Subject: Mining Company Attorney Homestake
Date: Friday, March 08, 2013 2:32:52 PM

Hello
I attended a public meeting in October 2012. In Grants(?) This meeting was attended by Sam Coleman, Lisa Price, Sai Appaji, Ghassan Khoury, Steve Harper, and John Meyer. The meeting was providing an update to the sampling and the status of the risk assessment. Also Al Cox and his attorney also attended. The announcement was also made that the radon abatement systems would be installed in 10 homes adjacent to Homestake Mill. The attorney representing Homestake said the he had clients that have mining sites that would be willing to enter into a good samitarian agreement. I think that it would worthwhile to contact him and see if he has clients that would be willing to do the work on the legacy mines. I do not know the attorney's name.
