Subject: Please give Legal review to this revised version - draft Parcel B Comments - Narrative
Attachments: Parcel B Draft Rad Data Eval EPA Comments - Narrative v4 - 12-1-2017.docx

Thanks Brianna for your helpful comments. This version incorporates your comments.

Table 1 also adds that this afternoon Karla and Tracy agreed to 4 more fill units that need resampling (need confirmation from Nina on Mon)

It also adds the 2 trench units and 1 fill unit for which the Navy recommended only analyzing archived samples. I forgot that since our previous comments called into question the integrity of the archived samples, we should add those. Since no Parcel G survey units fell into that category, this doesn't affect them.

Dear Brianna,

I am resending this. Also, I will add a comment and add tables showing data quality vs. falsification.

Lily

Subject: Legal review - draft Parcel B Comments - Narrative

Dear Brianna,

Please do a legal review of this draft set of comments for Parcel B (and a little more for Parcel G)

I am separately also working on a cover ltr that will give highlights of the combined Parcel B & G comments.
