All,

I’ve set up a website: www.epaosc.org/toconasbestos

I will post photos, documents and updates there as we go along with the project.

Also, if you haven’t heard. Several of the samples we took on Monday came back positive for asbestos up to 15%. The data is on the website.

Subject: Emergency Action to stabilize TOCON property asbestos site

All,

So all of you know, I have initiated an emergency response action to stabilize the TOCON Property in Goshen. Activities will begin tomorrow with erecting a fence, covering piles containing asbestos and installing signs along the fence line indicating the presence of asbestos on the site. We anticipate to have the fence up and piles covered by the end of this week with signs installed no later than next week.

I will also move forward with scheduling a removal action in the next few months.

Thanks and let me know if you have any questions.
