finally, he estimated the percentage of ash remaining after incineration. Since there were no dust collectors on these incinerators, ash collection was low, and ash came primarily from high solids content material.

## INCINERATION HISTORY

The first incinerator was started in mid-1966. Its operation was initially inconsistent; on-stream time was low as experience was required to properly adjust viscosity and solids content of solvent recovery bottoms for good incinerator on-stream time.

A second incinerator was constructed, and the initial one was modified/rebuilt to provide greater reliability for incinerator operation.

Incinerator operation has been stated to be as follows:

6/1/66 through 12/31/67 - 50% of solvent recovery residue
1/1/68 through 12/31/68 - 65% of solvent recovery residue
1/1/69 through 12/31/69 - 75% of solvent recovery residue
1/1/70 through 12/31/70 - 90% of solvent recovery residue
1/1/71 through 12/31/71 - 95% of solvent recovery residue
1/1/72 through 12/31/75 - 100% of solvent recovery residue

Material accepted for disposal by incineration was always incinerated unless it had solidified or contained rubbish. In either of these cases, a percent "direct to landfill" was stated by Tarpo.

## CALCULATION OF SOLIDS TO THE LANDFILL

Since the primary billing that appears in the transaction log refers to recovered solvent volume, it does not represent the actual volume received at ACS. To determine "gross pounds in", it was necessary to calculate back up to total pounds of contaminated or dirty solvent received for recovery. (This was based on Tarpo's estimate of the percent of residue after the recovery operation plus the recovered solvent, as shown in the

log.) Where there was also some portion of the shipment directly landfilled, that further gross-up was calculated from Tarpo's estimate of the percent of unrecoverable or solid material directly landfilled upon receipt.

From the gross material received, the percent landfilled directly, the percent residue after solvent recovery, the percent of solvent recovery residue incinerated (by year), and the percent ash remaining to be landfilled following incineration, the total amount landfilled for each company was calculated by category and in total.
