Subject: FW: 1604 - Subcontract Consent Request for T&D; TO 0308

Hello Will and Latrice:

I agree with the selection of Republic Services as the vendor for disposal of contaminated materials associated with the cleanup at the FJ Doyle Salvage Site. We are hoping to get this approved as soon as possible as we would like to get accumulated soil stockpiles offsite prior to Thanksgiving. I will be sending a second review for transportation soon as well.

Waste Disposal at FJ Doyle Salvage – OSC Technical Evaluation

1. technical need and appropriateness of the supplies or services: There are no other options for disposal other than landfill of the subject wastes. Republic Services operates landfills throughout the United States and the particular landfills that are to be used for this project are CERCLA approved and will be necessary for the disposal of contaminated soils from the site. They are the closest to the subject site and therefore cost for transportation will also be lower.

2. reasonableness of the subcontract estimate: Republic Services has the closest landfills to the site and the best value and lowest cost associated with disposal of contaminated soils. Based upon the ER LLC cost evaluation, Republic services is the lowest cost for waste disposal.

3. types and quantities of proposed other direct costs: The disposal will include both TSCA and non-TSCA soils. The total volume to be disposed is estimated as follows: 5000 tons (Non-TSCA soils); 3000 tons (TSCA Soils);
   150 tons (C&D)

4. skill level, labor mix, and direct labor hours to be expended; The is not applicable as the cost is based upon a cost/ton basis.

9974227

5. capabilities of the proposed subcontractor: Republic Services operates landfill throughout the United States and all landfills proposed to be used for this project are CERCLA approved. Republic Services has been used on numerous projects for EPA. The most recent is Henryetta Iron and Metal. They have historically been reasonable and provide excellent service.

Thanks
Gary Moore

Subject: RE: 1604 - Subcontract Consent Request for T&D; TO 0308

Hi Latrice, please see the attached revision to this subcontract consent request for approval. A separate procurement was awarded for the transportation of the waste therefore those associated costs have been removed from the previous consent request with this revision. This request is for disposal services only at the site with Republic Services. Please contact me if you have any questions.

Thanks
Evan
