TIME 9:15 am

SUBJECT
Cleanup of Fire Training Areas at Ft. Bliss

SUMMARY OF COMMUNICATION
Clark Gunion of Kansas City COE called me for information on cleanup of 3 FTA's at Ft. Bliss. Specifically he wanted to know 1) cleanup requirements under SARA, and 2) if I knew whether a closure plan had been submitted to the State. After checking with Joyce Stubblefield in EPA RCRA and with Susan Ferguson, TWC, I called Mr. Gunion to report my findings.

I explained to Mr. Gunion that a recent RCRA inspection indicated the FTA's had been operational until 1984 which made them fall under the auspices of RCRA. I told him the TWC was interested in the FTA cleanup, and that the State contact is Jim Martin (512) 463-8540. I explained that in terms of legal requirements the State would have the lead, and that since Ft. Bliss is not on the NPL, ~~SARA~~ EPA has essentially no authority to enforce SARA cleanup standards and that their involvement with us under SARA would be as a matter of courtesy and coordination.

I also explained that a closure plan was in the RCRA files but that it was for the drum storage area, not the FTA's themselves. He hadn't seen that plan and requested I send him a copy.

CONCLUSIONS, ACTION TAKEN OR REQUIRED
1. Send cy of Bldg. 11614 closure plan to Mr. Gunion
