Date:	Monday, November 28, 2016 11:45:00 AM

There is just myself, Michelle Brown from Weston and possibly Jon Rinehart- this is an informal technical meeting. We would like to pick your brains. We are trying to gather current and historical information on some of the mines in the basin as we begin to develop our listing strategy. Was hoping to look at the files, and then be able to ask questions about the mines on Friday morning.

Subject: RE: San Mateo Basin Mines Meeting

I am available on the 9th to meet. I believe we met over at EMNRD last time in the Secretary's conference room-Wendell Chino Building. The discharge permit files are over here at NMED, in the Runnels Building.
We have a meeting space downstairs that can accommodate about 12 comfortably.
Please let us know how many folks from EPA will be in attendance so we can reserve an appropriate meeting room.
Also, please let us know if EPA is bringing a lawyer and the need for legal representation at this meeting.
Thanks,

Hi Holland, Bill and Mark

Would it possible to meet at NMED's building like we did last time. I would like to be able to look at some of the state files and then meet with the group- Would it possible for us to look at files on Thursday December 8 at 1:00 pm and then meet with the group on Friday December 9 at 8:30 am? I can send a list of the mines we are most interested in reviewing the files for early next week. Let me know if this works for most.

Subject: San Mateo Basin Mines Meeting

Hi all,
I would like to meet with the State regarding the mines within San Mateo Basin that we are evaluating for potential inclusion in the draft NPL package. Please let me know if you are available to meet on December 8 or 9th. Our continuing resolution ends on the 9th, and I am not sure whether we will be able to travel after the 9th. If these dates are not good, please let me know which days you would be available and I will try my best to work something out.
