**Attachments**: Sampling Size Needed to Meet 95% Confidence v3.docx

Dear Kasheica and Amy,

I am sorry I forgot you wanted this too.

Dear Danielle,

I'm sorry we were so distracted last Wed by other topics that I didn't give you this internal, deliberative, predecisional draft to you, as you requested. This is a draft in which we played around with different clusters. Of course, Donna, EPA's statistician, can vary the manner of clustering and show different outcomes depending on that. I'm cc'ing her if you have questions or comments on this draft.
