Deep Water Horizon Incident

Report # 4

Reporting Period: Thursday May 6, 2010

Current Situation:

- Certified Specialists in Poison Information (CSPI's) are being updated with newly released information regarding the spill and dispersants being utilized.
- Data from the Alabama Poison Center in Tuscaloosa is included in today's report.
- We have discussed obtaining data from the 3 poison centers in Florida with representatives of those centers today. We are working to have spill related call data from Florida added to the report next week.
- Poison Centers have resources to accommodate callers who communicate in many different languages. On demand translation service is available and allows us to communicate with anyone in over 170 different languages.
